Researching Into Student Learning And Support In Colleges And Universities:

Researching into Student Learning and Support in Colleges and Universities Jones, Margaret, Siraj-Blatchford, John (both Lecturers, Westminster College, Oxford University), 2013-09-13 This work looks at the issues of student learning and support in the context of their own institution Issues covered include student representation underachievement and the overall aims and ethics of further and higher education

The Practice of University History Teaching Alan Booth, Paul Hyland, 2000 This work provides a guide to good practice and its development in the teaching and learning of history in universities and colleges It examines recent thinking on the teaching of the subject surveys practices and provides advice to teachers

Resources in Education, 1998

Supporting Student Learning Glenda Crosling, Graham Webb, 2003-12-16 This volume focuses on the support programmes that all higher education establishments have in place to aid and develop student learning The work is designed to equip HE professionals with an accessible guide to some of the best practices in this field from around the world

Advancing Research on Teachers' Professional Vision: Implementing novel Technologies, Methods and Theories Christian Kosel, Tina Seidel, Christian Hartmann, Ann-Sophie Grub, 2024-07-25 A classroom full of students can be overwhelming for teachers It is critical that teachers are able to filter and meaningfully interpret the relevant information in this complex scenario Much of this filtering and interpretation occurs through selective visual perception Over the last decade a rapidly growing number of studies in empirical educational research used eye tracking to investigate teachers selective visual perceptual processes in the classroom Theoretically visual attention and perception are often conceptualized as knowledge based noticing coupled with knowledge based reasoning about what is visually perceived Recent eye tracking studies have shown that experienced teachers in particular show improved selective attention of classroom events through faster detection of relevant information and improved monitoring of learning relevant situations Researchers agree that a critical driver of selective attention processes is the professional knowledge declarative procedural and metacognitive of experienced teachers which controls selective perceptual processes in a top down process The findings are significant and provide important insights for research on teacher professionalization

Handbook of Research on the Global Empowerment of Educators and Student Learning Through Action Research Slapac, Alina, Balcerzak, Phyllis, O'Brien, Kathryn, 2021-05-07 The year 2020 brought an unprecedented worldwide health crisis through the COVID 19 pandemic that has been affecting all sectors including education There were questions surrounding the effectiveness of online trainings for teachers online teaching practices the motivation and engagement of students and the quality of learning and education in these times Action research emerged to address these concerns being a systematic process of inquiry using reflection within a cyclical model of planning acting implementing evaluating and continuous reflection This method of research is employed with the expertise and passion from educators to better enhance online practices and education while using authentic learning and experiences Using collaboration social advocacy and action research there is the opportunity to

advance teaching for students families and communities without a physical context involved The Handbook of Research on the Global Empowerment of Educators and Student Learning Through Action Research explores successful teaching and learning skills through the method of action research and intersects it with online learning in order to uncover best teaching practices in online platforms This book showcases educational professionals action research for solutions in advancing teaching and learning the practical benefits of action research recommendations for improving online teaching and learning and a focus on professional growth as well as social justice advocacy It highlights important topics including student learning teacher collaboration authentic learning advocacy and action research in both K 12 and higher education settings This book is ideal for inservice and preservice teachers administrators teacher educators practitioners researchers academicians and students interested in how action research is improving and advancing knowledge on the best teaching practices for online education

Teaching for Understanding at University Noel Entwistle, 2017-09-16 Research into how teaching affects the quality of student learning at university is a rapidly changing field University teachers are increasingly required to develop their own strategies for effective teaching often with limited guidance from their institutions Teaching for Understanding at University not only outlines a wide range of recent developments in the area but shows how approaches can be brought together to help university teachers think more imaginatively about ways of encouraging students learning Written in a way designed to be interesting and accessible to university teachers across disciplines the volume concentrates on how students reach a personal understanding of the subject they are studying Covering academic understanding approaches to teaching assessment methods and evaluation of teaching the book provides a comprehensive introduction to the latest ideas on teaching and learning Avoiding unnecessary jargon and business speak this is the ideal book for the newly qualified lecturer as well as the more experienced academic who is keen to consider their teaching methods from a fresh perspective Noel Entwistle is Professor Emeritus of Education at the University of Edinburgh He was previously the editor of the British Journal of Educational Psychology and Higher Education and has an international reputation for his work in the field of student learning in higher education

Handbook of Research on Global Issues in Next-Generation Teacher Education Keengwe, Jared, Mbae, Justus G., Onchwari, Grace, 2016-02-17 There is no question that all aspects of modern life have been imbued with technology In education students are becoming increasingly savvy in their use of the myriad technologies and virtual tools and must be taught adequate complimentary skills to be effective in the 21st century workforce To answer this call teachers education must reflect modern demands by integrating the use of these tools as part of their teaching practices The Handbook of Research on Global Issues in Next Generation Teacher Education addresses this need with precise comprehensive research and case studies With strategies and emerging research on the empowerment of tomorrow s inspirational educational leaders this handbook of research outlines the challenges benefits and opportunities of engaging teachers with the 21st century skills their students require Teachers students of education administrators and policy makers
