Rise And Demise:

The Rise and Fall of the American Whig Party Michael F. Holt, 2003-05-01 Here Michael F Holt gives us the only comprehensive history of the Whigs ever written He offers a panoramic account of the tumultuous antebellum period a time when a flurry of parties and larger than life politicians Andrew Jackson John C Calhoun Martin Van Buren and Henry Clay struggled for control as the U S inched towards secession It was an era when Americans were passionately involved in politics when local concerns drove national policy and when momentous political events like the Annexation of Texas and the Kansas Nebraska Act rocked the country Amid this contentious political activity the Whig Party continuously strove to unite North and South emerging as the nation s last great hope to prevent secession *Rise and Fall of Art Needlework* Linda Cluckie, 2008-09-15 In the nineteenth century a new needlework style Art Embroidery gave rise to major commercial ventures of the time The significance of these ventures is explored particularly the contribution made by women employed in this industry Auditing their working practices then relating this to our understanding of gender history These ventures stimulated the commercial side of embroidery in the late nineteenth century by mobilising commercial activity through numerous agencies department stores depots and charitable institutions A craft became a major industry and in examining these important developments the organisational structure of these enterprises their marketing techniques in relationship to their predominantly female workforce will be evaluated The theme of business enterprise is a conduit which runs throughout yet the work is not intended as an economic history rather business history as social history The growth and development of Art Embroidery in Britain circa 1870 1890 will be explored giving special consideration to the support received from the art establishment in designing for and educating embroiderers Initially designing for the massive church building programme being conducted in Britain the immense popularity of medieval and oriental designs employed in this work lead also to a demand for secular work As with all art design changes are a derivative of social and political changes These deterministic style changes were reliant upon imperialism Said s notion of the other but perhaps more interestingly upon white man s burden of manifest destiny illustrated by Liberty department store Finally the decline of the embroidery business in the British Isles will be examined as work was sent overseas chasing cheaper labour in the colonies Aiming to make a contribution to our understanding of the embroidery business the book shows the dynamics shaping development and the role of women employed in the industry In particular the economic significance of the embroidery business to female employment in the nineteenth century will be revealed as it has been hidden from view mainly due to employing outworkers a hidden workforce Though a social history the thesis will demonstrate this hidden workforce made a contribution to the British economy **The Rise and Fall of the Saturday Globe** Ralph Frasca, 1992 In the postbellum nineteenth century journalism reached larger audiences with more information in less time With the rise of industrialization and mechanization the means of conveying news to the public improved dramatically In 1873 Frederic Hudson one of the nation s first

journalism historians predicted that these technological advances would spawn genuinely national newspapers. Such publications would be circulated to all parts of the country by means of pneumatic tubes, he wrote, which could convey newspapers from one coast to the other within three hours. The prophesy of compressed air blowing bunches of newspapers across the length and breadth of the country was so far awry that it is amusing to consider today. However, Hudson's forecast of a national newspaper, which seemed just as far fetched in that era of a distinctly provincial press, came to fruition in only the following decade. As the population soared, due in large measure to immigration, as urban areas blossomed and as the public became increasingly literate, more people turned to newspapers for information about their community and nation. It was against this backdrop that the Saturday Globe was born in 1881. From its auspicious infancy in Utica, New York, the Saturday Globe grew into a major newspaper with nationwide circulation. Through its pioneering use of regional editions, it became the first truly national newspaper in United States history. It served as a unifying force for disparate communities which were constantly being redefined by the expansion of industry and the increase in population. The Saturday Globe's readership, which peaked at nearly 300,000, was attracted by its stunning artwork, its national scope, and its charming miscellany of stories. In many ways, the Saturday Globe was a theoretical forerunner of USA Today. Although it eschewed the political partisanship so common among newspapers of the era, the Saturday Globe emanated a morally conservative tenor which was sometimes difficult to reconcile with the newspaper's tendency toward sensationalism. Relying on many diverse sources, Ralph Frasca constructs a comprehensive social history of the Saturday Globe, placing it in a larger context by showing how cultural, technological, economic, demographic, and journalistic forces in the late nineteenth and early twentieth centuries both created a milieu for the Saturday Globe's inception and success and led to its demise forty-three years later. The story of the Saturday Globe offers insight into the processes by which mighty newspapers rise, fall, and erode into the deepest recesses of time. The survival of America's newspapers is just as much a concern now as when the Saturday Globe, a mere husk of its former self, folded. While the Saturday Globe fought a losing battle against imitators and magazines, today's newspapers wage a similar war against the encroachment of the broadcast media. The history of the Saturday Globe offers a compelling case study of a major newspaper's rise and fall.

The Rise and Fall of the Indigenous Business

Development Center in Zimbabwe Tamuka Charles Chirimambowa, 2012-03-21. Bachelor Thesis from the year 2007 in the subject Politics Region Africa, grade 70. University of KwaZulu Natal, language English, abstract: Economic reform has become one of the major necessities of post-colonial African states, given years of slavery, apartheid, colonialism, and underdevelopment. Many scholars have argued that Africa's lack of development is due to the lack of African participation within the economic sphere, especially as a business class or bourgeoisie. They contend that African participation in business has been rare and, where granted, it has been mostly within the peripheries or petty commerce. This study will investigate Zimbabwe's IBDC with a view to going some way to answering the major question that arises out of this argument: is creating

a nationalist indigenous entrepreneurial class the answer to Africa's development problems The focus of this study will be on the emergence of the IBDC as a vehicle for black empowerment It will attempt to account for its successes its failures and its ultimate demise The research will also chart how some of Zimbabwe's most successful black entrepreneurs some who have managed to establish a global presence got their start with this organization and how they proceeded when the IBDC ceased to exist The study will also proceed to examine the Indigenous Business Women's Organization and the Affirmative Action Group similar organisations that came after the IBDC Crucial within this research agenda is the interrogation of the role of the state in post colonial Africa can it be a catalyst for economic empowerment or is it an inhibitor Finally efforts will be made to investigate the complementarities and contradictions of efforts to create a black business class with poverty alleviation policies
