fundamentally the course of twentieth century art It had far reaching effects both conceptual and stylistic which are still
being felt today Described in 1912 by French poet and commentator Guillaume Apollinaire as not an art of imitation but an
art of conception Cubism irreversibly altered art s relationship to visual reality I paint things as I think them not as I see
them Picasso said Cubism and Australian Art examines for the first time the impact of this transformative art movement on
the work of Australian artists from the early 1920s to the present day The authors argue that by its very nature Cubism was
characterised by variation and change that the idea of a pure or original Cubism was short lived and that its appearance in
Australian art parallels its uptake and re interpretation by artists internationally In the words of French artist Andr Lhote

are a thousand painters practising it More than eighty international and Australian artists are showcased with over 300
