Restructuring Canadas Health Service System How Do We Get There From Here:

Restructuring Canada's Health Systems: How Do We Get There From Here? Raisa B. Deber, Gail G. Thompson, 1992-12-15

Is the Canadian health care system becoming a victim of its own success It has done what it set out to do provide universal access to all medically necessary health services without financial barriers to patients but expanding technology an aging population and escalating costs strain its ability to continue It is time to explore ways to reorient and restructure the health care system and the services it provides At the Fourth Canadian Conference on Health Economics contributors of international reputation addressed these concerns Their papers collected in this volume consider a wide range of fundamental issues related to health care policies and structures They discuss new developments in health care delivery assess implications of such new policies as home care and health promotion and propose concrete alternatives for restructuring the present system to sustain universal medicine

Health Care Reform and the Law in Canada Timothy Caulfield, Barbara von Tigerstrom, 2002 Sweeping changes are being proposed as Canadians examine our health care system But what are the legal implications of health care reform In this timely collection lawyers and legal scholars discuss a variety of topics in health care reform including regulation of private care interpretation of the Canada Health Act and the constitutional implications of proposed reforms Barbara von Tigerstrom is currently studying at the University of Cambridge in England Timothy Caulfield lives in Edmonton where he teaches at the University of Alberta

Markets and Health Care Wendy Ranade, 2018-10-08 A growing reliance on market disciplines and incentives characterised health care reform strategies in many countries in the 1990s yet the country which relies most heavily on private health care the U S A is the most expensive in the world and still fails to deliver affordable health care to millions of its citizens This apparent paradox is the starting point for Markets and Health Care A Comparative Analysis

The Affordable Care Act and Medicare in Comparative Context Eleanor D. Kinney, 2015-07-20 Burdened with perennially rising costs and responsible for providing health insurance to more than one sixth of all Americans Medicare in its original form is fiscally and demographically unsustainable In light of dramatic reforms under the Affordable Care Act ACA this book provides a comprehensive overview of the current state of Medicare Eleanor D Kinney explains how the ACA addresses systemic problems of cost and volume inflation quality assurance and fraud Recognizing the potential for more radical change in the future Kinney also explores the potential of Medicare to become a single payer system Comparisons are made with national health systems in Canada and the United Kingdom from which the United States can draw valuable lessons An approachable yet comprehensive account of Medicare and the ACA this book will be invaluable for health care professionals and informed citizens

Canadian Health Care and the State David Naylor, 1992-09-01 The contributors include prominent specialists in medical military and labour history who provide valuable examinations of such issues as the ideological origins of the welfare state the experience of the Canadian Army Medical Corps during the First World War and the development of neuropsychology during the Second World

War Several essays are particularly relevant to contemporary concerns A history of sexually transmitted diseases STDs in Canada extended to include present day research reveals underlying flaws in the approach to STDs taken by Canadian governments and the medical establishment The comparative development of health insurance in Canada and the United States is discussed in another essay Other authors provide a historical and critical review of a key assumption of Canadian Medicare that universal first dollar coverage will enhance equity in the use of health services and in health status In addition to David Naylor who writes the Introduction the contributors are Robin F Badgley Jay Cassel Terry Copp Raisa B Deber Colin D Howell Stephen J Kunitz Desmond Morton Eugene Vayda Samuel Wolfe and Judith Young Health and Canadian Society David Coburn, Carl D'Arcy, George Murray Torrance, 1998-01-01 Health and Canadian Society provides a comprehensive overview of the relationship between health health care and Canadian society It is a wide ranging volume that moves from personal and micro concerns to a more macro and institutional focus It includes chapters of a descriptive nature and others with a more explanatory intent They have been selected from the major journals or have been expressly written for this book Ninety five percent of the contributions are new to this edition The chapters and the studies reported on are methodologically diverse ranging from ethnographic studies to statistical analyses of data from large national surveys Though the chapters are written by anthropologists economists historians political scientists and physicians as well as sociologists they all have a sociological turn Recognized as the standard textbook on the sociology of health in Canada Health and Canadian Society is an essential reference for sociologists health care providers health administrators and policy planners **Riding the Third Rail** Duncan Gordon Sinclair, Mark Rochon, Peggy Leatt, Institute for Research on Public Policy, 2005 This book tells the story of how the Health Services Restructuring Commission developed a vision of an effective health services system for the twenty first century and attempted to fill a policy and leadership void Midwest *Health Care Reform Around the World* Andrew Twaddle, 2002-06-30 Health care reforms around the world from Europe and North America to Africa Latin America and Asia seem to all be market oriented reforms driven by international business interests and right wing political parties There seems to be a sudden and broad concern with the efficiency of medical care with the assertion that democratically or professionally run systems are inherently inefficient Far less concern is evident for the more traditional values held regarding medical care effectiveness or quality and equity The fact is that we have little good cross national research that systematically addresses the reform issue This book addresses that problem and attempts to look at health care reforms in a number of countries representing as wide a spectrum as possible and using a common conceptual framework that allows for comparable information to be gathered and presented on each despite differing levels of socio economic development The authors agreed on a set of models that were thought to provide reasonable guidance in answering the questions of the source of pressures for reform the alternative modes of organization that have been found in the world in recent years and the direction of change among those alternatives Exposing Privatization Pat

Armstrong,Carol Amaratunga,Jocelyne Bernier,2001-01-01 This book begins with the international context for health care reform and then moves from coast to coast setting out what is known about the reforms in health care privatization that are underway and about their impact on women Almost Home Patricia M. Baranek,Raisa B. Deber,Alan Paul
Williams,2004-01-01 While Medicare continues to resist political and ideological forces aimed at shrinking the state s role cost constraints demographic pressures and technological advancements are increasing pressure on home and community care
