Rethinking Power:

Rethinking Power Thomas E. Wartenberg, 1992-01-01 A collection of 14 essays seven previously published analyzing the nature of power in society and personal lives The different perspectives and divergent conclusions share assumptions that power is important that previous analyses are inadequate and that the only reason to talk about it is in order to improve people's lives No index Paper edition unseen 16 95 Annotation c by Book News Inc Portland Or *Demeaned But Empowered* Obika Gray, 2004 Gray's central thesis asserts that the Jamaican state is a form of predatory state that incorporates contradictory social forces into an arrangement that is hierarchical often brutal and ultimately debilitating to democracy He introduces a series of constructs to support this argument but the more interesting and novel theses are to be found in his vivid description of the social forces that resist the predatory state and how they have carved out a modicum of autonomy based on what he describes as an elaborate value system of badness honour **The Power of Feminist Theory**

Amy Allen, 2025-06-17 In this new second edition of *The Power of Feminist Theory Domination Resistance Solidarity* Amy Allen diagnoses the inadequacies of previous feminist conceptions of power and draws on the work of a diverse group of theorists of power including Michel Foucault Judith Butler bell hooks and Hannah Arendt in order to construct a new feminist conception of power The conception of power developed in this book enables readers to theorize domination resistance and solidarity and perhaps more importantly to do so in a way that illuminates the interrelatedness of these three modalities of power The new edition of this foundational text includes substantial new material on intersectionality and power transnational feminism and power in relation to homonationalism and neo imperialism and empowerment feminism It addresses important criticisms of Foucault Arendt and Butler that have been raised by Black feminists critical philosophers of race postcolonial theorists and Marxists *The Power of Feminist Theory Domination Resistance Solidarity* is an essential text for students engaging with feminist analyses of power feminist theory and feminist political thought **Power and Parenting**

K. Bonner, 1998-09-14 The power to act is two sided in that it refers to the parent's ability to initiate having children or responding to their actions and to the ability to suffer consequences irreversibility and unpredictability The book argues that the best way of responding to these essential limits is for the parent to develop the interrelation between wisdom ethicality and self mastery that is practical wisdom Let's Get Real

Martha Caldwell, Oman Frame, 2022-02-15 This is a vital resource for any teacher or administrator looking to help students tackle issues of race class gender religion and cultural background Authors Martha Caldwell and Oman Frame both lifelong educators offer a series of teaching strategies designed to encourage conversation and personal reflection enabling students to think creatively rather than stereotypically about difference Using the Transformational Inquiry method your students will learn to explore their own identities share stories and thoughts with their peers learn more through reading and research and ultimately take personal and collaborative action to affect social change in their communities This second edition's updates include new research

throughout as well as additional lessons on gender and sexuality The lesson plans and handouts throughout the book are appropriate for middle and high school classes and are easy to implement into your own curriculum *Power* Steven Lukes, 2017-03-16 The second edition of this seminal work includes the original text first published in 1974 alongside two major new chapters *Power A Radical View* assesses the main debates about how to conceptualize and study power including the influential contributions of Michel Foucault *Power Revisited* reconsiders Steven Lukes own views in light of these debates and of criticisms of his original argument With a new introduction and bibliographical essay this book has consolidated its reputation as a classic work and a major reference point within Social and Political Theory It can be used on modules across the Social and Political Sciences dealing with the concept of power and its manifestation in the world It is also essential reading for all undergraduate and postgraduates interested in the history of Social and Political Thought New to this Edition An additional introduction explaining the context of the first edition of *Power A Radical View* Two new chapters defending Lukes original argument and assessing the main debates about power since A detailed guide to further reading on essential concepts and key thinkers **To Change the World** James Davison Hunter, 2010-04-14 Christians from every tradition have long desired to change the world for the better a desire with roots in biblical and theological reasoning Unquestionably Christians today are no less well intentioned and no less motivated to do good than in times past But even taking their aspirations and intentions at face value argues James Hunter the implicit social theory that guides so much of their efforts is deeply flawed In *To Change the World* he offers three essays connected and sequential but distinct arguing that Christians should finally give up the goal of trying to change the world and the triumphalist attitude that tends to go along with that idea **Power** Raymond Angelo Belliotti, 2016-03-14 Frequently understood in simplistic and often highly negative terms the concept of power has proven to be both uncommonly intriguing and maddeningly elusive In *Power* Raymond Angelo Belliotti begins by fashioning a general definition of power that is refined enough to capture the numerous types of power in all their multifaceted complexity He then proceeds in a series of discrete yet thematically connected meditations to explore the meaning of power in ancient modern and contemporary thought In grappling with the critical questions surrounding the accumulation distribution and exercise of personal and social power this work allows us to confront fundamental questions of who we are and how we might live better lives *Power, for All* Julie Battilana, Tiziana Casciaro, 2021-08-31 Discover how to gain and keep power in any situation with this remarkably insightful read on what power is how it s gained and how it can be used for good Adam Grant bestselling author of *Think Again* *Power* is one of the most misunderstood and therefore vilified concepts in our society Many assume power is predetermined by personality or wealth or that it s gained by strong arming others You might even write it off as dirty and want nothing to do with it But by staying away from power you give it up to someone else who may not have your best interest in mind We must understand and use our power to have impact and pioneering researchers Julie Battilana and Tiziana Casciaro provide the playbook for doing so in *Power for All* Battilana and

Casciaro offer a necessary Tarana Burke creator of the MeToo movement and bestselling author of Unbound and invaluable David Gergen CNN political analyst vision of power the ability to influence someone else s behavior This influence is derived from having access to valued resources and once you understand what those are you can take action to improve life for yourself and others With proven strategies of agitating innovating and orchestrating change Power for All shows how those with less power can challenge established structures to make them more balanced The authors teach you how to power map your workplace to find who can create real change at work plan for and cause sustaining shifts and understand the two basic needs all human beings share safety and self esteem and the resources people seek to satisfy those needs money and status but also autonomy achievement affiliation and mortality They explore how these dynamics play out through vivid storytelling as Donatella Versace successfully leads her brother s company after his death despite having a title but little influence what social movements can learn from youth climate activists and how they can go farther and how a manager can gain the trust of skeptical employees and improve the workplace Power for All demystifies the essential mechanisms for acquiring and using power for all people

Transformative Power in Motherwork Marie Porter, 2021-02-03 This book explores the experiences of a group of Australian women who became first time mothers between 1950 and 1965 A grounded theory of transformative power in motherwork is presented that has emerged from the analysis of interviews The mothers talked about what they did in their active mothering years The author argues that despite being constrained by the gender bias in the patriarchal context these mothers were agents who developed skills that enabled them to resist or creatively deal with most of the constraints they faced Their emphasis was on their agency and the power to nurture their children into responsible adults Their awareness of the importance of their motherwork acted as a motivator in this development The author further argues that the relationship between each mother and each of her children is a transformative power relationship in which both mother and child are transformed the child into an independent adult and the mother into a skilled self motivated agent through her motherwork Any threat to this process resulted in the mother doing all she could to resist or counteract the constraint s she was encountering Transformative power expressed in motherwork can be recognised analytically by several characteristics It empowers both parties in the mother child duality Complexity diversity fluidity and responsiveness to the physical intellectual and emotional aspects of the relationship are all evident in transformative power relationships
