Juvenile Offenders and Victims, 2006 *Honour Killings and Criminal Justice* Ferya Taş-Çifçi, 2020-03-06 Despite recent reforms to the Turkish Penal Code the country retains a high level of honour based violence This book analyses the motives behind honour based violence in Turkey and examines the criminal justice system s approach to this type of crime The work takes a socio legal approach to explore the concepts of honour patriarchy and hierarchy along with the roles of culture and tradition It also examines how the legal system deals with this phenomenon focusing on the decisions of the criminal courts in honour killing cases and drawing on prisoner interviews These analyses show the extent to which the State follows a patriarchal approach when dealing with honour killings and inform recommendations for improving the legal and criminal justice system so as to deter crimes of this nature

Victims Before the International Criminal Court Christoph Safferling, Gurgen Petrossian, 2021-09-16 The book analyses the difficulties the International Criminal Court faces with the definition of those persons who are eligible for participating in the proceedings Establishing justice for victims is one of the most important aims of the court It therefore created a unique system of victim participation Since its first trial the court struggles to live up to the expectancies its statute has generated The book offers a new approach of how to define victimhood by looking at the different international crimes It seeks to offer guidance for the right to participate in the different stages of the proceedings by looking at the practice in national jurisdictions Lastly the book offers insights into the functioning of the reparation regime at the ICC by virtue of the Trust Fund for Victim and its different mandates The critical analysis of the ICC practice with regard to definition participation and reparation aims at promoting a realistic approach which will avoid the disappointing of expectations and thus help to enhance the acceptance of the ICC

Framing Impunity in the Context of State Crime Sanya Karakas, 2024-08-20 This book introduces a new conceptual framework for impunity within state crime theory and uses Turkish state criminality against Kurds between 1990 and 2000 as a case study It develops an understanding of impunity that goes beyond viewing the state solely as an actor facilitator or denier of crime It argues for an expanded definition of state crime to encompass criminal acts and processes undertaken by states including impunity Building on field research case analysis and interviews this book digs deep into the mechanics of impunity and ways in which the Turkish state has evaded punishment for its criminal acts In doing so Framing Impunity in the Context of State Crime uncovers a close connection between the crimes of the government and the impunity which allowed those crimes to flourish It demonstrates that state violence and impunity are endemic in the structural design of the Turkish state and serve to further both the state goals of ethnic and religious assimilation and the subsequent persecution of those who refused to be assimilated into the new state construction The book uses Stanley Cohen s work on states of denial techniques to examine how states justify their illegal acts in order to deny and or to evade responsibility for their crimes Cohen s work on denial at the organisational level is central to the question of impunity because as a form of state crime impunity involves various state institutions or actors representing the very state machinery deployed to conceal and deny state criminality An accessible and compelling read this book will appeal to law students scholars researchers NGOs and civil society organisations It will have broader applicability beyond the case study of Turkey and will be valuable to academics and policymakers worldwide who focus on the intersection of state crime and impunity

Cosmopolitanism and the Development of the International Criminal Court Jennifer Biedendorf, 2019-08-01 Cosmopolitanism and the Development of the International Criminal Court analyzes a set of prominent and competing discourses that emerged in the context of the development and establishment of the International Criminal Court ICC The ICC is the first permanent juridical body designed to prosecute individuals who commit offences including war crimes crimes against humanity and genocide Drawing on scholarship on public memory and human rights the book argues that international law and the international human rights system play a key role for the development of transnational memory discourses and transnational or cosmopolitan subjectivities Despite the International Criminal Court being recognized as a landmark development in global cooperation an examination of key events in the development of the court shows how some state and nonstate actors advance calls for cosmopolitanism while others resist cosmopolitanism to bolster nation state sovereignty Drawing on the establishment of the International Criminal Court as a case study the book examines several events that continue to shape national and international public discourse The book examines debates that occurred during the drafting process of the international treaty at the United Nations and that led to the groundbreaking inclusion of provisions on gender and sexual violence in the Rome Statute of the ICC in 1998 The analysis discusses the tension between feminist advocates rhetoric and the discourse of anti women s rights actors involved in the treaty making process who resisted such inclusions in international criminal law The book analyzes other key events related to the establishment of the ICC that invoke tensions between competing demands of cosmopolitanism and national sovereignty including advocacy campaigns by nongovernmental organizations working to drum up public support of the institution of the International Criminal Court and the debates surrounding the unprecedented act of the United States unsigning an international treaty In sum this examination of the rhetoric of state and nonstate actors attempting to shape the

court according to their visions of global community shows how discourses about international criminal law and human rights are employed not only to advance cosmopolitanism but also to strengthen nationalist discourses

The Local Impact of the International Criminal Court The Local Impact of the International Criminal Court Marieke Wierda, 2023-07-20 The International Criminal Court seeks to end impunity for the world's worst crimes to contribute to their prevention But what is its impact to date This book takes an in depth look at four countries under scrutiny of the ICC Afghanistan Colombia Libya and Uganda It puts forward an analytical framework to assess the impact of the ICC on four levels on the domestic legal systems systemic effect on peace negotiations and agreements transformative effect on victims reparative effect and on the perceptions of affected populations demonstration effect It concludes that the ICC is having a normative impact on domestic legal systems and peace agreements but it has brought little reparative justice for victims and it does not necessarily correspond with how affected populations view justice priorities The book concludes that justice for the world's worst crimes has no universal formula that can easily be captured in law by one institution

The Reparation System of the International Criminal Court Eva Dwertmann, 2010-03-02 When the

Rome Statute for the International Criminal Court was adopted in 1998 one of its great innovations was that victims were granted an active role in the proceedings In its early jurisprudence on victims rights the International Criminal Court stated that the success of the Court is to some extent linked to the success of its reparation system This book is among the first to focus on the International Criminal Court s power to order reparations to victims It provides a comprehensive analysis of the legal framework of the reparation system taking into account relevant Court decisions Possibilities for its implementation are drawn up providing potential solutions for its multiple challenges including the distinct asymmetry between the individualized responsibility to provide reparations and the collective nature of the crimes and its consequences With its practical approach this book is particularly valuable for practitioners but also for students and researchers
