Torn between East and West Iulian Chifu, Simona Tutuianu, 2016-08-05 This book is a very timely account of the legal economic and political consequences for border states caught in the current tug of war between the West and Russia The Ukraine crisis of 2014 focused policy makers attention on a geographical area full of dangers that had gone relatively unnoticed since the breakup of the Soviet Union namely the security dynamics of the border states of Eastern Europe and the Black Sea Twenty five years after the collapse of the Soviet Union a strong Russia returns alternatively threatening and

cajoling but at risk itself of suffering economic injury from western reprisals over its nostalgia for the map drawn at Yalta That conflict which hotbedded up over the Ukraine was soon being played out over and in the air space over Syria and Turkey while the border states themselves are likely to be drawn into the European refugee crisis and have the potential after the 2015 Paris atrocities to be breeding grounds for international terrorists This groundbreaking book contains prescient warnings that must be heeded by leaders and diplomats on both sides of the East West divide Peace without Politics? Ten Years of State-Building in Bosnia David Chandler,2013-09-13 Ten years on from the signing of the Dayton Peace Agreement in November 1995 the legacy of the Bosnian war still shapes every aspect of the political social and economic environment of the tiny state This state of affairs is highlighted by the fact that Bosnia is still under international control with the Office of the International High Representative regularly using its powers to dismiss elected presidents prime ministers and MPs and to impose legislation over the resistance of elected legislatures at national regional and local level What has changed in the ten years since Dayton Is international regulation helping to establish a sustainable peace in Bosnia What lessons can be learned for nation building in Bosnia This volume was previously published as a special issue of the leading journal *International Peacekeeping* *Foreign and Security Policy of the European Union* Fraser Cameron,1999-11-01 The book provides an overview of the efforts to develop a Common Foreign and Security Policy CFSP for the European Union It covers the attempts to create a European Defence Community in the 1950s the establishment of the system of European Political Cooperation EPC in the 1970s and the renewed drive for a CFSP culminating in the treaties of Maastricht and Amsterdam The book assesses the CFSP in operation discusses the EU response to the Bosnia and Kosovo crises and offers some challenging proposals for the future development of the CFSP in light of the enlargement of the Union This title is published in conjunction with UACES the University Association for Contemporary European Studies UACES web site can be found at www.uaces.org **The Kosovo crisis and the evolution of a post-Cold War European security** Martin A Smith,Paul Latawski,2013-07-19 Analyses the international response to the crisis in Kosovo and its broader implications by examining its diplomatic military and humanitarian features Unravelling these implications can be challenging as it remains an event replete with paradoxes the originality of this book s approach lies in its exploration of these paradoxes The crisis in Kosovo has been a headline grabbing event a serious study of the implications of the conflict on wider European security issues and institutions is urgently required An electronic edition of this book is freely available under a Creative Commons CC BY NC ND licence *The New Security Concept and German-French Approaches to the European "Pillar of Defence," 1990-2000* Siret Hürsoy,2002 A historic opportunity without precedent is gradually becoming reality in the 21st Century with the chance taken to pave the way in the period 1990 2000 towards the organisation of defence in Europe The corresponding conditions have been brought about by concrete steps taken at the Maastricht Amsterdam Cologne Helsinki and Nice European Council meetings In the end the EU WEU is developing into an equal partner to the US by assuming greater responsibility in the

security and defence sphere The French and German bilateral relationship which is the driving force behind every European integration process is the historical force behind this development of the ultimate desire to reach a robust European Pillar of Defence through reconfiguration of the transatlantic relationship This book provides the first comprehensive and up to date analysis of German and French approaches to the European Pillar of Defence from the view of Europeanisation emanating from the process of integration

NATO: Does it Still Fulfil an Important Function? Saghir Iqbal, 2018-08-10

When NATO was founded in 1949 it had a clearly defined role The demise of the Cold War the disintegration of the Soviet Union and the collapse of communism in the period from 1989 to 1991 called into question NATO's future role and its continued existence The primary role was called into question over its future relevance in the post Cold War world The reason for NATO was essentially a military alliance to deter Soviet and Warsaw Pact aggression however once the threat had finished its role had been challenged by many academics and governments Many analysts felt that NATO was nothing more than an out of date alliance from the Cold War with no real future Others would say however that an organisation such as NATO was still crucial in the modern world to ensure that countries do not act unilaterally but co operate with allies In view of the situations NATO has managed to address new issues and adapt its roles on different levels
