 Leigh Glover,2016-11-03 City and state governments around the world are struggling to achieve environmentally sustainable
 transport Economic technological city and transport planning and human behaviour solutions are often hampered by
 ineffective implementation So attention is now turning to institutional governmental and political barriers Approaches to
 these implementation problems assume that transport ownership can only be public owned by state entities or private
 corporate or personal Another option largely unexplored to date is communal ownership of transport Community Owned
 Transport proposes and develops the notion that communal ownership has a historical basis and provides unique
 opportunities for providing personal mobility It looks at the historical roots of modern urban transport s failings as those of
 technological change and the associated governing of transport systems particularly the role of public sector institutions
 Community ownership is explored through the new sharing economy developments car sharing ridesharing and bicycle share
 schemes and older social innovations in ecovillages and communal living Models and practices of community ownership of
 transport are provided and this study also discusses how community ownership might contribute to sustainable transport
 Drawing widely on different disciplines and fields of scholarship this book explores the conceptual and practical aspects of
 communal ownership of transport It will be a valuable resource for those seeking innovative approaches to addressing the
 pressing problems of transport including graduate and postgraduate students as well as policymakers practitioners and
