Moving Pictures Will Romano,2023-01-02 There s nothing like it in the Rush catalog or indeed in the entire prog rock canon Stylistically expansive and intellectually ambitious 1981 s *Moving Pictures* was a landmark release one that helped define the progressive genre and that ensured Rush s place in the rock pantheon In this definitive account of the album s creation and legacy author Will Romano explores the rare alchemy behind a record that continues to inspire musicians and listeners even today While *Permanent Waves* and *Hemispheres* were important releases in Rush s evolution as a band *Moving Pictures* marked a turning point for the Canadian trio in more ways than one It was not only a creative triumph but a commercial one with sales and airplay that blasted them into the stratosphere of rock stardom Beyond the individual power of its seven songs however the key to its lasting significance is the distinctive overarching vision that Geddy Lee Alex Lifeson and Neil Peart brought to the album As Romano shows *Moving Pictures* reconciled opposing creative sensibilities to a remarkable degree giving the record real thematic depth while at the same time rendering it the very antithesis of a concept album Each track was carefully layered with cinematic and multisensory meaning paradoxically using music to evoke experiences beyond the strictly aural Consistently insightful and frequently surprising this book is filled with behind the scenes details based on new research and interviews and it guides readers through the album s dizzying array of allusions and inspirations Newbies and fervent Rush fans alike will find this an illuminating exploration of one of the band s most enduring achievements

High-level Motion Processing Takeo Watanabe,1998 The contributors to this book focus on such key aspects of motion processing as interaction and integration between locally measured motion units structure from motion heading in an optical flow and second order motion They also discuss the interaction of motion processing with other high level visual functions such as
