Small Navies Michael Mulqueen, Deborah Sanders, Ian Speller, 2016-04-01 Whilst maritime studies tend to reflect the dominance of large navies history shows how relatively small naval forces can have a disproportionately large impact on global events From Confederate commerce raiders in the nineteenth century to Somali pirates today even the most minor of maritime forces can become a key player on a global stage Examining a broad range of examples this volume addresses the roles and activities of small navies in the past and the present at the national regional and international level In particular it focusses on the different ways in which such forces have identified and addressed national and international security challenges and the way in which they interact with other navies and security agencies In addition the collection also investigates the relationship of such navies with non governmental organisations institutions and bodies in pursuit of broader maritime goals be they political financial or environmental Adopting an interdisciplinary approach drawing on the best new research from the fields of international relations security studies strategic studies and maritime history the book examines the diversity of experience amongst

different smaller navies and also establishes areas of similarity Divided into two sections part one begins with a number of chapters that are theoretical in nature whilst part two provides case studies that offer a more regional focus including analysis of the challenges facing contemporary navies and historical case studies designed to reveal the experience of small navies over time By adopting an approach that combines historical considerations with analysis of current events the collection offers a unique perspective on the role that small navies have played in wider nautical affairs and their continued impact upon global maritime strategies

The United Daughters of the Confederacy Magazine ,2005 **Jefferson Davis's Flight from Richmond** John Stewart,2014-12-24 In the space of a few hours on the night of April 2 1865 Richmond the Confederate capital was evacuated and burned the government fled slavery was finished in North America Union forces entered the city and the outcome of the Civil War was effectively sealed No official documents tell the story because the Confederate government was on the run First there were newspaper accounts mostly confused then history books based on those accounts But much of what we know about the fall of Richmond comes from eyewitnesses like Confederate Navy Secretary Stephen Mallory whose tale became history A great deal of what has been presented over the years by historians has been plagiarized invented or misconstrued and nearly all we have learned of Jefferson Davis s flight from Richmond to Danville is wrong This book closely examines all relevant source material much of it newly discovered by the author as well as the writers diarists and eyewitnesses themselves and constructs a minutely detailed new account that comes closer to what Abraham Lincoln had in mind when he said History is not history unless it is the truth

Civil War Almanac John C. Fredriksen,2007 Presents a comprehensive reference to the American Civil War including a chronology of major events biographical sketches related articles and a collection of maps
