NEO-TECH means *new techniques* or *new technology* for gaining previously unknown advantages that generate power, prosperity, and romantic love. ...Neo-Tech is *fully integrated honesty*.

NEOCHEATING means *new cheating* for usurping advantages or values earned by others. Actually, clever people have used neocheating for 3000 years as an unnoticed way to usurp a living from others. But its techniques were not identified until the 1980's. Thus, neocheating is a *new identification*. Before that identification, no one could identify or even define a neocheater, much less stop his or her neocheating. Now, anyone with Neo-Tech knowledge can easily spot neocheaters and then render them impotent. ...With Neo-Tech, neocheaters are doomed.

Industrial Reports , 1946 **Tech** Olivier Alexandre, 2025-09-23 The first holistic analysis of the space mindset and inner workings of Silicon Valley in a generation Sometimes only an outsider can show how an industry works and how that industry works upon the world In Tech sociologist Olivier Alexandre takes us on a revealing tour of Silicon Valley s prominent

personalities and vibrant networks to capture the way its denizens live think relate and innovate and how they shape the very code and conduct of business itself Even seasoned observers will gain insight into the industry s singular milieu from Alexandre s piercing eye He spends as much time with Silicon Valley s major players as with those who fight daily to survive within a system engineered for disruption Embedded deep within the community Alexandre accesses rooms shut tight to the public and reports back on the motivations ambitions and radical vision guiding tech companies From the conquest of space to quantum computing engineers have recast the infinitely large and small Some scientists predict the end of death and the replacement of human beings with machines But at what cost Alexandre sees a shadow hanging over the Valley jeopardizing its future and the economy made in its image Critical yet fair Tech illuminates anew a world of perpetual revolution
