The Making of Visual News Thierry Gervais, Gaëlle Morel, 2020-09-23 The Making of Visual News sets out to show how photography has changed the way we read report and sell the news It investigates how photographs first became news images at the end of the nineteenth century and how magazines in the USA the UK France and Germany have put them to use ever since Drawing on a wide selection of images author Thierry Gervais in collaboration with Gaëlle Morel analyses news photographs in the context of their original presentation in print Highly illustrated the book contains 85 full colour magazine layouts and spreads offering the reader a view of how photographs were and are used in print publications including Life Picture Post the Berliner Illustrierte Zeitung and VU It examines how photographs were employed to attract new readers throughout the twentieth century arguing that photography was the main tool by which news editors sought to communicate the news and attract a broader readership Looking beyond the roles of photographer and journalist this study also highlights the contributions of picture editors and artistic directors by commissioning photographs and incorporating images into magazine layouts these figures played critical but often overlooked roles in the construction of visual news even as they crafted unique styles for their publications Charting changes in technology and reportage as well as broader social and political histories The Making of Visual News offers new insight into the history of photojournalism making this an essential resource for students and scholars of photojournalism and the history of photography media and culture

History of Photography Laurent Roossens, 1994 **Robert Lebeck, Fotoreportagen** Karl Steinorth, 1993 **Photohistorica**, 1990 **Foto/montáž tiskem** Jindřich Toman, 2009 Photomontage was pioneered as a technique in central Europe in the 1910s where it flourished as an art form through the end of World War II While German artists such as John Heartfield Max Ernst and Hannah Höch used the medium to respond to the atrocities of war other areas of Europe were simultaneously experiencing a newfound political autonomy as the Austro-Hungarian Empire collapsed For these artists namely Polish and Czech photomontage manifested itself in a Surrealist approach to cut and paste imagery that emphasized its potential for visual poetry Photo Montage in Print traces the explosion of photomontage art in book cover design and illustrated magazines in the interwar period Documenting the remarkable contributions of Czech artists in the

creation of the visual language of modern print media the publication includes some of the leading artists of the Czech avant garde such as Karel Teige Jindrich Styrsky Toyen Ladislav Sutnar and Frantisek Muzika Photographic Literacy Katherine M. H. Reischl, 2018-12-15 Photography introduced to Russia in 1839 was nothing short of a sensation Its rapid proliferation challenged the other arts including painting and literature as well as the very integrity of the self If Leo Tolstoy and Fyodor Dostoevsky greeted the camera with skepticism in the nineteenth century numerous twentieth century authors welcomed it with a warm embrace As Katherine M H Reischl shows in *Photographic Literacy* authors as varied as Leonid Andreev Ilya Ehrenburg and Alexander Solzhenitsyn picked up the camera and reshaped not only their writing practices but also the sphere of literacy itself For these authors a single photograph or a photograph as illustration is never an endpoint their authorial practices continually transform and animate the frozen moment But just as authors used images to shape the reception of their work and selves Russian photographers including Sergei Prokudin Gorsky and Alexander Rodchenko used text to shape the reception of their visual work From the diary to print the literary word imbues that photographic moment with a personal life story and frames and reframes it in the writing of history In this primer on photographic literacy Reischl argues for the central place that photography has played in the formation of the Russian literary imagination over the course of roughly seventy years From image to text and back again she traces the visual consciousness of modern Russian literature as captured through the lens of the Russian author photographer *Political Censorship of the Visual Arts in Nineteenth-Century Europe* Robert Justin Goldstein, Andrew M. Nedd, 2015-09-01 In this comprehensive account of censorship of the visual arts in nineteenth century Europe when imagery was accessible to the illiterate in ways that print was not specialists in the history of the major European countries trace the use of censorship by the authorities to implement their fears of the visual arts from caricature to cinema **Photography and Doubt** Sabine T. Kriebel, Andrés Mario Zervigón, 2016-11-25 Recent decades have seen photography's privileged relationship to the real come under question Spurred by the postmodern critique of photography in the 1980s and the rise of digital technologies soon thereafter scholars have been asking who and what built this understanding of the medium in the first place *Photography and Doubt* reflects on this interest in photography's referential power by discussing it in rigorously historical terms How was the understanding of photographic realism cultivated in the first place What do cases of staged and manipulated photography reveal about that realism's hold on audiences across the medium's history Have doubts about photography's testimonial power stimulated as much knowledge as its realism Edited by Sabine T Kriebel and Andrés Mario Zervigón *Photography and Doubt* is the first multi-authored collection specifically designed to explore these questions Its 13 original essays illustrated with 73 color images explore cases when the link between the photographic image and its referent was placed under stress and when photography was as attuned to its myth-making capabilities as to its claims to authenticity *Photography and Doubt* will serve as a valuable resource for students and scholars in art history visual and media studies philosophy and the history of science

Magazines and Modern Identities Tim Satterthwaite, Andrew Thacker, 2023-09-21 In the late nineteenth and early twentieth century ideals of technological progress and mass consumerism shaped the print cultures of countries across the globe. Magazines in Europe, the USA, Latin America and Asia inflected a shared internationalism and technological optimism. But there were equally powerful countervailing influences of patriotic or insurgent nationalism and of traditionalism that promoted cultural differentiation. In their editorials, images and advertisements, magazines embodied the tensions between these domestic imperatives and the forces of global modernity. *Magazines and Modern Identities* explores how these tensions played out in the magazine cultures of ten different countries, describing how publications drew on, resisted and informed the ideals and visual forms of global modernism. Chapters take in the magazines of Australia, Europe and North America as well as China, the Soviet Union, Turkey and Mexico. With contributions from leading international scholars, the book considers the pioneering developments in European and North American periodicals in the modernist period whilst expanding the field of enquiry to take in the vibrant magazine cultures of east Asia and Latin America. The construction of these magazines, modern ideals, was a complex dialectical process in dialogue with international modernism but equally responsive to their local cultures and the beliefs and expectations of their readers. *Magazines and Modern Identities* captures the diversity of these ideals in periodicals that both embraced and criticised the globalised culture of the technological era.

Pressefotografie in der Krise? Thomas Ryser Guggenheimer, 2021-11-22 Durch Änderungen in der Medienlandschaft in den Vertriebskanälen oder auch in der Fototechnik schien die Pressefotografie in der zweiten Hälfte des 20. Jahrhunderts in eine Krise geraten zu sein. Die einmalige, da archivalisch stringente Berichterstattungssituation des Pressebildes könnte eine beispielhafte Untersuchung für den Umgang eines Pressebildes mit den Entwicklungen Schriftquellen sowie Objekte erlauben eine gründliche Analyse der Forschungsfelder Unternehmen, Markt und Produkt. Zugleich erhellen sie Aspekte der Foto-Technik und Lokalgeschichte der Betriebswirtschaftslehre sowie der Publizistik und Medienwissenschaft.

Getting the Picture Jason E. Hill, Vanessa R. Schwartz, 2020-09-08 Powerful and often controversial news pictures promise to make the world at once immediate and knowable. Yet while many great writers and thinkers have evaluated photographs of atrocity and crisis, few have sought to set these images in a broader context by defining the rich and diverse history of news pictures in their many forms. For the first time, this volume defines what counts as a news picture, how pictures are selected and distributed, where they are seen, and how we critique and value them. Presenting the best new thinking on this fascinating topic, this book considers the news picture over time, from the dawn of the illustrated press in the nineteenth century through photojournalism's heyday and the rise of broadcast news and newsreels in the twentieth century and into today's digital platforms. It examines the many kinds

of images sport fashion society celebrity war catastrophe and exoticism and many mediums including photography painting wood engraving film and video Packed with the best research and full colour illustrations throughout this book will appeal to students and readers interested in how news and history are key sources of our rich visual culture Hitlers Fotograf Christina Irrgang, 2020-09-03 Propaganda Bilddende waren ein konstitutiver Teil der nationalsozialistischen Bildpolitik die maßgeblich von einem Mann beeinflusst wurde Heinrich Hoffmann Der Fotografie Unternehmer vermarktete weltweit nationalsozialistische Bilder mit Adolf Hitler als wiederkehrendem wenn auch nicht alleinigem Motiv Christina Irrgangs Medienanalyse unterzieht seine zugrunde liegende Bildstrategie einer kritischen Revision und deckt an ausgewählten Beispielen Mechanismen auf die noch heute Wirksamkeit erfahren Damit entfacht sie einen vernachlässigten Diskurs neu und erweitert ihn um eine fototheoretische Perspektive **Storytelling** Annika Schach, 2017-08-16 Dieses Buch beleuchtet das Trendthema Storytelling aus unterschiedlichen Perspektiven von der narrativen Reportage im Journalismus über Story Elemente in der Fotografie der Mode und im Produktdesign dem inszenierten Erlebnis in der digitalen Welt bis hin zum strategischen Einsatz von Corporate Storys in der externen und internen Unternehmenskommunikation Die Arbeit mit Geschichten in der Kommunikation ist zwar nicht neu der strategische Einsatz zur Vermittlung von bestimmten Inhalten und Botschaften das Storytelling beschäftigt jedoch aktuell diverse Disziplinen Die Auseinandersetzung mit dieser Technik ist bereits vom Kern her interdisziplinär denn Geschichten können in Text Bild Ton oder im Film erzählt werden So umfangreich die praxisbezogene Beschäftigung mit dem Themenbereich ist so spärlich ist der bisher bergreifende Diskurs durch den Erkenntnisse aus den unterschiedlichen Disziplinen zusammengeführt kontrastiert und gewinnbringend diskutiert werden können Diese Lücke schließt dieses Buch
