The Medieval Reception of the Shāhnāma as a Mirror for Princes Nasrin Askari, 2016-08-09 Nasrin Askari explores the medieval reception of Firdaus's Shāhnāma or Book of Kings completed in 1010 CE as a mirror for princes Through her examination of a wide range of medieval sources Askari demonstrates that Firdaus's oeuvre was primarily understood as a book of wisdom and advice for kings and courtly elites In order to illustrate the ways in which the Shāhnāma functions as a mirror for princes Askari analyses the account about Ardashir the founder of the Sasanian dynasty as an ideal king in the Shāhnāma Within this context she explains why the idea of the union of kingship and religion a major topic in almost all medieval Persian mirrors for princes has often been attributed to Ardashir

A Critical Companion to the 'Mirrors for Princes' Literature, 2022-12-05 Why devote a Companion to the mirrors for princes whose very existence is debated These texts offer key insights into political thoughts of the past Their ambiguous problematic status further enhances their interest And although recent research has fundamentally challenged established views of these texts until now there has been no critical introduction to the genre This volume therefore fills this important gap while promoting a global historical perspective of different mirrors for princes traditions from antiquity to humanism via Byzantium Persia Islam and the medieval West This Companion also proposes new avenues of reflection on the anchoring of these texts in their historical realities Contributors are Makram Abbas Denise Aigle Olivier Biaggini Hugo Bizzarri Charles F Briggs Sylvie Edouard Jean Philippe Genet John R Lenz Louise Marlow Cary J Nederman Corinne Peneau Stéphane Piquignot Noëlle Laetitia Perret Ginter Prinzing Volker Reinhardt Hans Joachim Schmidt Tom Stevenson Karl Uhl and Steven J Williams

Reflecting Mirrors, East and West: Transcultural Comparisons of Advice Literature for Rulers (8th - 13th century) Enrico Boccaccini, 2021-11-15 In *Reflecting Mirrors East and West* Enrico Boccaccini sheds new light on Mirrors for Princes the pre-modern genre of advice literature for rulers A popular genre in the societies that emerged from the Late Antique oecumene Mirrors for Princes are considered here for the first time as a transcultural phenomenon that challenges the dichotomy of the Orient and the Occident Traditionally the historiographic tradition has viewed European and Middle Eastern Mirrors as distinct and incommensurable Analyzing the contents and discourses in four Mirrors ostensibly separated by space time and language Enrico Boccaccini convincingly draws out the surprising continuities between these texts while also showing how they are embedded in their own historical literary and political context

God's Rule Patricia Crone, 2004 Patricia Crone's *God's Rule* is a fundamental reconstruction and analysis of Islamic political thought focusing on its intellectual development during the six centuries from the rise of Islam to the Mongol invasions Based on a wide variety of primary sources including some not previously considered from the point of view of political thought this is the first book to examine the medieval Muslim answers to questions crucial to any Western understanding of Middle Eastern politics today such as why states are necessary what functions they are meant to fulfill and whether or why they must be based on religious law The character of Muslim political thought differs fundamentally from its counterpart in the West The Christian West started with the conviction that truth both cognitive and moral and political power belonged to separate spheres Ultimately both power and truth originated with God but they had distinct historical trajectories and regulated different aspects of life The Muslims started with the opposite conviction truth and power appeared at the same time in history and regulated the same aspects of life In medieval Europe the disagreement over the relationship between religious authority and political power took the form of a protracted controversy regarding the roles of church and state In the medieval Middle East religious authority and political power were embedded in a single divinely sanctioned Islamic community a congregation and state made one The disagreement therefore took the form of a protracted controversy over the nature and function of the leadership of Islam itself Crone makes Islamic political thought accessible by

relating it to the contexts in which it was formulated analyzing it in terms familiar to today's reader and where possible comparing it with medieval European and modern political thought By examining the ideological point of departure for medieval Islamic political thought Crone provides an invaluable foundation for a better understanding of contemporary Middle Eastern politics and current world events *Medieval Islamic Political Thought* Patricia Crone, 2014-03-11 This book presents general readers and specialists alike with a broad survey of Islamic political thought in the six centuries from the rise of Islam to the Mongol invasions
