Researching Violence:

Researching Violence Raymond M. Lee, Elizabeth A Stanko, 2014-06-11 Violence is a research topic that is fraught with difficulties A notoriously sensitive subject and one that is presumed to be largely hidden researchers have long struggled with the question of how to measure its impact and how to explore its incidence Arising from the ESRC s Violence Research Programme *Researching Violence* is a practical guide both to these problems and to the obstacles encountered when negotiating this uneasy terrain Comprising the reflections of researchers who have worked on diverse projects from violence in the home to racial violence and homicide this book demonstrates the ingenuity and at times courageous actions of researchers having to think on their feet It also investigates the ethical and emotional issues arising from working with the victims and perpetrators of violence This book will be indispensable for students and academics doing research projects on violence

Researching Violence, Democracy and the Rights of People John Schostak, Jill Schostak, 2009-12-16 This book explores what is at stake methodologically for researchers seeking to expand opportunities for people to become visible upon the public stages of debate decision making and action making audible their experiences of wrongs and injustices

Researching Sexual Violence against Women Martin D. Schwartz, 1997-02-24 As the backlash against feminist research continues unabated this important volume signals no retreat Bringing together the foremost international researchers in the area of violence against women *Researching Sexual Violence Against Women* offers excellent assessments of the dimensions of date rape particularly on college campuses Reasons why this form of violence against women has provoked such intense responses as well as new methodologies are thoroughly explored Finally the work examines the impact this research has on those who do it and calls for more work on women s victimization and the links between it and other forms of discrimination Meda Chesney Lind Women s Studies Program University of Hawaii Manoa A remarkable introduction to research in the field *Researching Sexual Violence Against Women* provides cutting edge information on the various studies conducted on North American campuses This compelling book not only provides a strong overview of the entire field but also simultaneously offers an answer to backlash critics who claim that feminists exaggerate their statistics Several of the best known researchers describe their own work and that of others to illustrate both large scale and local studies The contributors also take a compelling look into the emotions of sexual assault research by discussing their own emotional experiences of working with rape research including experiences of harassment by subjects or disrespect by colleagues In addition several scholars peruse empirical and epistemological questions and arrive at surprising conclusions on feminist participatory research into lesbian battering reflexivity in studying prostitutes the gendered nature of research interviews and white women studying battered women of color Including chapters on very hot topics and celebrating feminist research methodology *Researching Sexual Violence Against Women* speaks to a broad audience including researchers academics professionals and students in the areas of interpersonal violence social work sociology criminology women s

studies psychology family studies and counseling as well as college administrators and mental health practitioners

Researching Violence Against Women Mary Ellsberg, Lori Heise, 2005 Draws on the collective experiences and insights of many individuals and in particular from the implementation of the WHO Multi country Study on Women's Health and Domestic Violence against Women in over 10 countries Twenty years ago violence against women was not considered an issue worthy of international concern Gradually violence against women has come to be recognized as a legitimate human rights issue and as a significant threat to women's health and well being Now that international attention is focused on gender based violence methodologically rigorous research is needed to guide the formulation and implementation of effective interventions policies and prevention strategies The manual has been developed in response to the growing need to improve the quality quantity and comparability of international data on physical and sexual abuse It outlines some of the methodological and ethical challenges of conducting research on violence against women and describes a range of innovative techniques that have been used to address these challenges

Experiences in Researching Conflict and Violence

Rivas, Althea-Maria, Browne, Brendan Ciarán, 2018-01-17 This international edited collection brings together personal accounts from researchers working in and on conflict and explores the roles of emotion violence uncertainty identity and positionality within the process of doing research as well as the complexity of methodological choices It highlights the researchers own subjectivity and presents a nuanced view of conflict research that goes beyond the messiness inherent in the process of research in and on violence It addresses the uncomfortable spaces of conflict research the potential for violence of research itself and the need for deeper reflection on these issues This powerful book opens up spaces for new conversations about the realities of conflict research These critical self reflections and honest accounts provide important insights for any scholar or practitioner working in similar environments

Researching Violence Raymond M. Lee, Elizabeth Anne Stanko, 2003 A practical guide to and demonstration of the ingenious and courageous actions of researchers in this sensitive area this key text investigates the ethical and emotional issues arising from working with the victims and perpetrators of violence

Researching Non-state Actors in International Security Andreas Kruck, Andrea

Schneiker, 2017-04-28 This volume provides researchers and students with a discussion of a broad range of methods and their practical application to the study of non state actors in international security All researchers face the same challenge not only must they identify a suitable method for analysing their research question they must also apply it This volume prepares students and scholars for the key challenges they confront when using social science methods in their own research To bridge the gap between knowing methods and actually employing them the book not only introduces a broad range of interpretive and explanatory methods it also discusses their practical application Contributors reflect on how they have used methods or combinations of methods such as narrative analysis interviews qualitative comparative analysis QCA case studies experiments or participant observation in their own research on non state actors in international security Moreover experts

on the relevant methods discuss these applications as well as the merits and limitations of the various methods in use Research on non state actors in international security provides ample challenges and opportunities to probe different methodological approaches It is thus particularly instructive for students and scholars seeking insights on how to best use particular methods for their research projects in International Relations IR security studies and neighbouring disciplines It also offers an innovative laboratory for developing new research techniques and engaging in unconventional combinations of methods This book will be of much interest to students of non state security actors such as private military and security companies research methods security studies and International Relations in general The Open Access version of this book available at <https://www.routledge.com/Researching+Non+state+Actors+in+International+Security+Theory+and+Practice/Kruck+Schneiker/p/book/9780367141561> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Researching War Annick T. R. Wibben, 2016-05-12 Researching War provides a unique overview of varied feminist contributions to the study of war through case studies from around the world Written by well respected scholars each chapter explicitly showcases the role of feminist methodological ethical and political commitments in the research process Designed to be useful for teaching also the book provides insight into feminist research practices for students and scholars wanting to further their understanding what it means to study war and other issues from a feminist perspective To this end every author follows a four part structure in the presentation of their case study outlining a research puzzle explaining the chosen approach describing the findings and finally offering a reflection on the feminist commitments that guided the research This book Provides a multi disciplinary perspective on war by drawing on disciplines such as anthropology history literature peace research postcolonial theory queer studies security studies and women s studies Showcases a multiplicity of experiences with war and violence emphasizing everyday experiences of war and violence with accounts from around the world Challenges stereotypical accounts of women violence and war by pointing to contradictions and unexpected continuities as well as unexpected findings made possible by adopting a feminist perspective Teases out linkages between various forms of political violence against women but increasingly also by women Discusses theoretical and methodological innovation in feminist research on war This book will be essential reading for advanced students and scholars of Security Studies Gender and Conflict Women and War Feminist International Relations and Research Methods

Researching the Vulnerable Pranee Liamputtong, 2007 This book takes as its starting point the particular considerations and sensitivities of being a researcher faced with a subject group at the margins of society and explores the ethical practical and methodological implications of working with such groups Author Pranee Liamputtong explores qualitative methods using examples drawn from around the world and from the wide variety of contexts that might count as researching the vulnerable Numerous salient points for the conduct of research within vulnerable groups of people including ethical and moral issues are considered and discussed in the context of sensitive and innovative research methods

Researching Social Life Nigel

Gilbert, 2008-03-17 This new edition of this excellent guide maintains the standard of the original whilst taking full account of developments in both methodological discussion and the techniques of social research. The organization of the text around the research process is a great strength of the text. David Byrne, University of Durham. Preview the Third Edition's opening chapter and guide to its teaching and learning features designed to stimulate student engagement with the content here. The Third Edition of Nigel Gilbert's hugely successful *Researching Social Life* covers the whole range of methods from quantitative to qualitative in a down to earth and unthreatening manner. Gilbert's text offers the best coverage of the full scope of research methods of any of the leading textbooks in the field, making this an essential text for any student starting a research methods course or doing a research project. This thoroughly revised text is driven by the expertise of a writing team comprised of internationally renowned experts in the field. New to the Third Edition are chapters on Searching and Reviewing the Literature, Refining the Question, Grounded Theory and Inductive Research, Mixed Methods, Participatory Action Research, Virtual Methods, and Narrative Analysis. A number of useful features such as worked examples, case studies, discussion questions, project ideas, and checklists are included throughout the book to help those new to research to engage with the material. *Researching Social Life* follows the life cycle of a typical research project from initial conception through to eventual publication. Its breadth and depth of coverage make this an indispensable must-have textbook for students on social research methods courses in any discipline.
