Accounting & Business Decisions , Winning with Risk Management Russell Walker, 2013 This book develops the notion that companies can succeed on the basis of risk management much as companies compete on efficiency costs labor location and other dimensions The reality of risk and how it impacts companies is that it is much more definite often catastrophic and looks more like a shock This is striking as a difference between firms on risk different than a marginal difference in operating efficiencies for example Competing on Risk Management requires a discipline a commitment to using information and recognizing shocks and then acting upon those to redistribute assets This book will examine how leading firms that compete on risk have done this and showcase best practices and impacts to the capital structure of firms and their organizational formation
