## **Rebels Renegades:**

**Renegades, Rebels and Rogues Under the Tsars** Peter Julicher, 2003-08-25 In the Russia of the tsars people who criticized or questioned the autocratic prerogatives of the sovereign were brutally suppressed and sometimes actively persecuted So imbedded was this official hostility to anyone hoping to change or even influence government policy that even the most high minded reformers came to understand that the only way they could succeed was to overthrow the regime The author describes the activities of the most important dissidents and agitators from the reign of Ivan the Terrible to Nicholas II and the Communist Revolution in 1917 Many of these fascinating individuals were serious activists endeavoring to improve society others were opportunistic scoundrels and adventurers The author explores the causes that provoked them and the consequences they faced and explains how time and time again the tsars were goaded into mistakes and over reaction

**Wartime Images, Peacetime Wounds** Sandra Lambertus, 2004-01-01 What does the media coverage of a crisis situation reveal about the nature of dominant minority relations locally regionally and nationally Sandra Lambertus asks this question of the media coverage of the largest RCMP operation in Canadian history the 1995 Gustafsen Lake Native Indian standoff Drawing from extensive newspaper television and radio news products legal and law enforcement documents ethnographic interviews with 26 journalists as well as RCMP and Native leaders Lambertus examines the construction and national dissemination of vilifying stereotyped portrayals of Native people The ethnographic component pushes the standard of media analysis bringing to light previously unconsidered aspects of media representations of minorities media and law enforcement processes frameworks of the news makers face presentation strategies information control and exchange relations in news gathering The investigation shows how the values and perspectives of local communities media and law enforcement became overshadowed by outsiders during the course of the event and the serious effects of the media coverage on specific audiences and ultimately Canadian society The study culminates with an assessment of the structural elements that contributed to the damaging media portrayals media bias competition cooperation empowerment and cultural misperceptions *Wartime Images Peacetime Wounds* opens new avenues for studies of minorities in the news and for the study of news media in general

*The Mary Daly Reader* Mary Daly, 2017-01-24 Makes key excerpts from Daly s work accessible to readers who are seeking to access the essence of her thought in a single volume Outrageous humorous inflammatory Amazonian intellectual provocative controversial and a discoverer of Feminist word magic Mary Daly s influence on Second Wave feminism was enormous She burst through constraints to articulate new ways of being female and alive This comprehensive reader offers a vital introduction to the core

of Daly's work and the complexities secreted away in the pages of her books. Her major theories: Bio philia, Being as Verb and the life force within words and major controversies relating to race, transgender identity and separatism are all covered and the editors have provided introductions to each selection for context. The text has been crafted to be accessible to a broad readership without diluting Daly's witty but complicated vocabulary. Begun in collaboration with Daly while she was still alive and completed after her death in 2010, the chapters in this book will surprise even those who thought they knew her work. They contain highlights from Mary Daly's published works over a forty-year span including her major books *Beyond God the Father*, *Gyn Ecology* and *Pure Lust* as well as smaller articles and excerpts with additional contributions from Robin Morgan and Mary E. Hunt. Perfect for those seeking an introduction to this path-breaking feminist thinker, *The Mary Daly Reader* makes key excerpts from her work accessible to new readers as well as those already familiar with her work who are seeking to access the essence of her thought in a single volume.

**Calendar of State Papers, Domestic Series, of the Reigns of Edward VI., Mary, Elizabeth, 1547-[1625]: 1580-1625: Elizabeth and James I., addenda. 1872** Great Britain. Public Record Office, 1872

**Hermeneutics, Social Criticism and Everyday Education Practice** Wiktor Żłobicki, Monika Humeniuk, Grażyna Lubowicka, Iwona Paszenda, Beata Pietkiewicz-Pareek, 2020-06-03. The individual chapters written by scholars of the Department of General Pedagogy at the University of Wrocław included in the volume offered to the Readers showcase selected variants and problems of the hermeneutical and critical approaches to educational practice and research. The general pedagogy we practice in this way reveals its interdisciplinary character drawing on the resources and achievements of philosophy, sociology, psychology, cultural anthropology, religious studies and political sciences. By deliberately adopting such an approach, general pedagogy becomes the basic science of pedagogy; one of its major tasks is the integration and criticism of knowledge about education and the study of education and its broadly understood contexts: a knowledge which is produced not only in numerous disciplines of humanities and social sciences. This ambitious task undertaken by many theoreticians and researchers of education all over the world calls for a continuous effort to review the resources of dynamically changing and transforming scientific knowledge and to draw on contemporary and historically significant philosophy. Translating these experiences into the resources of general pedagogy requires from us the effort of understanding the languages of contemporary humanities, social sciences and multicultural societies as well as the effort of critical thinking which can recognize and take into account the entanglement of scientific knowledge in social ideas and practices, its conflicts, inequalities and asymmetric discourses. Hence the general pedagogy we practice exploring the area of ideology, religion and utopias present in everyday educational practice implements the vision of bringing closer these two approaches: hermeneutical and critical. We believe that such a general pedagogy engaged, practiced with passion, aware of its present social context and its past and of the urgent needs, theoretical and practical difficulties, a pedagogy that explores the possible shapes of the future is both necessary and inspiring. It addresses new topics and offers novel approaches, revises well

established and newly proposed findings is aware of opportunities and threats Nevertheless the chapters written by us are integral self contained wholes just as their authors retain their intellectual and research autonomy which can be seen in the issues we choose the mode of their presentation and addressing

**The Upside of Down** Bruce Whitfield,2021-01-18

Embrace uncertainty seize opportunities and thrive with the mindset of billionaires and start up mavericks In a world shaped by Covid 19 fake news manipulated information feeds and divisive social media agendas it s easy to believe that our time is the most challenging in human history It s just not true This is a time of extraordinary opportunity but only if you have the right mindset Fear of the future breeds inaction and strategic paralysis Problem solvers thrive in chaotic and uncertain times because they act to change their future Winners recognise that in a world of growing uncertainty you need to focus on things you can control Bruce Whitfield in his two decades of interrogating how South Africa s billionaires and start up mavericks think differently has identified one common characteristic a robust mindset They don t ignore risk or hope problems will disappear They constantly measure manage consider and weigh up opportunities in a tumultuous sea of uncertainty finding ways around obstacles As Nobel Prize winning economist Robert Shiller suggests the stories we tell affect economic outcomes Amidst the noise and haste of a rapidly evolving world we need to tell different stories The Upside of Down shows you how to cultivate a mindset that will help you thrive in uncertain times

Alternate Realities Chris Rawlings,2011-10-28 Have you ever wondered whether or not our destiny is predetermined or how much of a choice do we really have when it comes to free will in shaping our own lives especially while society and government continues to limit our circumstances This book attempts to answer these questions and more In a world set thousands of years and several millennia in the future we might find that many problems and issues we face today will persist unless we change the way we look at our world In the year 3333 A D on Planet Zeon where the sky is no longer the limit a nonconformist philosopher goes up against all odds to revive the importance of artists in a society filled with laser bolts and launch pads where original ideas are becoming a rare commodity in the face of fast paced technological mass production Will commercial materialism dominate ethical values or can people regain their spiritual independence If a picture is worth a thousand words then this book might be worth millions It is a must read for anyone who has ever struggled to be recognized for their artistic integrity in order to survive amidst such a competitive corporate world dominated by greed Its for anyone who has ever worked hard for their dreams to come true

*Real Football* , **The Organization of Cities** John R Miron,2017-01-20 This book focuses on the relationship between the state and economy in the development of cities It reviews and reinterprets fundamental theoretical models that explain how the operation of markets in equilibrium shapes the scale and organization of the commercial city in a mixed market economy within a liberal state These models link markets for

the factors of production markets for investment and fixed capital formation markets for transportation and markets for exports in equilibrium both within the urban economy and the rest of the world In each case the model explains the urban economy by revealing how assumptions about causes and structures lead to predictions about scale and organization outcomes By simplifying and contrasting these models this book proposes another interpretation that governance and the urban economy are outcomes negotiated by political actors motivated by competing notions of commonwealth and the individual desire for wealth and power The book grounds its analysis in economic history explaining the rise of commercial cities and the emergence of the urban economy It then turns to factors of production export and factor markets introducing and parsing the Mills model breaking it down into its component parts and creating a series of simpler models that can better explain the significance of each economic assumption Simplified models are also presented for real estate and fixed capital investment markets transportation and land use planning The book concludes with a discussion of linear programming and the Herbert Stevens and the Ripper Varaiya models A fresh presentation of the theories behind urban economics this book emphasizes the links between state and economy and challenges the reader to see its theories in a new light As such this book will be of interest to scholars students and practitioners of economics public policy public administration urban policy and city and urban planning
