been. The Enlightenment ideal of transparent classification, the universal library, must be abandoned along with any messianic pursuit of an eschatological purity. It must be replaced by an ideal of hospitality ('hospitalière langagière') which combines love of one's own language with acceptance of otherness. Resistance is motivated by fear and hatred of the outsider, seen as a menace to our linguistic heritage and identity. The movement between languages may appear insurmountable (as in Chomsky, 'bien infranchissable'), but the empirical rejoinder is in this case a devastating one: since translation exists it must be possible. This in turn becomes the ethical ideal of conduct to others within one's own language, towards those who are not strangers: it is always possible to say the same thing otherwise ('autrement dit', perhaps better translated as to and for the other, otherly).

The interest of this recent position lies partly in its reformulation of Ricoeur's earlier hermeneutics founded on the dialectic of explanation and understanding of writing conceived in terms of singular artefacts. Instead of a move to generalized textuality (or linguisticality if one prefers Gadamer), it now posits endless transitions between specific writings. Rather than the deconstructive or Heideggerian unmasking of false

origins, acceptance of our condition within writing (as 'nomads errants') implies an opportunity for creative reconstruction and ethical openness to the other. Writing implies writings. This in turn entails a world of divergent but not therefore hostile or incompatible languages and traditions: comprehension of that multiplicity may then become a model for ethical openness to the other both within and outside our own heritages.

The Politics of Metaphor

Don Miller

Keywords boundary, common sense, politics

Metaphor, like any good metaphor, has more than one face: it is, after all, the very stuff of possible worlds promised or denied. It may free or imprison us; it may trumpet its presence or infiltrate unnoticed. We are understandably ambivalent. One moment it appears to be the embodiment of language; the next its betrayer. It indeed troubles us. Little wonder that metaphor can suddenly be seen as the foundation metaphor of politics itself.

There are two related vectors of the politics of metaphor. One is the ostensibly academic question of the place of metaphor, and hence its meaning. Common western thought still welcomes metaphor, after Aristotle, as an attractive accoutrement of things rhetorical but of having no place in other discourse. We are instantly in the politics

of boundaries. Conventional wisdom (and common academic practice) today still insists that metaphor stay in its proper place; elsewhere it is persona non grata.

The Greek tradition gives the modern world a second lean on the issue. Aristotle also saw metaphor as providing a change in perspective, of telling us something new. It is not just a manner of words, it is about thoughts, new thoughts. He was lavish in its praise: it is 'one thing that cannot be learned from others – it is a sign of genius – [it] implies an intuitive perception of the similarity in dissimilars'. Paul Ricoeur, like many others, echoes this sentiment today.

The face of the metaphoric new is one of strangeness, even of a disconcerting incongruity. It upsets the established order. New metaphors may well enthuse those ready to pursue difference; but they frighten others wanting to maintain some existing order of things. Two political moves regularly follow.

Reason Of Metaphor A Study In Politics:

Political Metaphor Analysis Andreas Musolff,2016-08-25 Political metaphors and related figurative discourse tools are characterised by their variability and contentiousness Using them discourse participants try to gain competitive advantage over others by offering their audiences new meaning nuances challenging each other and announcing political initiatives It is here that metaphor as a means to change meanings and thus to change social and political reality comes into its own Political Metaphor Analysis provides an innovative approach to the study of figurative language use in political discourse by presenting empirical analyses based on a large corpus of political metaphors and metonymies linking these analyses to theoretical positions and assessing their limitations and perspectives for further exploration The classic model of conceptual metaphor analysis pioneered by Lakoff and Johnson 1980 and expanded and amended over the past thirty five years is critically examined with regard to new findings about the variation historicity pragmatic exploitation comprehension and interpretation of metaphors As a central new analytical category the notion of metaphor scenario is proposed and tested against various sub sets of data It allows to link hypothesised conceptual metaphors to narrative argumentative and evaluative patterns in actual discourse and understanding processes so that their cognitive significance can be more reliably gauged and theoretically modelled   **Metaphor Studies: Theories, Methods, Approaches, and Future Perspectives** Ilaria Rizzato, Valentina Cuccio,Aletta Gesina Dorst,2024-12-12 Metaphor has been studied as a linguistic conceptual and communicative phenomenon in a wide range of disciplines including linguistics literary studies philosophy education political science media studies communication science psychology and neurosciences While the Cognitive Theory of Metaphor has dominated the field since the cognitive turn in the 1980s alternatives have been proposed including the Neural Theory of Metaphor the Relevance Theory Approach the Complex Systems Approach and the Dynamic Systems Approach Though studies are still often text based there is a growing body of research on visual metaphor multimodal metaphor and gestural metaphor as well as experimental research ranging from studies on metaphor processing and comprehension to studies in NLP and machine learning Metaphor Studies is thus a highly interdisciplinary field that encompasses a myriad of theories approaches and methods In current metaphor research each of these strands is facing new challenges and offering new venues of cutting edge research using state of the art technologies Researchers tend to focus on their own research areas and provide in depth views within the scope of their own disciplines Metaphor Studies do not seem to escape this phenomenon in spite of the large number of disciplines they draw on ranging from linguistics to psychology to the theory of science Hence there seem to be little cooperation and communication across different fields methods and approaches having metaphors and figurative language as their main object of investigation This Research Topic aims to promote cross fertilization among the many research areas involved in Metaphor Studies thus bringing together different methods and perspectives and offering a comprehensive overview of the possible research scenarios   The Politics of Climate Change

Metaphors in the U.S. Discourse Othman Khalid Al-Shboul,2023-02-28 This book uses critical metaphor analysis to show from a cognitive perspective how climate change is conceptualized in the USA The author enriches his linguistic analysis with cognitive aspects such as source target domain mapping and metaphor opposition to explain how metaphor works in terms of framing this issue drawing on a Critical Discourse Analysis informed framework to demonstrate how politicians represent the climate crisis in their attempts to trigger social change Using a data set of speeches given by US based politicians governors and mayors speaking in the context of the withdrawal of the United States from the Paris Agreement the book categorizes metaphors on different conceptions such as war construction unfairness journey and cleanliness to bridge the gap between ecolinguistics and critical metaphor analysis This book will be of interest to students and scholars in fields including applied linguistics political communication ecolinguistics and cognitive linguistics and psychology **Metaphor and Political Discourse** A. Musolff,2004-08-04 Far from being rhetorical ornaments metaphors play a central role in public discourse as they shape the structure of political categorisation and argumentation Drawing on a very large bilingual corpus this book now in paperback analyses the distribution of metaphor scenarios in more than a decade of public discourse on European integration elucidating differences in UK and German attitudes and argumentation The corpus analysis leads to a refinement of cognitive metaphor theory by systematically relating conceptual semantic and argumentation levels and incorporating the historical dimension of metaphor evolution Finally drawing on examples of metaphor negotiation and on a reassessment of Hobbes concept of metaphor in Leviathan the book highlights the ethical dimension of metaphor in politics **Kant's Tribunal of Reason** Sofie Møller,2020-03-05 This is the first book length study in English of Kant s legal metaphors whose philosophical importance has so far been overlooked It will appeal to academic researchers and advanced students of Kant early modern philosophy legal philosophy and intellectual history **Discourse Studies in Public Communication** Eliecer Crespo-Fernández,2021-04-15 The collection of articles in Discourse Studies in Public Communication illustrates that public communication is a fascinating evidence based storehouse for research in discourse analysis The contributions to this volume in the spheres of political rhetoric gender and sexuality and corporate and academic communication provide good evidence of contemporary social structure social phenomena and social issues In this way following the parameters of different analytical frameworks critical discourse analysis cognitive metaphor theory appraisal theory multimodality etc the contributors address not only the linguistic aspects of texts but also and more importantly the cultural and cognitive dimensions of public communication in a range of real life communicative contexts and kinds of discourse Although the volume is addressed first and foremost to readers with diverse interests in English linguistics it may also prove valuable to scholars in other non linguistic research fields like communication studies social theory political science or psychology **Slowing Metaphor Down** Gerard J. Steen,2023-06-15 If thinking can be fast or slow metaphorical thinking can be fast and slow too But metaphorical thinking does not occur as often and in the ways that many metaphor scholars today think

Slow metaphorical thinking does mean however that we can exert more control over metaphor than has previously been acknowledged We can even offer resistance to metaphor Deliberate Metaphor Theory DMT claims that there is an essential processing difference between non deliberate and deliberate metaphor use which can explain all this This book is the first full account of the DMT model for metaphor comprehension It presents explicit conceptualization and formal operationalization and is based on a well known cognitive psychological model for all utterance comprehension in discourse The original three dimensional model of DMT is here refined into a four dimensional model which reveals new research questions and discoveries about the use of metaphor The book brings together numerous cognitive scientific insights into metaphor It has a high degree of interdisciplinary accessibility to all students of metaphor whether master students PhDs post docs or established academics **Metaphor in Socio-Political Contexts** Manuela Romano,2024-05-06 Metaphor studies is a vibrant and fascinating field The present book brings together the work of influential researchers analyzing metaphor empirically from Critical Socio Cognitive perspectives CSCDA The case studies focus on the role of metaphor as a powerful strategy for the creation of specific world views and ideological frames as well as for their contestation in current crises Analysing Political Speeches Jonathan Charteris-Black,2018-08-24 Exploring speeches by public figures such as Emma Watson Tony Blair Donald Trump Julia Gillard and Lady Gaga this engaging textbook explains the ways in which political speeches can be analysed It examines the role of language in speeches and how it can be used to challenge or reinforce prevailing social cultural and political attitudes Each chapter introduces a particular discourse approach and then applies this in a model analysis of a passage of text The chosen texts concern issues of social cultural and political importance that address topics of significant importance to the audience to which they were delivered Students are encouraged to engage with the text and consider how approaches to text analysis such as cohesion context analysis and metaphor analysis may be adapted to provide a more critical perspective This text will be essential reading for students of English language linguistics communication studies and politics on critical discourse and discourse analysis modules

Unpacking Metaphor-related Prepositions in Political Discourse Mokhtar Ounis,2023-11-27 This book explores the context around why English prepositions are used in figurative language more frequently than nouns and verbs using corpus based evidence to examine the most often used prepositions and how they are employed and for what purpose While research on cognitive approaches to metaphor has significantly expanded in recent decades little attention has been paid to prepositions as vehicles of figurative language owing to their polysemous complex and inconsistent nature To bridge this gap Ounis introduces an innovative conceptual framework that integrates conceptual metaphor theory diachronic linguistics and discourse pragmatics Drawing upon an extensive corpus of American presidential inaugural addresses this book considers the linguistic conceptual pragmatic and contextual dimensions of English prepositions revealing the fascinating interplay between language culture and cognition This volume will be of interest to scholars in pragmatics metaphor studies English

the often incompatible discursive images of the conflict and concentrates on the conscious and strategic use of linguistic resources in negative and aggressive communication   Variation in Political Metaphor Julien Perrez,Min Reuchamps,Paul H. Thibodeau,2019-08-06 The objective of this book is to understand variation in political metaphor Political metaphors are distinctive and important because they are used to achieve political goals to persuade to shape expectations to realize specific objectives and actions The analyses in the book go beyond the mere identification of conceptual metaphors in discourse to show how political metaphors function in the real world It starts from the finding that the same conceptual domains are used to characterize politics political entities and political issues Yet the specific metaphors used to describe these conceptual domains often change This book explores some of the reasons for this variation including features of political leaders e g their age and gender countries and other sociopolitical circumstances This perspective yields a better understanding of the role s of metaphors in political discourse   **Citizenship Across the Curriculum** Michael B. Smith,Rebecca S. Nowacek,Jeffrey L. Bernstein,2010-05-03 Citizenship Across the Curriculum advocates the teaching of civic engagement at the college level in a wide range of disciplines and courses Using writing across the curriculum programs as a model the contributors propose a similar approach to civic education In case studies drawn from political science and history as well as mathematics the natural sciences rhetoric and communication studies the contributors provide models for incorporating civic learning and evaluating pedagogical effectiveness By encouraging faculty to gather evidence and reflect on their teaching practice and their students learning this volume contributes to the growing field of the scholarship of teaching and learning   *Multimodal Approaches to Chinese-English Translation and Interpreting* Meifang Zhang,Dezheng (William) Feng,2020-12-29 Nowadays discourse analysis deals with not only texts but also paratexts and images so do translation and interpreting studies Therefore the concept of multimodality has become an increasingly important topic in the subject areas of linguistics discourse analysis and translation studies However up to now not much research has been done systematically on multimodal factors in translation and interpreting and even less in exploring research models or methodologies for multimodal analysis in translation and interpreting This book aims to introduce and apply different theories of the multimodal discourse analysis to the study of translations with case studies on Chinese classics such as the Monkey King Mulan and The Art of War as well as on interpretations of up to date issues including the Chinese Belt and Road Initiatives and Macao tourism The chapters reflect the first attempts to apply multimodal approaches to translation and interpreting with a special focus on Chinese English translations and interpreting They provide new understandings of transformations in the multimodal translation process and useful reference models for researchers who are interested in doing research of a similar kind especially for those who are interested in looking into translations related to Chinese language literature and culture   **Kantian Theory and Human Rights** Andreas Follesdal,Reidar Maliks,2013-11-12 Human rights and the courts and tribunals that protect them are increasingly part of our moral legal and political

circumstances The growing salience of human rights has recently brought the question of their philosophical foundation to the foreground Theorists of human rights often assume that their ideal can be traced to the philosophy of Immanuel Kant and his view of humans as ends in themselves Yet few have attempted to explore exactly how human rights should be understood in a Kantian framework The scholars in this book have gathered to fill this gap At the center of Kant s theory of rights is a view of freedom as independence from domination The chapters explore the significance of this theory for the nature of human rights their justification and the legitimacy of international human rights courts   *Reconstituting the Body Politic* Jonathan M. Hess,1999 The concept that art must have no instrumental function is a doctrine traditionally traced back to Kant s Critique of Judgment In Reconstituting the Body Politic Jonathan Hess proposes that this concept of autonomous art marks not a withdrawal from the political realm but the ultimate embodiment of Enlightenment political culture a response to a crisis in the institution idealized by Jurgen Habermas as the bourgeois public sphere In Reconstituting the Body Politic Hess explores the moment in late eighteenth century Germany that witnessed the emergence of two concepts that marked the modern era the political concept of the public sphere and the doctrine of aesthetic autonomy By considering the extent to which at its very inception the concept of aesthetic autonomy is inextricably intertwined with the emergence of the concept of the public sphere he offers both a historical study of the political conditions that produced this concept and a contribution to contemporary literary and political theory Reading texts by Kant alongside the writings of contemporaries like Karl Philipp Moritz Hess examines a wide variety of eighteenth century texts discourses and institutions He then enters into a critical dialogue with Walter Benjamin Reinhart Koselleck and Jurgen Habermas to articulate a political critique of this aesthetic The aesthetic theory of Kant s Critique emerges not as a mere defense of the disinterestedness of aesthetic pleasure but as an engaged response to the political limitations of public culture during the Enlightenment Hess argues for an understanding of these concepts as functionally interdependent and he reflects on what this interdependence mightmean for the practice of literary and cultural criticism today His work will interest not only Germanists and critical theorists but also art historians and historians of philosophy and political thought   *Meaning-Making and Political Campaign Advertising* Dorothea Horst,2018-10-22 Although recent linguistic and media studies research has increasingly dealt with forms of imagery beyond language such as in audiovisual formats only little attention has been paid to the specific media character of audiovisual images This raises a theoretical as well as methodological problem How can processes of figurative meaning making in audiovisual media be adequately conceptualized and described The book intends to bridge this research gap with an analysis of campaign commercials a hitherto largely underexplored object of study in metaphor and metonymy research To achieve this goal a transdisciplinary film analytical and cognitive linguistic account of audiovisual figurativity is developed and examined through a comparative analysis of figurative meaning making processes in German and Polish campaign commercials from 2009 and 2011 By setting the inseparable intertwining of language and cinematic staging sensing and

understanding center stage the book provides insight into the dynamic nature and embodied affective grounds of audiovisual figurativity and challenges the long known dichotomies of rational discourse and affective manipulation political message and media effect
