Nukespeak The Selling Of Nuclear Technology In America:

Selling Air Power Steve Call, 2009-03-01 In *Selling Air Power* Steve Call provides the first comprehensive study of the efforts of post war air power advocates to harness popular culture in support of their agenda In the 1940s and much of the 1950s hardly a month went by without at least one blatantly pro air power article appearing in general interest magazines Public fascination with flight helped create and sustain exaggerated expectations for air power in the minds of both its official proponents and the American public Articles in the *Saturday Evening Post* *Reader's Digest* and *Life* trumpeted the secure future assured by American air superiority Military figures like Henry H Hap Arnold and Curtis E LeMay radio television personalities such as Arthur Godfrey cartoon figures like Steve Canyon and actors like Jimmy Stewart played key roles in the unfolding campaign Movies like *Twelve O Clock High* *The Court Martial of Billy Mitchell* and *A Gathering of Eagles* projected onto the public imagination vivid images confirming what was coming to be the accepted wisdom that America's safety against the Soviet threat could best be guaranteed by air power coupled with nuclear capability But as the Cold War continued and the specter of the mushroom cloud grew more prominent in American minds another more sinister interpretation began to take hold Call chronicles the shift away from the heroic patriotic posture of the years just after World War II toward the threatening even bizarre imagery of books and movies like *Catch 22* *On the Beach* and *Dr Strangelove* Call's careful analysis goes beyond the public relations campaigns to probe the intellectual climate that shaped them and gave them power *Selling Air Power* adds a critical layer of understanding to studies in military and aviation history as well as American popular culture

Being Nuclear Gabrielle Hecht, 2014-08-29 The hidden history of African uranium and what it means for a state an object an industry a workplace to be nuclear Uranium from Africa has long been a major source of fuel for nuclear power and atomic weapons including the bomb dropped on Hiroshima In 2003 after the infamous yellow cake from Niger Africa suddenly became notorious as a source of uranium a component of nuclear weapons But did that admit Niger or any of Africa's other uranium producing countries to the select society of nuclear states Does uranium itself count as a nuclear thing In this book Gabrielle Hecht lucidly probes the question of what it means for something a state an object an industry a workplace to be nuclear Hecht shows that questions about being nuclear a state that she calls nuclearity lie at the heart of today's global nuclear order and the relationships between developing nations often former colonies and nuclear powers often former colonizers Hecht enters African nuclear worlds focusing on miners and the occupational hazard of radiation exposure Could a mine be a nuclear workplace if as in some South African mines its radiation levels went undetected and unmeasured With this book Hecht is the first to put Africa in the nuclear world and the nuclear world in Africa By doing so she remakes our understanding of the nuclear age

Governing the Atom John Byrne, Steven M. Hoffman, 2020-02-21 Promoted as a form of limitless low cost energy without the polluting effects of its fossil fuel counterparts nuclear power has enjoyed unparalleled support in several countries Despite the development of an extensive

set of policy and institutional mechanisms to foster its use nuclear technology has been troubled by a wide range of problems and continues to pose risks many believe are far greater than society should accept The legacy of failure ranges from catastrophic accidents like that at Chernobyl to the declaration of bankruptcy by the Washington Public Power Supply System Governing the Atom explores why support for the technology remains substantial The first part of this volume examines the social institutions that have accompanied the development of nuclear power The second part details the numerous accommodations which have been required of society beginning with the technology's Impact on communities and geographic regions particularly affected by mining and milling The technology's inherent tendency towards normal accidents and the conflict between expert and public opinion on the dangers involved is examined as are the on going problems of waste disposal and decommissioning The volume concludes with an examination of nuclear power developments in France Germany Russia and the Commonwealth of Independent States Eastern Europe Korea and Japan The volume provides a needed vehicle for the timely consultation and dissemination of current research on important energy policy issues Governing the Atom provides insightful commentary regarding the initiation and development of nuclear technology It will be of interest to policymakers energy and environmental experts sociologists and historians of technology and all those interested in the problem of democracy in a technological society

Uranium Tom Zoellner, 2009 A history of the powerful mineral element explores its role as a virtually limitless energy source its controversial applications as a healing tool and weapon and the ways in which its reputation has been used to promote war agendas in the middle east

Uranium Chetan Bisariya, 1982

Multiple Exposures Catherine Caufield, 1990-04-16 Catherine Caufield has written an important book on an important topic the history behind the safety standards limiting the effects of high energy radiation on human beings Provides an immense amount of information in a very readable form W Alan Runciman Prometheus From fallout and radon to radioactive smoke detectors and dental X rays Caufield traces the proliferation of the uses of radiation in medicine industry and the military and in generating energy An intelligent non alarmist history Publishers Weekly

[Civil Defense Begins at Home](#) Laura McEnaney, 2020-10-06 Dad built a bomb shelter in the backyard Mom stocked the survival kit in the basement and the kids practiced ducking under their desks at school This was family life in the new era of the A bomb This was civil defense In this provocative work of social and political history Laura McEnaney takes us into the secretive world of defense planners and the homes of ordinary citizens to explore how postwar civil defense turned the front lawn into the front line The reliance on atomic weaponry as a centerpiece of U S foreign policy cast a mushroom cloud over everyday life American citizens now had to imagine a new kind of war one in which they were both combatants and targets It was the Federal Civil Defense Administration's job to encourage citizens to adapt to their nuclear present and future As McEnaney demonstrates the creation of a civil defense program produced new dilemmas about the degree to which civilian society should be militarized to defend itself against internal and external threats Conflicts arose about the relative responsibilities of state and

citizen to fund and implement a home front security program The defense establishment's resolution was to popularize and privatize military preparedness The doctrine of self help defense demanded that citizens become autonomous rather than rely on the federal government for protection Families would reconstitute themselves as paramilitary units that could quash subversion from within and absorb attack from without Because it solicited an unprecedented degree of popular involvement the FCDA offers a unique opportunity to explore how average citizens community leaders and elected officials both participated in and resisted the creation of the national security state Drawing on a wide variety of archival sources McEnaney uncovers the broad range of responses to this militarization of daily life and reveals how government planners and ordinary people negotiated their way at the dawn of the atomic age Her work sheds new light on the important postwar debate about what total military preparedness would actually mean for American society

Newspeak (Routledge Revivals) Jonathon Green, 2013-10-02 George Orwell coined the term Newspeak for his novel 1984 the purpose of which was designed to shrink vocabularies and eliminate subtlety and nuance For this dictionary first published to herald the year 1984 Jonathon Green compiled nearly 8 000 entries selected from the slangs and specific vocabularies of trades professions and interests covering such areas as the world of entertainment the media the military economics and finance This dictionary provides an accurate and useful linguistic guide for students of lexicography and an interesting compendium for the general inquisitive reader

Government Secrecy Jan Goldman Ph.D., Susan Maret, 2008-12-30 Government Secrecy presents the best that has been thought and written on the subject including history and philosophy theory and practice justification and critique Through readings which range from Georg Simmel on secrecy and Max Weber on bureaucracy and secret keeping to post 9 11 concerns regarding freedom of information and presidential secrecy it enables readers to explore the issues and questions that surround the government's right to keep necessary secrets or not This collection and the diverse perspectives it represents will engage students and other interested parties in a discussion of the benefits and dangers of government secrecy The collection is designed to generate questions regarding historical accuracy of government information information ethics professional neutrality ownership of information public right to information national security and transparency The essays explore the criteria and conditions for government secret keeping as well as contributing to public and academic discussion of the role of secrets in democracies

Postmodern War Chris Hables Gray, 2013-11-12 Postmodern War poses an urgent challenge to the ways we conceptualize and actually wage war in our high technology age Computerization and artificial intelligence have brought about a revolution in warfare spawning both increasingly powerful weapons and a rhetoric which disguises their apocalyptic potential in catch phrases like smart weapons and bloodless combat Postmodern War examines contemporary practices of war defining and critiquing trendy military doctrines hidden behind phrases like Infowar and Cyberwar the roles of those who manipulate high technology those who are manipulated by it and those who are increasingly merging with it the role of peace activists and socially responsible scientists in countering

dangerous assumptions made by a postmodern military Far from opposing technological change however Gray finds new hopes for peace in the twenty first century Provocative and far reaching in its scope the book argues that postmodern war has left us poised between the most dreadful and most utopian of alternatives we may eradicate either the human race or war itself *Secret Agents* Marjorie Garber, Rebecca Walkowitz, 2013-10-18 When the American Bar Association recreated the trial of Ethel and Julius Rosenberg on the fortieth anniversary of their execution the jury acquitted the mock Rosenbergs finding that in today s courts they would not have been convicted of espionage The 1950s trial of the Rosenbergs on charges of Atomic Spying and stealing the secrets of the Atomic bomb was a major event of Cold War America galvanizing public opinion on all sides of the question *Secret Agents* presents essays by lawyers cultural critics social historians and historians of science as well as a reconsideration of the Rosenbergs by their younger son Robert Meeropol *Secret Agents* gives new resonance to a history we have for too long been willing to forget *The Language Web* Jean Aitchison, 1997 Language is like a vast spider s web In this volume Jean Aitchison explores the different facets of this web She begins with the cobweb of false worries which surrounds language She then discusses how language evolved in the human species how children acquire it and how educated English speakers remember 50 000 or more words Finally she argues that people are right to be concerned about language though not in the ways traditionally assumed This is the text of the 1996 BBC Reith lectures slightly revised for publication with illustrations and full references and an afterword which looks at the reception of the lectures *Site Unseen* Gerald Jacob, 2010-11-23 Gerald Jacob views the history of public policy regarding nuclear waste culminating in the 1982 Nuclear Waste Policy act and its aftermath The 1982 act promised a solution but Jacob believes it deferred to the interests of the nuclear utilities and the U S Department of Energy He describes how the nuclear establishment used science and geography to protect its interests and dominate nuclear waste policy making He examines the federal promotion of nuclear power and asserts that federal policies strong armed public opposition and locked the country into a single but flawed waste disposal solution *The Arkansas* William Mills, 1988-01-01 1989 Chicago Book Clinic Design Award **Edward Teller** Peter Goodchild, 2004 Goodchild unravels the complex web of harsh early experiences character flaws and personal and professional frustrations that lay behind the paradox of the father of the H bomb **The - Z of Nuclear Jargon (Routledge Revivals)** Jonathon Green, 2014-04-23 First published in 1986 the purpose of this dictionary is to clarify the technology behind nuclear jargon The entries deal with all areas of nuclear warfare its strategies and tactics personnel and weapons systems arms control and disarmament talks The terminology of the nuclear age expands and changes as fast as the weapons and strategies it describes the dictionary therefore covers a span ranging from the first tentative post Hiroshima ideas and systems through to the near fictions of the Star Wars initiative This fascinating reissue will be of particular value to those in need of a comprehensive guide to the vocabulary of nuclear warfare as well as students of linguistics with a particular interest in slang and jargon **Bombs in the Backyard** A. Constandina Titus, 2016-04-15 On

January 27 1951 the first atomic weapon was detonated over a section of desert known as Frenchman Flat in southern Nevada providing dramatic evidence of the Nevada Test Site s beginnings Fifty years later author A Costandina Titus reviews contemporary nuclear policy issues concerning the continued viability of that site for weapons testing Titus has updated her now classic study of atomic testing with fifteen years of political and cultural history from the mid 1980s Reagan Gorbachev nuclear standoff to the authorization of the Nevada Test Site Research Center a Desert Research Institute facility scheduled to open in 2001 In this second edition of *Bombs in the Backyard* Titus deftly covers the post Cold War transformation of American atomic policy as well as our overarching cultural interest in all matters atomic making this a must read for anyone interested in atomic policy and politics

Learning to Glow John Bradley,2000 Provides personal accounts of people who were raised during the Cold War and of those who were directly in contact with nuclear weapons during World War II the Korean War and the Persian Gulf War focusing on the health and environmental hazards of nuclear weapons

MediaSpeak Roy F. Fox,2000-10-30 This book defines and analyzes the content structure and values of three predominant types of public discourse which are labeled Doublespeak Salespeak and Sensationspeak These media messages are examined to determine how they are constructed and how they influence individuals ideology and culture Discussions are illustrated with a diverse range of examples from popular culture magazines Internet sites politics television and film Fox argues that the Information Age has replaced actual reality with representations of reality He states that electronic media dominates our lives Together these three voices saturate media and technology profoundly influencing American culture Fox suggests specific strategies for recognizing and understanding these coded messages This lively and informative discussion will appeal to anyone who is interested in learning how print and electronic media manipulate both individuals and society as a whole The extensive research will appeal to media communications journalism and cultural studies scholars alike

Pragmatic Perspectives on Language and Linguistics Volume II Iwona Witczak-Plisiecka,2013-01-16 Pragmatics of Semantically Restricted Domains the second volume of *Pragmatic Perspectives on Language and Linguistics* edited by Iwona Witczak Plisiecka gathers papers which partly complement and develop the first volume *Speech Actions in Theory and Applied Studies* Cambridge Scholars Publishing 2010 Most of the texts collected in this book representative of advanced independent research and that of an informed exercise in the application of a pragmatic framework result from the Fourth Symposium on New Developments in Linguistic Pragmatics organized at the University of d Poland in May 2008 Accepting the inevitable failure of any attempt to pose a strict and clear cut division between the research area of semantics and that of pragmatics the volume focuses on pragmatics oriented analyses of data which are best described as semantically limited While Volume One concentrated on speech as a type of action the present volume without denying the inherently actional nature of language use concentrates on limited contexts Pragmatic phenomena in semantically restricted domains are addressed from a variety of both theoretical and applied perspectives The book is divided in three parts Part One Pragmatics Politics and Ideology gathers seven papers

centered on issues pertaining to political linguistics In Part Two The Pragmatics of Humour Power and the Media there are eight papers which explore issues of politeness and modesty pragmatic aspects of mediated and gendered discourse or dynamicity of power relation in interaction Part Three Focus on Textual Properties concentrates on text excluding political discourse It integrates discussions of equivalence and specialized translation intertextual properties and pragmatically motivated lexical choices in business communication in law and in science
