Moving Pageant A Literary Sourcebook On London Street Life 1700 1914:

The Moving Pageant, 1998 **The Moving Pageant** Rick Allen, 2006-10-19 The Moving Pageant is the first annotated anthology of writings on London street life It comprises nearly one hundred extracts from over two centuries of literary life including pieces by Alexander Pope Jonathan Swift Daniel Defoe Samuel Johnson Eliza Haywood Horace Walpole William Hazlitt William Wordsworth Charles Dickens Flora Tristan Edgar Allen Poe Charlotte Bronte Fyodor Dostoyevsky Octavia Hill Beatrice Potter Henry James Oscar Wilde Arnold Bennett Joseph Conrad H G Wells The volume assembles a rich and varied selection of this abundance of writing showing London as truly unique in its immensity and ultimately supremely representative of our modern urban world in the making The Moving Pageant comes complete with a superb editor's introduction illustrations and biographical and critical commentaries on each of the writers' entries It also displays many genres and styles of writing and includes street ballads music hall songs excerpts from novels epic poems and documentary accounts of riots and executions as well as descriptions of state pageants and processions **The Flaneur in**

Nineteenth-Century British Literary Culture Isabel Vila-Cabanes, 2018-10-15 The flaneur is a cultural and literary phenomenon usually associated with nineteenth century Paris but the type also exists in the artistic and literary panorama of other major European capitals such as London Berlin and Moscow Despite massive recent interest in the figure of the flaneur in scholarly studies analyses about the nineteenth century British analogue are often fragmentary appearing in the form of isolated articles However there is an abundant amount of nineteenth century novels sketches and journalistic essays which offer remarkable and hitherto overlooked accounts of the British metropolis and which frequently include the figure of the flaneur as a central character or the topic of flânerie as a theme This book explores a great array of texts making an essential contribution to our knowledge and understanding of the prehistory or rather history of the British flaneur from the early eighteenth century to the early twentieth century with a special focus on the nineteenth century The flaneur is looked at as a figure in which the development and dynamics of the modern metropolis and its impact on the literary discourse are manifested from a formal as well as thematic perspective **Dickens, Reynolds, and Mayhew on Wellington Street**

Mary L. Shannon, 2016-03-09 A glance over the back pages of mid nineteenth century newspapers and periodicals published in London reveals that Wellington Street stands out among imprint addresses Between 1843 and 1853 Household Words Reynolds's Weekly Newspaper the Examiner Punch the Athenaeum the Spectator the Morning Post and the serial edition of London Labour and the London Poor to name a few were all published from this short street off the Strand Mary L Shannon identifies for the first time the close proximity of the offices of Charles Dickens G W M Reynolds and Henry Mayhew examining the ramifications for the individual authors and for nineteenth century publishing What are the implications of Charles Dickens his arch competitor the radical publisher G W M Reynolds and Henry Mayhew being such close neighbours Given that London was capital of more than Britain alone what connections does Wellington Street reveal between London

print networks and the print culture and networks of the wider empire How might the editors experiences make us rethink the ways in which they and others addressed their anonymous readers as friends as if they were part of their immediate social network As Shannon shows readers in the London of the 1840s and 50s despite advances in literacy print technology and communications were not simply an imagined community of individuals who read in silent privacy but active members of an imagined network that punctured the anonymity of the teeming city and even the empire City Of Cities Stephen Inwood,2011-07-06 By 1880 London capital of the largest empire ever known was the richest most populous city in the world And yet it remained an overcrowded undergoverned city with huge slums gripped by poverty and disease Over the next three decades London began its transformation into a new kind of city one of unprecedented size dynamism and technological advance In this highly evocative account Stephen Inwood defines an era of unique character and importance by delving into the lives and textures of the booming city He takes us by hansom cab bicycle electric tram or motor bus from the glittering new department stores of Oxford Street to the synagogues and sweat shops of the East End from bohemian bars and gaudy music halls to the well kept gardens of Edwardian suburbia Essential reading for the scholar the historian and the lover of London He is equally at home with the grand sweep and the human detail always supported by immaculate research Inwood can throw off with elegant ease a concise explanation of technicalities that the reader was vaguely aware of not

understanding and perhaps meant to look up sometime Liza Picard Financial Times Magazine **Routledge Handbook of Street Culture** Jeffrey Ross,2020-10-05 Discussions of street culture exist in a variety of academic disciplines yet a handbook that brings together the diversity of scholarship on this subject has yet to be produced The Routledge Handbook of Street Culture integrates and reviews current scholarship regarding the history types and contexts of the concept of street culture It is comprehensive and international in its treatment of the subject of street culture Street culture includes many subtypes situations locations and participants and these are explored in the various chapters included in this book Street culture varies based on numerous factors including capitalism market societies policing ethnicity and race but also advances in technology The book is divided into four major sections Actors and street culture Activities connected to street culture The centrality of crime to street culture and Representations of street culture Contributors are well respected and recognized international scholars in their fields They draw upon contemporary scholarship produced in the social sciences arts and humanities in order to communicate their understanding of street culture The book provides a comprehensive and accessible approach to the subject of street culture through the lens of an inter and or multidisciplinary perspective It is also intersectional in its approach and consideration of the subject and phenomenon of street culture **Nights Out** Judith Walkowitz,2012-05-15 London s Soho district underwent a spectacular transformation between the late Victorian era and the end of the Second World War its old buildings and dark streets infamous for sex crime political disloyalty and ethnic diversity became a center of culinary and cultural tourism servicing patrons of nearby shops and theaters Indulgences for the

privileged and the upwardly mobile edged a dangerous transgressive space imagined to be outside the nation Treating Soho as exceptional but also representative of London's urban transformation Judith Walkowitz shows how the area's foreignness and porousness were key to the explosion of culture and development of modernity in the first half of the twentieth century She draws on a vast and unusual range of sources to stitch together a rich patchwork quilt of vivid stories and unforgettable characters revealing how Soho became a showcase for a new cosmopolitan identity

Cityscapes in History Hélène Tóth, 2016-05-23 Cityscapes in History Creating the Urban Experience explores the ways in which scholars from a variety of disciplines history history of art geography and architecture think about and study the urban environment The concept cityscapes refers to three different dynamics that shape the development of the urban environment the interplay between conscious planning and organic development the tension between social control and its unintended consequences and the relationship between projection and self presentation as articulated through civic ceremony and ritual The book is structured around three sections each covering a particular aspect of the urban experience The City Planned looks at issues related to agency self perception the transfer of knowledge and the construction of space The City Lived explores the experience of urbanity and the construction of space as a means of social control And finally The City as a Stage examines the ways in which cultural practices and power relations shape and are in turn shaped by the construction of space Each section combines the work of scholars from different fields who examine these dynamics through both theoretical essays and empirical research and provides a coherent framework in which to assess a wide range of chronological and geographical subjects Taken together the essays in this volume provide a truly interdisciplinary investigation of the urban phenomenon By making fascinating connections between such seemingly diverse topics as 15th century France and modern America the collection raises valuable questions about scholarly approaches to urban studies
