Rethinking United States-Soviet Relations George Liska, 1987 **In Search of Poetry in the Politics of Power** George Liska, 1998-01-01 The culminating work of a lifetime of scholarship In Search of Poetry in the Politics of Power is an intellectual autobiography of George Liska a distinguished scholar of foreign policy Integrating personal memoir with a discussion of world politics and international relations this book includes selections from Liska s most important writings from the past 50 years Topics discussed include realism and world politics historicism historicist realism and statesmanship and the prospects for scholarship in the next half century This is a valuable book for scholars of international relations world politics and political history *Rethinking US Security Policy for the 1980s* , 1980 Redefining Greek-US Relations, 1974-1980 Athanasios Antonopoulos, 2020-08-05 This book provides the first bilateral study of Greek US relations during Greece s transition to democracy in the second half of the 1970s Following the 1974 Cyprus crisis which led to the collapse of the Greek dictatorship and Athens partial withdrawal from NATO many scholars have claimed that Greece moved away from the United States This book explicitly rejects this view It argues that Greek political leaders continued to view close relations with the United States as an integral part of Greek national security despite the disappointment felt during the Turkish invasion of Cyprus At the same time the Greek leadership could not overlook the anti American movement and had to respond to and manage it In the United States relations with Greece became part of the clash between the executive and legislative branches of government Both President Gerard R Ford and President Jimmy Carter proclaimed their commitment to restoring relations with Athens This book highlights the continuity between the Republican and Democratic administrations of the 1970s in foreign policy objectives Drawing on Greek US and British archival records it charts the evolving connections between Greece and the United States through the Greek Turkish disputes the impact of anti Americanism and the Greek NATO relationship offering original insight into this Cold War special relationship Rethinking The 1990s Oxford Editor, 2025-11-12 Rethinking the 1990s provides a timely thought provoking retrospective on a decade of world historical importance In an era of intensifying geopolitical rivalry economic nationalism and ideological extremism this wide ranging analysis explores the great hopes and expectations that inspired Western policymakers in the decade after the Cold War Providing much needed historical perspective it offers new insight into the strategic choices political trade offs and missed opportunities that have brought the world to this unsettled moment Written in a highly accessible style these engaging essays by leading experts will make it attractive to students and the educated reading public as well as essential reading for scholars of world politics Policymaking and Peace Stuart S. Hodge,2002-09-11 Redefining European Security is a collection of essays concerned with changing perspectives on peace and political stability in Europe since the end of the Cold War in both the hard security terms of military capacity and readiness and in the realm of soft security concerns of economic stability and democratic reform European governments the European Union and the North Atlantic Treaty Organization are dealing with the fundamental problem of determining the very parameters of Europe politically economically and institutionally This book defines security as the efforts undertaken by national governments and multilateral institutions beginning with the end of the Cold War and the reunification of Germany to continue to protect European populations from acts of war and politically motivated violence in light of the dissolution of the imminent political threat posed to Western Europe by the Soviet Union 1945 1991 Together these essays assess the progress made in Europe toward preventing conflict as well as in ending conflict when it occurs after the abrupt passing of a situation in which the source and nature of a conflict were highly predictable and the emergence of new circumstances in which potential security threats are multiple variable and difficult to measure Contemporary Europe is a mixture of old and new of arrested and accelerated history Europe s governments and institutions have been only partly successful in meeting new security challenges to a high degree because of failing unity and political will Yesterday Europe only just avoided perishing from imperial follies and frenzied ideologies wrote the late Raymond Aron in 1976 she could perish tomorrow through historical abdication **The Mueller Report** Robert S.
