The Rise of Anthropological Theory Marvin Harris, 1968 The Rise of Anthropological Theory , 1969 *Theories of Culture in Postmodern Times* Marvin Harris, 1999

In this book Marvin Harris presents his current views on the nature of culture addressing such issues as the mental behavioral debate emics and etics and anthropological holism The Theory Primer Mark A. Schneider, 2006-04-13

The Theory Primer A Sociological Guide is both a classical theory text and a practical guide to theorizing making it ideal for sociology majors or graduate students new to the field Schneider presents theories drawn from Marx Weber Durkheim and Mead among others offering rigorous evaluations that examine the research traditions that arose from them and the paradigms that continue to produce theories today The book's goal is to align the study of theory with the skills orientation of methods and statistics courses because the ability to theorize is of great use not only in sociology but in occupational and public life

Exotic Visions in Marketing Theory and Practice Alf H. Walle, 2001-12-30 An anthropologist folklorist and literary critic besides being a marketing professor Alf H Walle takes a refreshingly interdisciplinary look at the impact of

modern social thought upon marketing and social research Tracing key ideas back to their intellectual roots Walle shows how the evolution of social theory and the controversies it has engendered can and should transform the way marketers approach consumers He provides a theoretic underpinning for qualitative consumer research and presents a lucid theoretical and methodological overview for qualitative methods in marketing research that parallels what others such as Shelby Hunt have provided for scientific methods in marketing His book is a provocative thoughtful and probing study of qualitative social theory and its important contributions to marketing and consumer research It is of value to both practitioners and academics Arguing that the social structural methods have been largely ignored Walle rehabilitates this general method and compares it to poststructural alternatives Walle shows that to understand the evolution of modern social theory one must come to grips with the work of three towering pioneers Immanuel Kant Friedrich Hegel and Karl Marx and that researchers must understand and appreciate the contributions and influence of pioneers in order to avoid the myopic vision of our own time Praising Hegel s metaphor of cultures as living organisms and his forging of the concept we now call National Character Walle points to Hegel as the pioneering social structuralist and as the man who as a negative example inspired the poststructuralists to action Walle ends with a well reasoned analysis of poststructural thought in marketing consumer research and suggests that conflict theory an alternative to poststructural methods that evolved from social structural roots is often more appropriate than poststructural analysis in marketing and consumer research Relating both conflict theory and poststructural analysis to the actual needs of marketing consumer researchers *Exotic Visions in Marketing Theory and Practice* provides unique practical insights for those who teach market research as well as practitioners who pursue it for a living
