VIMALAKIRTI NIRDESA SUTRA - The Teachings of Vimalakirti

Jung-Ho Yoon, 2024-04-04 The Teaching of Vimalakirti presents in 14 fairly short chapters the core teachings of Mahayana Buddhism 1 Considered the jewel of Mahayana Sutras the teaching is addressed to very advanced arhats and bodhisattvas by Vimalakirti Undefined Reputation a supposedly ill advanced lay bodhisattva Especially influential in East Asian Buddhism the teaching clarifies the meaning of nonduality and stresses the importance of the Bodhisattva ideal of saving all beings as well as many other important themes in Mahayana Buddhism 2 The teaching does this in an insightful and spiritually imaginative if complex manner that includes humor satire extravagant drama magic poetry and lavish description as well as straightforward doctrinal discussion The style of presentation makes The Teaching of Vimalakirti one of the most fascinating inspiring and readable if bizarre Mahayana Sutras in fact a Sutra that is so extraordinary that readers are urged to relax their logical discursive habitual way of thinking in order to fully absorb the teaching Most importantly the Sutra stresses the nondual teaching that all dichotomies like nirvana and samsara sickness and health sacred and secular and men and women are ultimately empty and thus make no sense 3 When this teaching is fully realized one understands completely as Dogen and Susuki Roshi continually point out that everything is already whole so just try your best and show up

Human Rights from Exclusion to Inclusion: Principles and Practice Fons Coomans, Cees Flinterman, Fred Grünfeld, Ingrid Westendorp, Jan Willems, 2021-10-25

Professor Theo van Boven has made his mark in the field of human rights by writing a vast number of scholarly articles reports studies congress papers and the like covering many topics Most of his work has been published in law journals textbooks Festschriften and other sources Since not all of these publications are easily accessible it is the purpose of this anthology to bring together a selection of his writings from 1966 to 1998 The editors have focused on those subjects that played a major part during Theo van Boven's career and that are in their view the most interesting to the reader That is why this volume contains papers on such issues as the United Nations and its role as regards human rights racial discrimination

the right to rehabilitation the international criminal tribunals the role of NGOs and many more The papers have been arranged in different groups under general headings Within each group articles dealing with the same subject have been put in chronological order A detailed bibliography covering most of Theo van Boven's publications is included in this book as an annex All through his work Theo van Boven displays his sound theoretical background as well as his enormous practical experience This combination makes his writings so attractive and compelling to read Samdhong Rinpoche Samdhong Rinpoche,2006-07-10 This is the first ever series of in depth dialogues with the current Prime Minister of the Tibetan Government in Exile Samdhong Rinpoche presenting his views on the plight of Tibet and Tibetan Buddhism in the face of the communist Chinese invasion The Other Side of Nothing Brad Warner,2022-05-10 A reader friendly guide to Zen Buddhist ethics for modern times In the West Zen Buddhism has a reputation for paradoxes that defy logic In particular the Buddhist concept of nonduality the realization that everything in the universe forms a single integrated whole is especially difficult to grasp In *The Other Side of Nothing* Zen teacher Brad Warner untangles the mystery and explains nonduality in plain English To Warner this is not just a philosophical problem nonduality forms the bedrock of Zen ethics and once we comprehend it many of the perplexing aspects of Zen suddenly make sense Drawing on decades of Zen practice he traces the interlocking relationship between Zen metaphysics and ethics showing how a true understanding of reality and the ultimate unity of all things instills in us a sense of responsibility for the welfare of all beings When we realize that our feeling of separateness from others is illusory we have no desire to harm any creature Warner ultimately presents an expansive overview of the Zen ethos that will give beginners and experts alike a deeper understanding of one of the world's enduring spiritual traditions

Humanity's Last Stand Nicanor Perlas,2018-07-25 Although still in its earliest stages artificial intelligence AI is radically transforming all aspects of society With the immanent emergence of Artificial Super Intelligence ASI and the illusory temptations of transhumanism mankind stands at a crossroads In *Humanity's Last Stand* Nicanor Perlas makes an urgent plea It is imperative he says that we take immediate steps to ensure that digitized technology is aligned to human values and priorities Otherwise ASI will kill the essence of our humanity Further if we do not master it now ASI will transform mankind into its own image Ultimately it will destroy the human race AI experts have not offered a single cogent solution to this existential threat Rudolf Steiner however not only foresaw these developments but gave clear alternatives Steiner the founder of a contemporary scientific approach to spirituality provided philosophical ontological and social innovations to save humanity from the abyss It is the task of the global anthroposophical movement to pioneer this civilization saving work to establish spiritual scientific ideas in mainstream culture that would allow AI to emerge in a healthier societal context Perlas gives an overview of the phenomenon of AI together with its related transhuman concepts of perfecting humanity and outlines the critical internal and external responses required to meet them with consciousness In particular he addresses the movement connected to the work of Rudolf Steiner indicating its all important tasks to cooperate with progressive individuals

and movements including scientists and civil society activists to mobilize its daughter movements for action and ultimately to cooperate with the spiritual powers that have guided and served humanity since the dawn of time This says the author is humanity s last stand and failure is not an option *Place Based Approaches to Sustainability Volume I* Mara Del Baldo, Maria-Gabriella Baldarelli, Elisabetta Righini, 2024-02-22 Without respecting and nurturing place we cannot achieve a state of ecological sustainability Place based organizations are not run on a purely materialistic basis The non materialistic features of a place its aesthetics cultural heritage community feelings transcendence should be integrated into sustainability management This far reaching two volume work breaks with the economic logic of efficiency and profit maximization and suggests that organizations should inform their sustainability by encompassing feelings of identity with and attachment to place According to this vision the editors have compiled scholarly contributions aimed to support the ecological transformation of humankind by exploring both theoretical and practical models that integrate the sense of the place ethics and spirituality in new ways of organizing of economic and social life This first volume sets the theoretical direction of the volumes asking broad aesthetic questions around the ethical and spiritual foundations of sustainability It will be of interest to scholars practitioners and students of sustainability business ethics and spirituality Buddhist approach to responsible consumption and sustainable development Thich Duc Thien, Thich Nhat Tu, 2019-04-16 EDITORS INTRODUCTION BACKGROUND This is a great academic solace to see the Volume on Buddhist Approach to Responsible Consumption and Sustainable Development which covers Sub Theme Five of UNDV 2019 Academic Conference REVIEW OF CONTENTS The World of Today is suffering from the crisis of consumerism The first paper on a Buddhist Perspective on Overconsumption and Its Negative Effects towards Society and Environment deals with it specifically in the reference of consumption beyond requirements which is generally termed as overconsumption Such human tendency leads to negative impact on the entire force of nature and the environment How the Buddhist principles guide us to live a better life where there is least effect on the environment and society is well explained in this paper The second paper in this volume entitled Attaining a Sustainable Society through the Teachings of the Khandhaka of the Therav da Vinaya Pi aka is a vivid example of the benefits which one can derive from our ancient Pali literature While studying the Theravada Vinaya Pitaka the author explores the specific words of the Buddha in the Khandhaka which hint at the possibility of sustainability and development going together without harming other societal components Though the Vinaya being a Pitaka for monastics it still is highly useful for the laity as well The paper Buddhist Ethics in the Establishments of Green Tourism is a unique academic contribution Here the writer states that the Buddha s life and principles make us learn a lot as how green methods must be applied in our day to day life The damage being caused by the genre called DEVELOPMENT needs to be controlled and for this the words of Master exhibits his proximity to protect nature humanity and the world order *Into the Stream* THANISSARO BHIKKHU, 2024-10-27 The Pali Canon recognizes four levels of Awakening the first of which is called stream entry This gains its name from the fact that

a person who has attained this level has entered the stream flowing inevitably to nibbana. He/she is guaranteed to achieve full awakening within seven lifetimes at most and in the interim will not be reborn in any of the lower realms. This study guide on stream entry is divided into two parts. The first deals with the practices leading to stream entry; the second with the experience of stream entry and its results.
