*Raising Lifelong Learners* Lucy Calkins, 1998-08-21 Here the nationally acclaimed educator who transformed the way our children learn to read and write in school shows us how to nurture our children's imagination at home from the earliest days of babytalk to the time when we see them off to school Drawing upon her influential philosophy of active learning as well as her personal experience as a parent Calkins shows parents how to stimulate curiosity and spark creative thinking in children Having an open and creative approach to conversations chores and games can matter just as much as reading writing and math And even in traditional skills like reading and writing we need to encourage our children to read for meaning and write for expression rather than focus only on mechanics like phonics and spelling By giving parents new and imaginative techniques for educating children and by providing them with an insider's view of what goes on in the early grades *Raising Lifelong Learners* creates the ultimate partnership in learning between home and school parents and teachers **The**
