Restorative Justice Reader Texts Sources And Context:

A Restorative Justice Reader Gerry Johnstone, 2003 A fine book Cogently argued and nuanced a serious contribution to thinking on restorative justice John Braithwaite One of the most important developments in crime and its control over recent years has been the emergence of a dynamic campaign promoting restorative justice as an alternative to standard ways of responding to crime i e legal prosecution and state punishment Accompanying this has been a rapidly growing literature on the subject from the UK North America Australasia and elsewhere The main aim of this book is to bring together a selection of extracts from the most important and influential contributions to the restorative justice literature and its emergent philosophy accompanying these with an informative commentary providing context and explanation where necessary The book includes by both well known proponents of restorative justice work by some of the key critics of the restorative justice movement along with work from a number of writers not directly involved in either advocacy or critique of restorative justice but whose work is crucial to an understanding of it The book is organised into five main sections the concept of restorative justice historical anthropological and theological roots of restorative justice the goals restoring victims and offenders and preventing crime the restorative process critical perspectives The book provides a unique sourcebook bringing together writings from a wide range of often inaccessible sources essential reading both for students taking courses in criminal justice restorative justice as well as practitioners involved in the administration of criminal justice who need an understanding of what restorative justice is about and how it has developed Handbook of Restorative Justice Gerry Johnstone, Daniel Van Ness, 2013-01-11 Discusses the key concepts and principles of restorative justice explains how the campaign for restorative justice arose and developed into an influential social movement describes the variety of restorative justice practices and identifies and examines key issues within the restorative justice movement **Handbook of Restorative Justice** ,

Social Work and Restorative Justice Elizabeth Beck, Nancy P. Kropf, Pamela Blume Leonard, 2010-11-11 Presents an innovative synergistic practice model that will help social workers use restorative justice skills to facilitate healing and recovery in the families and communities that they serve **Migration in the Age of Genocide** Alastair Davidson, 2015-08-26 This book presents a novel proposal for establishing justice and social harmony in the aftermath of genocide It argues that justice should be determined by the victims of genocide rather than a detached legal system since such a form of justice is more consistent with a socially grounded ethics with a democracy that privileges citizen decision making and with human rights The book covers the Holocaust genocides in Argentina South Africa Rwanda Latin America and Australia as well as crimes against humanity in Italy and France From show trials to state enforced forgiveness the book examines various methods that have been used since 1945 to punish the individuals and groups responsible for genocide and how they have ultimately failed to deliver true justice to the victims The only way to end this failure the book points out is to return justice to the victims This simple proposition however challenges the Enlightenment tradition of Western law which

was built on the refusal to allow victims to determine the measure of justice That would amount according to Bacon Hegel and Kant to a revenge system and bring social chaos But as this book points out forgiveness is only something victims can give no one can demand it In order to establish a lasting peace it is necessary to re examine the philosophical and theoretical refusal to return justice to the victims The engaging argument put forth in this book can help deliver true justice and re establish international social harmony in the aftermath of genocide Genocide is ubiquitous in the modern global world It s understanding is highly relevant for the understanding of specific and perpetuating challenges in migration Genocide forces the migration of millions to avoid crimes against humanity When they flee war zones they bring their fears hates and misery with them So migration research must engage fully with the experience of genocide its human consequences and the ethical dilemmas it poses to all societies Not to do so will make it more difficult to understand and live with newcomers and to achieve some sort of harmony in host countries as well as those which are centers of genocide

Restorative Justice Theo

Gavrielides, 2017-09-19 The legitimacy and performance of the traditional criminal justice system is the subject of intense scrutiny as the world economic crisis continues to put pressure on governments to cut the costs of the criminal justice system This volume brings together the leading work on restorative justice to achieve two objectives to construct a comprehensive and up to date conceptual framework for restorative justice suitable even for newcomers and to challenge the barriers of restorative justice in the hope of taking its theory and practice a step further The selected articles start by answering some fundamental questions about restorative justice regarding its historical and philosophical origins and challenge the concept by bringing into the debate the human rights and equality discourses Also included is material based on empirical testing of restorative justice claims especially those impacting on reoffending rates victim satisfaction and reintegration The volume concludes with a critique of restorative justice as well as with analytical thinking that aims to push its barriers It is hoped that the investigations offered by this volume not only offer hope for a better system for abolitionists and reformists but also new and convincing evidence to persuade the sceptics in the debate over restorative justice

Restorative Justice Marian

Liebmann, 2007 Provides an accessible introduction to the philosophy of restorative justice and its application in a wide range of settings demonstrating how it can help to rehabilitate both victims and offenders when harm has been done

Justice in

Transition Anna Eriksson, 2013-05-13 This book provides a unique account of the high profile community based restorative justice projects in the Republican and Loyalist communities that have emerged with the ending of the conflict in Northern Ireland Unprecedented new partnerships between Republican communities and the Police Service of Northern Ireland have developed and former IRA and UVF combatants and political ex prisoners have been amongst those involved Community restorative justice projects have been central to these groundbreaking changes acting as both facilitator and transformer

Based on an extensive range of interviews with key players in this process many of them former combatants and unique access to the different community projects this book tells a fascinating story At the same time this book explores the wider implications for restorative justice internationally highlighting the important lessons for partnerships between police and community in other jurisdictions particularly in the high crime alienated neighbourhoods which exist in most western societies as well as transitional ones It also offers a critical analysis of the roles of both community and state and the tensions around the ownership of justice and a critical unromanticized assessment of the role of restorative justice in the community

Restorative Policing Lodewijk Gunther Moor, 2009 The focus of restorative policing is within a community oriented policing approach where the police have important tasks in rendering services to the population Traditional forms of penal treatment no longer satisfy entirely especially in relation to nuisances incivilities and petty crime Is the community police officer the simple registrator of events between victim and offender Can s he take the role of mediator or can s he refer to external instances in the domain of mediation or to civil judges Do the police have their own restorative regulations and institutionalized practices and are they involved in mediation in penal matters In what ways do police officers contribute to informal restorative practices and conflict resolution in neighborhoods This book is about restorative policing practices and the place and role police forces can take in this kind of approach
