## **Mozote Massacre Anthropology And Human Rights:**

**The El Mozote Massacre** Leigh Binford,1996 Through fieldwork among the surprisingly numerous survivors the author reconstructs the recent social structure culture and history of the northeastern Salvadoran village of Segundo Montes before during and after the infamous massacre She tries to place anthropology squarely into political issues but also focuses on the people's oral testimonies more than on her own ethnography especially resisting the easy total categorization of the survivors as victims *Handbook of Latin American Studies* v 57 *The El Mozote Massacre* Leigh Binford,2016-03-03 This book brings a fresh perspective on what may be the largest massacre in modern Latin American history Many new additions are included such as data from half a dozen field trips discussions of reconstruction and the fight for justice and the relation of the massacre to the region Provided by publisher **Forensic Archaeology and Human Rights Violations** Roxana

Ferlini,2007 Forensic archaeology has become a paramount tool with regard to the investigation of human rights abuses in recent times by utilizing field techniques that provide a scientific means of searching locating and recovering the victims of human rights abuses By applying such techniques human remains may be positively identified thereby assisting survivors who are then able to lay their dead to rest and begin a process of closure after such tragic events have occurred Additionally the circumstances of the victim's demise will be accurately recorded and in course this information will be duly presented in scientific terms to legal enforcing bodies such as international criminal tribunals and domestic criminal courts This book is unique in that it offers the reader a variety of topics and perspectives within one volume from contributors from across the globe coming from a variety of diverse disciplines and experiences covering a broad spectrum that encompasses human rights investigations It will also serve as a reference source for governmental agencies that are involved in conducting human rights investigations at various levels including the provision of effective military assistance to those working in the field Non governmental organizations involved in human rights investigations will also find it to be an excellent reference that may be utilized in order for them to more effectively provide assistance in the areas of psychological social health and humanitarian assistance in zones where civilians have been killed on a large scale The book will be of interest to professionals in the fields of forensic pathology international law sociology cultural anthropology political science and biological sciences **The**

**Memorialization of Genocide** Simone Gigliotti,2017-10-02 Divided societies tormented pasts and unrepentant perpetrators Why are some countries more intent on vanquishing uncomfortable pasts than others How do public and often unsightly attempts at memorialisation both fail the victims and valorize their oppressors This book offers fresh and original perspectives on dictatorship fascism and victimization from the bloodiest decades in Europe's Australia's and Central America's colonial and modern history Chapters include analyses of Francoist memorials in Spain assessments of the El Mozote massacre in El Salvador the forgetting of frontier colonial violence in Tasmania Romania's treatment of its Roma populations in the midst of Holocaust memorialisation in Bucharest's urban development and whether or not the Holocaust

continues to serve as an instructional model or impossible aspiration for cross cultural genocide memorialisation strategies In an era of ongoing political ethnic and religious conflict and unrepentant insurgent activity around the world this collection reminds readers that genocidal actions wherever and whenever they occurred must be held to account by more than rhetoric and concrete memory This book was originally published as a special issue of the Journal of Genocide Research **The El Mozote Massacre** Leigh Binford,1996 The 1981 slaughter of more than a thousand civilians around El Mozote El Salvador by the country's U S trained army was the largest massacre of the Salvadoran civil war The story was covered and soon forgotten by the international news media It was revived in 1993 only when the U S government was accused of covering up the incident Such reportage argues anthropologist Leigh Binford sustains the perception that the lives of Third World people are only newsworthy when some great tragedy strikes He critiques the practices of journalists and human rights organizations for their dehumanizing studies of subjects and victims Binford suggests that such accounts objectify the people involved through statistical analyses and bureaucratic body counts while the news media sensationalize the motives and personalities of the perpetrators In relating the story of this tragic event Binford restores a sense of history and social identity to the fallen people of this Salvadoran village Drawing on interviews he conducted with El Mozote area residents he offers a rich ethnographic and personal account of their lives prior to the tragedy He provides an overview of the history and culture of the area and tells how such a massacre could have happened why it was covered up and why it could happen again

*Discrimination and Toleration* Kirsten Hastrup,George Ulrich,2021-10-25 Discrimination on the basis of race gender or other ascribed group affiliations or individual identities is an all too well known phenomenon International instruments are invoked and refined to alter this situation but often to little avail In the present volume authors from across the globe explore the nature and forms of discrimination and seek to establish a new conceptual ground for addressing the issue Toleration is often advocated as a remedy for discriminatory practices In contrast to tolerance which is seen as an attitude toleration implies an active engaging of difference In this volume several authors address the inherent complexities of the notion itself not least the implication of asymmetry between the tolerant and the tolerated A central theme throughout the volume is the relative force of law and other areas of public concern in addressing the issues of both discrimination and toleration From a wide range of legal literary anthropological and philosophical perspectives the authors also show how the role of the intellectual is vital in reshaping the discourse and in redirecting practices that may affirm the equal worth of all humans

*The Anthropology of Latin America and the Caribbean* Harry Sanabria,2015-09-16 The first single authored comprehensive introduction to major contemporary research trends issues and debates on the anthropology of Latin America and the Caribbean The text provides wide and historically informed coverage of key facets of Latin American and Caribbean societies and their cultural and historical development as well as the roles of power and inequality Cymeme Howe Visiting Assistant Professor of Cornell University writes The text moves well and builds over time paying close attention to balancing

both the Caribbean and Latin America as geographic regions Spanish and non Spanish speaking countries and historical and contemporary issues in the field I found the geographic breadth to be especially impressive Jeffrey W Mantz of California State University Stanislaus notes that the contents reflect the insights of an anthropologist who knows Latin America intimately and extensively

**From Popular to Insurgent Intellectuals** Leigh Binford, 2022-12-09 From Popular to Insurgent Intellectuals explains how a group of Catholic lay catechists educated in liberation theology came to take up arms and participate on the side of the rebel FMLN during El Salvador's revolutionary war 1980-92 In the process they became transformed from popular intellectuals to insurgent intellectuals who put their organizational and cognitive skills at the service of a collective effort to create a more egalitarian and democratic society The book highlights the key roles that peasant catechists in northern Morazan played in disseminating liberation theology before the war and supporting the FMLN during it as quartermasters political activists and musicians among other roles Throughout From Popular to Insurgent Intellectuals highlights the dialectical nature of relations between Catholic priests and urban revolutionaries among others in which the latter learned from the former and vice versa Peasant catechists proved capable at making independent decisions based on assessment of their needs and did not simply follow the dictates of those with superior authority and played an important role for the duration of the twelve year military conflict

**Fear as a Way of Life** Linda Green, 1999 This text traces the links between the political violence and repression in the late 20th century and long term systemic violence connected with class inequalities and gender and ethnic oppression It addresses the social responsibilities inherent in the practice of anthropology
