Sensible Life:

A Sensible Life Mary Wesley, 2013-11-12 This engaging and memorable novel set in post WWI England and France takes a wise witty look at love growing up and class differences Publishers Weekly For the British families who vacation there the shore town of Dinard France is a getaway from the ills of modern life But when Flora Trevelyan visits with her self absorbed parents in 1926 it s not an escape she finds instead it s a doorway into a different world a different life that she never knew existed As the years pass Flora embarks on a journey of discovery from falling for three very different young men to understanding the follies of an upper class society of which she will never quite be a part to uncovering the difference between true friends and fair weather companions Along the way her own life and those of her new acquaintances will be upended and as the shadows of World War II fall over Europe Flora will have to decide what kind of person she wants to be and whether being sensible makes sense Praised by the Daily Telegraph as delicious Mary Wesley s sharply humorous coming of age story weaves a tale of an unloved neglected child who turns into a fiercely independent woman both an entertaining romp and an astute glimpse into British society between the two World Wars **Barbarism** Michel

Henry, 2012-06-28 *Barbarism* represents a critique from the perspective of Michel Henry s unique philosophy of life of the increasing potential of science and technology to destroy the roots of culture and the value of the individual human being For Henry barbarism is the result of a devaluation of human life and culture that can be traced back to the spread of quantification the scientific method and technology over all aspects of modern life The book develops a compelling critique of capitalism technology and education and provides a powerful insight into the political implications of Henry s work It also opens up a new dialogue with other influential cultural critics such as Marx Husserl and Heidegger First published in French in 1987 *Barbarism* aroused great interest as well as virulent criticism Today the book reveals what for Henry is a cruel reality the tragic feeling of powerlessness experienced by the cultured person Above all he argues for the importance of returning to philosophy in order to analyse the root causes of barbarism in our world Raw Feeling Robert Kirk, 1994 Robert Kirk

perspectives on the possibility of a philosophical outlook that combines Marxism and phenomenology in the critique of capitalism Although Marxism s focus on impersonal social structures and phenomenology s concern with lived experience can make these traditions appear conceptually incompatible the potential critical force of a theoretical reconciliation inspired several attempts in the twentieth century to articulate a phenomenological Marxism Updating and extending this approach the contributors to this volume identify and develop new and previously overlooked connections between the traditions offering new perspectives on Marx Husserl and Heidegger exploring themes such as alienation reification and ecology and examining the intersection of Marxism and phenomenology in figures such as Michel Henry Walter Benjamin and Frantz Fanon These glimpses of a productive reconciliation of the respective strengths of phenomenology and Marxism offer promising possibilities for illuminating and resolving the increasingly intense social crises of capitalism in the twenty first century

Entranced by Story Hugh Crago,2014-04-24 We live in a world of stories yet few of us pause to ask what stories actually are why we consume them so avidly and what they do for story makers and their audiences This book focuses on the experiences that good stories generate feelings of purposeful involvement elevation temporary loss of self vicarious emotion and relief of tension The author examines what drives writers to create stories and why readers fall under their spell why some children grow up to be writers and how the capacity for creating and comprehending stories develops from infancy right through into old age Entranced by Story applies recent research on brain function to literary examples ranging from the Iliad and Wuthering Heights to Harold and the Purple Crayon providing a groundbreaking exploration of the biological and neurological basis of the literary experience Blending research theory and biographical anecdote the author shows how it is the unique structure of the human brain with its layering of sophisticated cognitive capacities upon archaic emotion driven functions which best explains the mystery of story
