Reality Of Time And The Existence Of God:

The Reality of Time and the Existence of God David Braine, Gifford Fellow and Lecturer in Philosophy David Braine, 1988
Nothing within the world has the power to make the world continue yet it is intrinsic to the temporal world that it does continue and does not exist merely instantaneously On this basis the author renews St Thomas's way of conceiving God as the immediate principle of existence but does this de novo never drawing upon any authority but working within the exigencies of contemporary general philosophy The philosophy of religion is for him never a separate discipline but the fruit of a proper working through of the inter related problems of the philosophy of mind and action epistemology and logical theory with the correlative restructuring of metaphysics

The Devil's Advocate versus God's Honest Truth Necip Fikri Alican, 2025-02-27 The Devil's Advocate versus God's Honest Truth is a scholarly monograph exploring the rationality of religion particularly the tenability of theism through a dialectical analysis of plausible arguments for the existence of God versus reasonable grounds for suspicion It offers a comprehensive and balanced coverage of the issues inviting readers to reflect and ponder the subject in its full scope The book thus makes up for the missing objectivity in an area that has long been dominated by sectarian scholarship and polarized beyond reconciliation

An Enquiry Into the Existence of God Santosh Chandra Sengupta, 1959 *The Alethiology* Ashish Bam, 2020-07-28 Alethiology is the study of truth In approaching this study author Ashish Bam examines truth itself and seeks to explain the nature of truth The Alethiology studies actual reality and the substance from which everything that is in existence is made The text considers the point of origin from which everything emerged offering thorough explanations and irrefutable proofs It explores questions about the existence of the universe life and God providing detailed answers It does not start from what exists but from what could be in existence relying not on physical observation but on logical possibility What is seen is made up of what is unseen that is all external visible realities come from internal invisible realities Because everything in existence began from a single point everything is bound to one eternal truth the source of all truth and the subject of study here This philosophical study presents an initial exploration of the existential truth of our reality and seeks to address questions about the nature of truth and existence

The Truth of Reality: Part two Tsunyota Kohe't, Tsúnyöta Köhe't, 2002 **The Nature of Theology** Haight SJ, Roger, 2022-09-08 Describes the logic of Christian theology by sidestepping an abstract analysis of the discipline and offering a relatively clear structure of the discipline of theology that is responsive to our current situation

Church Dogmatics The Doctrine of the Word of God, Volume 1, Part 2 Karl Barth, 2004-03-08 Described by Pope Pius XII as the most important theologian since Thomas Aquinas the Swiss pastor and theologian Karl Barth continues to be a major influence on students scholars and preachers today Barth's theology found its expression mainly through his closely reasoned fourteen part magnum opus *Die Kirchliche Dogmatik* Having taken over 30 years to write the *Church Dogmatics* is regarded as one of the most important theological works of all time and represents the pinnacle of Barth's achievement as a theologian T T Clark

Mastering Self Donald G. Hanna, 2022-03-28 Mastering Self is a worthy goal in a culture preoccupied with self. It is a journey that consists of warnings to heed, pitfalls to avoid, hazards to shun, detours to seek, options to assess, precautions to take, opportunities to embrace, and lessons to learn. This journey requires conviction, purpose. Many adults lack the courage of conviction because they have no conviction, no colors to nail to their mast. Conviction has formed and fashioned this book in the context of 120 white papers, essays to describe issues, ideas, and ideals that intersect to inform, instruct, interpret, and inspire in the lifelong journey of mastering self. The human condition, influenced by culture and politics, has a propensity to ignore or reject the lessons of history, practical philosophy, and basic theology. It replaces timeless virtues with temporary values. Consequently, mastering self has cultural, political, historical, philosophical, and theological implications for learning and understanding who and what you are. This discernment does not exist naturally in the human condition. It requires lifelong study. This book is for serious thinkers who want to clarify their worldview for wise living. It represents crucial truths, virtues, choices, and consequences for reference, reflection, or rumination. Understanding them fortifies relationships. Embracing them increases personal influence. Applying them benefits leadership. Practicing them sustains through difficulty. Cultivating them makes life worth living. These papers provide perspective about what matters in life, written with concise, clear, cogent context and correlated for coherence and continuity. They result from my reading, teaching, writing, and pondering to keep my heart with all diligence regarding issues in life. Prov 4:23. Collectively, they pertain to what the exceptional few consider. Some pinch the comfort zone, give pause, stretch the mind, or unsettle settled assumptions. Those politically incorrect come from old school insight by a stubborn gadfly with stubborn ideas regarding stubborn facts and stubborn problems. The insight comes from twenty-four years as a police chief leading and managing police affairs in an urban area with a large university. **How**

Osho,2024-05-04 God is the greatest dictator if you accept the fiction that he created the world and also created mankind If God is a reality then man is a slave a puppet All the strings are in his hands even your life Then there is no question of any enlightenment Then there is no question of there being any Gautam the Buddha because there is no freedom at all He pulls the strings you dance he pulls the strings you cry he pulls the strings you start murders suicide war You are just a puppet and he is the puppeteer God and the Philosophy of Explanation James W. Peterson,2010-08 The purpose of this book is simple It is to tell the truth about GOD Learning the truth about GOD is the result of Mr Peterson s discovery of the meaning and purpose of his life It was discovered as a direct result of his need to learn it following his daughter s death in August of 1980 He discovered that the purpose and course of his life is determined in the same manner as yours It matters not who you are or what your particular circumstance is It doesn t matter if you have lost a child to death It doesn t even matter if you have children It matters not if you are a murderer or a saint gay or straight male or female first world citizen or jungle savage plant or animal The purpose for living is the same for all living things A rather intriguing claim isn t it If one has experienced the death of a child Mr Peterson s experience is not different from one s own in any important way But the story of how he came about his particular experience probably is Mr Peterson says that his friends comprise a very special society of humans they are parents of children who died before they did it is not supposed to happen that way But because they did lose a child to death he says they are experts in the field of pain and grieving They are not proud of the knowledge they have gained but they realize they have gained knowledge of what life is and how it actually operates that can be achieved in no other way They have experienced the very worst pain a human being can experience and remain alive Mr Peterson uses his unique experience to guide his readers through a complex series of intellectual challenges with the ease of a master sculptor

Metaphysics Josiah Royce, 1998-01-01 An edited transcript of the great Harvard philosopher Josiah Royce's last year long course in metaphysics given at Harvard in 1915 1916 **The Problem of Truth** Herbert Wildon Carr, 2022-06-03

In *The Problem of Truth* Herbert Wildon Carr embarks on a profound exploration of epistemology critically examining the multifaceted nature of truth across various philosophical traditions Carr employs a meticulous and analytical literary style intertwining rigorous logic with accessible prose making complex ideas understandable without sacrificing depth The book situates itself within the broader context of early 20th century philosophical discourse responding to the challenges posed by empiricism rationalism and idealism while also engaging with contemporary figures such as Bertrand Russell and William James Carr's work is distinguished by its commitment to intellectual clarity and a systematic approach to the age old question of what constitutes truth Herbert Wildon Carr was a prominent philosopher and educator known for his contributions to idealism and his work in metaphysics and ethics His academic background and interactions with leading philosophers of his time significantly influenced his views on truth prompting him to address its complexities in a comprehensive manner Carr's unique philosophical stance is shaped not only by his scholarly pursuits but also by the prevailing intellectual currents of his era making his insights particularly relevant for readers seeking a deeper understanding of truth's implications I highly recommend *The Problem of Truth* for readers looking to engage with foundational philosophical questions Carr's nuanced analysis not only enlightens but also challenges readers to reflect critically on their own beliefs regarding truth This work is indispensable for students of philosophy educators seeking resources for their curricula and anyone interested in the philosophical underpinnings of truth in our increasingly ambiguous world **Youth's Companion**, 1922 **A Pen Named Man: Our Purpose** John W. Newton, 2011-12-22

We achieve immortality by living Every minute of our lives every thought of our minds and each action we perform no matter how insignificant are recorded immemorial We are living entities and the story of our lives can never be taken away The most significant feature of this book is how it captures our innermost sensitivity to life *A Pen Named Man: Our Purpose* appeals to anyone who has ever wondered about his or her purpose in life This book describes the underlying nature of reality meaning to life and value of the human experience on Earth The book tells us what God is made of The essence of Existence is described as consisting of three constituents i.e. the domain substance and quality of being Reality is examined from a top down approach with the Animate Form of Life identified along with its major component the universe of galaxies stars and planets Every organism has a role to play in the story of animate life Throughout the book the human species is examined

relative to the subject matter under review That is man s relationships to God the universe the world and other species of life are evaluated This book tells us why we are here The importance of the human experience is emphasized with man identified as God s representative on Earth and assigned the role of gardener and governor of Nature *Pictures of the World* Scott Steinkerchner, Peter Hunter, 2018-07-26 What is real What is the foundation of right and wrong How can we know There are many ways to answer these questions Western religious views in which humanity is part of God s creation Eastern religious views in which delusion traps humanity in a cycle of reincarnation and secular views in which humanity evolved as part of the material universe driven by nothing other than the impersonal forces of evolution Each of these views paints unique and comprehensive pictures of the world to convey their vision These pictures are as different from each other as if they were of three different lands separated from each other by patrolled borders The border between Eastern and Western religions is guarded by arguments over the nature of the divine and rational versus experiential approaches to salvation Both of these territories are separated from the land of scientific atheists who deny the existence of any supernatural reality and see the scientific method as the sole valid arbiter of truth This book presents all three views for non specialists enabling readers to enter them imaginatively It then compares these approaches on different contemporary topics This book is for anyone who wonders why people believe what they do **A Brief Text-book of Logic and Mental Philosophy** Charles Coppens, 1891

Systematic Theology: Volume I - The Doctrine of God Augustus Hopkins Strong, 2017-04-09 The opening book in this three volume set it focuses exclusively on the person of God Within the grounds of this work are the person of God the authority of scripture and the works of God in our world These topics are becoming more relevant today as people are constantly questioning the person of the Father
