Rapid Recovery Stephen P. King, 2006-12-13 It only took eight years in the making but I have finally completed my book on a variety of rapid recovery and healing techniques that I use in my counselling practice and with athletes Many workshop attendees had asked that I put these techniques in an easy to follow format with an explanation as to why certain things work the way they do I believe I have now achieved that goal These methods are helpful for maximising mind body maintenance by clearing fears phobias addictions obsessions compulsions traumas and all forms of self sabotage They can help optimize all aspects of our lives and open us to the fullness of life s possibilities
