Restructuring Patriarchy Susan K. Besse, 2018-06-15 Susan K Besse broadens our understanding of the political by establishing the relevance of gender for the construction of state hegemony in Brazil after World War I Restructuring Patriarchy demonstrates that the consolidation and legitimization of power by President Getulio Vargas's Estado Novo depended to a large extent on the reorganization of social relations in the private sphere New expectations and patterns of behavior for women emerged in postwar Brazil from heated debates between men and women housewives and career women feminists and antifeminists reformist professionals and conservative clerics and industrialists and bureaucrats But as urban middle and upper class women challenged patriarchal authority at home and assumed new roles in public prominent intellectuals professionals and politicians defined and imposed new hygienic rational and scientific gender norms Thus modernization of the gender system within Brazil's rising urban industrial society accommodated new necessities and opportunities for women without fundamentally changing the gender inequality that underlay the larger structure of social inequality in Brazil Black Women, Citizenship, and the Making of Modern Cuba Takkara K. Brunson, 2023-03-07 In the

first book to focus on the activism of Black women during Cuba's prerevolutionary period Takkara Brunson discusses how these women battled exclusion on multiple fronts but played an important role in forging a modern democracy **Stars and Stardom in Brazilian Cinema** Tim Bergfelder, Lisa Shaw, João Luiz Vieira, 2016-12-01 Despite the recent explosion of scholarly interest in star studies Brazilian film has received comparatively little attention As this volume demonstrates however the richness of Brazilian stardom extends well beyond the ubiquitous Carmen Miranda Among the studies assembled here are fascinating explorations of figures such as Eliane Lage the star attraction of São Paulo's Vera Cruz studios cult horror movie auteur Coffin Joe and Lázaro Ramos the most visible Afro-Brazilian actor today At the same time contributors interrogate the inner workings of the star system in Brazil from the pioneering efforts of silent era actresses to the recent advent of the non-professional movie star

Peripheral Visions Edward D. Terry, 2010-03-16 The essays in this collection illuminate both the processes of change and the negative reactions that they frequently elicited Yucatan has been called a world apart cut off from the rest of Mexico by geography and culture Yet despite its peripheral location the region experienced substantial change in the decades after independence As elsewhere in Mexico apostles of modernization introduced policies intended to remold Yucatan in the image of the advanced nations of the day Indeed modernizing change began in the late colonial era and continued throughout the 19th century as traditional patterns of land tenure were altered and efforts were made to divest the Catholic Church of its wealth and political and intellectual influence Some changes however produced fierce resistance from both elites and humbler Yucatecans and modernizers were frequently forced to retreat or at least reach accommodation with their foes Covering topics from the early 19th century to the late 20th century the essays in this collection illuminate both the processes of change and the negative reactions that they frequently elicited

The diversity of disciplines covered by this volume history anthropology sociology economics illuminates at least three overriding challenges for study of the peninsula today One is politics after the decline of the Institutional Revolutionary Party What are the important institutions practices and discourses of politics in a post postrevolutionary era A second trend is the scholarly demystification of the Maya Anthropologists have shown the difficulties of applying monolithic terms like Maya in a society where ethnic relations are often situational and ethnic boundaries are fluid And a third consideration researchers are only now beginning to grapple with the region s transition to a post henequen economy based on tourism migration and the assembly plants known as maquiladoras Challenges from agribusiness and industry will no doubt continue to affect the peninsula s fragile Karst topography and unique environments Contributors Eric N Baklanoff Helen Delpar Paul K Eiss Ben W Fallaw Gilbert M Joseph Marie Lapointe Oth n Ba os Ram rez Hern n Men ndez Rodr guez Lynda S Morrison Terry Rugeley Stephanie J Smith

The Religion of Life Sarah Walsh, 2022-01-25 The Religion of Life examines the interconnections and relationship between Catholicism and eugenics in early twentieth century Chile Specifically it demonstrates that the popularity of eugenic science was not diminished by the influence of Catholicism there In fact both eugenics and Catholicism worked together to construct the concept of a unique Chilean race la raza chilena A major factor that facilitated this conceptual overlap was a generalized belief among historical actors that male and female gender roles were biologically determined and therefore essential to a functioning society As the first English language study of eugenics in Chile The Religion of Life surveys a wide variety of different materials periodicals newspapers medical theses and monographs produced by Catholic and secular intellectuals from the first half of the twentieth century What emerges from this examination is not only a more complex rendering of the relationship between religion and science but also the development of White supremacist logics in a Latin American context
