Mr Smith Goes To Ottawa Life In The House Of Commons:

Comparative Studies of Policy Agendas Frank R. Baumgartner, Christoffer Green-Pedersen, Bryan D. Jones, 2013-09-13
Previously published as a special issue of the Journal of European Public Policy this book draws on the insights of the existing literature on agenda setting and policy changes to explore the dynamics of attention allocation and its consequences. Attention is a crucial variable in understanding modern politics. Shifts in attention have dramatic consequences for both politics and policy decisions. This volume includes case studies of nine different political systems including the US, Canada, several European systems and the EU itself. It asks the following questions: Which are the dynamics of agenda setting in the EU? Which role do political parties play in attention allocation? What are the cross-national differences in attention to health care? What role does science and expertise play in attention allocation? What are the effects of political institutions? *Comparative Studies of Policy Agendas* will be of interest to students and scholars of policy analysis and public policy.

Autonomy and Regulation Tom Christensen, Per Lægreid, 2006-01-01 This book focuses on regulatory reforms and the autonomization and agencification of public sector organizations across Europe, Canada, New Zealand and Australia. The central argument of the book is that regulation and agencification occur and perform in tandem. Comparative analysis on the processes, effects and implications of regulatory reform and the establishment of semi-independent agencies are undertaken and the practice of trade-offs between political control and agency autonomy is explored. The contributors also discuss the challenges of fragmentation, coordination, joined-up government and other government initiatives in the aftermath of the New Public Management movement and its focus on agencification. Finally, the complexity of deregulation, re-regulation, new emergent forms of regulation, control and auditing as well as reassertion of the centre are examined. Until now there has been little attempt to link the study on regulation and regulatory reforms with that of autonomous central agencies. In this book the two fields are brought together. *Autonomy and Regulation* will find its audience amongst scholars and researchers working in the areas of political science, public administration and public management, organization theory, institutional analyses and comparative administration. It will also appeal to scholars and those directly involved in public sector and regulatory reforms, including politicians and managers.

The Blueprint J.P. Lewis, Joanna Everitt, 2017-01-01 In this collection J.P. Lewis and Joanna Everitt bring together a group of up and coming political scientists as well as senior scholars to explore the recent history of the Conservative Party of Canada covering the pre-merger period 1993-2003 and both the minority and majority governments under Prime Minister Stephen Harper. The contributors provide nuanced accounts about the experience of conservatives in Canada which reflect the contemporary evolution of Canadian politics in both policy and practice. They challenge the assumption that Harper's government was built upon traditional Toryism and reveal the extent to which the agenda of the CPC was shaped by its roots to the Reform and Canadian Alliance Parties. Organized thematically, the volume delves into such topics as interest advocacy, ethno-cultural minorities, gender, the media, foreign policy and more. The

Blueprint showcases the renewed vigour in political studies in Canada while revealing the contradictory story of the modern Conservative Party

Canadian Democracy from the Ground Up Elisabeth Gidengil, 2014-01-01 Canada is often held up as an example of a healthy democracy However the Canadian public is less enthusiastic about the way our democracy works Rather than focusing on institutional performance this book approaches the democratic deficit from the perspective of the Canadian public and assesses the performance of political leaders and the media in light of Canadians perceptions and expectations In doing so a number of chapters highlight the disjuncture between perceptions and performance For example governments do keep many of their election promises and media coverage is not as negative as we are apt to believe Similarly the book provides new insights into political apathy by drawing on focus group discussions that represent the first attempt to ask politically marginalized Canadians why they have turned their backs on politics By introducing the voice of everyday Canadians this book adds a new perspective to political discussions in this country Canadian Democracy from the Ground Up is essential for anyone who would like to learn how to build a better democracy one that meets the expectations of the Canadian public

Across the Aisle David E. Smith, 2013-01-01 David E

Smith argues that Canada has in fact failed to develop such a tradition. He investigates several possible reasons for this failure including the long dominance of the Liberal party which arrested the tradition of viewing the opposition as an alternative government, periods of minority government induced by the proliferation of parties, the role of the news media which have largely displaced Parliament as a forum for commentary on government policy, and finally the increasing popularity of calls for direct action in politics.

Speaking Truth to Canadians about Their Public Service Donald J. Savoie, 2024-09-10

The federal public service plays a vital role in Canada's development by helping to shape public policies and deliver programs and services to Canadians. *Speaking Truth to Canadians about Their Public Service* provides a comprehensive review of the challenges confronting the public service, how the relationship between politicians and career officials has evolved in recent years, and what motivates public servants. Donald Savoie calls on Canadians and their politicians to consider what they want from their federal public service. Answering this question requires a fresh look at the government's traditional accountability requirements, how policies are shaped, and how government programs and services are delivered. It also requires a review of ambitious modernization and reform measures launched over the past forty years to make the public service more accommodating to political direction and to improve program delivery. Dividing federal public servants into two groups: poets (those who write policy) and plumbers (those who deliver programs and services), the book establishes who has the upper hand. This division sheds new light on the theories that seek to explain the attitudes and behaviours of career government officials. Amid increasingly strong signs that the public service is in need of a reset, *Speaking Truth to Canadians about Their Public Service* concludes with practical recommendations to assist Canadians and their politicians in defining what they want their public service to be.
