Public Speaking Strategic Choices:

Public Speaking Michael R. Schliessmann, Laurie L. Haleta, 1995-01-01 **Public Speaking** Michael Schliessmann, Laurie Haleta, 1994-07-01 *Public Speaking* Laurie L. Haleta, 2009-01-01 **Narrativized Strategic Choice** John P. DeRosa, 2020-07-23 In February 2019 Donald Trump announced the United States withdrew from the landmark Cold War era Intermediate Range Nuclear Forces Treaty with Russia sparking worldwide concerns over the specter of a new nuclear arms race The rational actor and game theoretic models dominating international relations literature failed to predict or explain this strategic choice Rationalist normative and materialist models of strategic choice saturate the study of international relations Scholars continue to expose the shortfalls in these approaches in explaining or predicting outcomes of strategic interactions In this timely study John P DeRosa advances a new model of strategic choice through a narrative lens This narrative turn reframes the logic to emphasize the propositions of motives perceptions preferences and the reflexive interaction of strategic choices Case studies of American and Russian nuclear arms control treaties from the negotiations of the Intermediate Range Nuclear Forces INF Treaty in 1987 to the crisis of the US withdrawal from the INF Treaty in 2019 support building a theory of narrativized strategic choice *Public Speaking* Laurie L. Haleta, 2004-10 **The Routledge Handbook of Public Speaking Research and Theory** Stevie M. Munz, Tim McKenna-Buchanan, Anna M. Wright, 2024-04-18 Providing a comprehensive survey of the empirical research theory and history of public speaking this handbook fills a crucial gap in public speaking pedagogy resources and provides a foundation for future research and pedagogical development Bringing together contributions from both up and coming and senior scholars in the field this book offers a thorough examination of public speaking guided by research across six key themes the history of public speaking the foundations of public speaking issues of diversity equity and inclusion considerations of public speaking across contexts assessment of public speaking and the future of public speaking in the twenty first century The evidence based chapters engage with a broad discussion of public speaking through a variety of viewpoints to demonstrate how subtopics are connected and fraught with complexity Contributors explore public speaking in education business and professional settings and political contexts and outline how skills learned through public speaking are applicable to interpersonal small group and business interactions Reinforcing the relevance importance and significance of public speaking in individual interpersonal social and cultural communication contexts this accessibly written handbook will be an indispensable resource for public speaking instructors and program administrators It will also be valuable reading for Communication Pedagogy and Introduction to Graduate Studies courses *Anatomy of Political Choice* ARTUR VICTORIA, 2025-06-08 The Anatomy of Political Choice investigates the fascinating and often frustrating world of political decision making exploring the mechanisms through which laws policies and the allocation of resources are determined We examine the various actors involved in the process from elected officials and bureaucrats to lobbyists and the general public

and analyse how their interactions shape the final outcomes We address the dynamics of negotiation compromise and conflict resolution recognising both the successes and failures of different approaches This analysis goes beyond the mechanics of decision making exploring the underlying power dynamics ideological differences and public opinion that influence decisions The analysis also considers the ethical implications of political choices emphasising the importance of accountability transparency and fairness By understanding the anatomy of political choice we can strive for a more informed fair and effective system of governance We will explore how these decisions are made the factors that influence them and the ultimate consequences for society In essence politics is a dynamic tension between conflict and co operation While conflict results from divergent ideologies competing interests and power struggles co operation is essential for achieving collective goals adopting effective policies and maintaining social order We analyse this inherent duality and provide a comprehensive framework for understanding how these seemingly opposing forces shape political outcomes We explore the sources of conflict the mechanisms of co operation and the impact of institutional design and social factors on both The book is designed to be both academically rigorous and accessible appealing to students researchers policy makers and informed citizens We hope that this analysis will enable readers to engage more critically with the complex political landscape and contribute to more effective policy processes
