Mr Americas Last Season Blues:

The Lever of Riches Joel Mokyr, 1992-04-09 In a world of supercomputers genetic engineering and fiber optics technological creativity is ever more the key to economic success But why are some nations more creative than others and why do some highly innovative societies such as ancient China or Britain in the industrial revolution pass into stagnation Beginning with a fascinating concise history of technological progress Mokyr sets the background for his analysis by tracing the major inventions and innovations that have transformed society since ancient Greece and Rome What emerges from this survey is often surprising the classical world for instance was largely barren of new technology the relatively backward society of medieval Europe bristled with inventions and the period between the Reformation and the Industrial Revolution was one of slow and unspectacular progress in technology despite the tumultuous developments associated with the Voyages of Discovery and the Scientific Revolution What were the causes of technological creativity Mokyr distinguishes between the relationship of inventors and their physical environment which determined their willingness to challenge nature and the social environment which determined the openness to new ideas He discusses a long list of such factors showing how they interact to help or hinder a nation s creativity and then illustrates them by a number of detailed comparative studies examining the differences between Europe and China between classical antiquity and medieval Europe and between Britain and the rest of Europe during the industrial revolution He examines such aspects as the role of the state the Chinese gave up a millennium wide lead in shipping to the Europeans for example when an Emperor banned large ocean going vessels the impact of science as well as religion politics and even nutrition He questions the importance of such commonly cited factors as the spill over benefits of war the abundance of natural resources life expectancy and labor costs Today an ever greater number of industrial economies are competing in the global market locked in a struggle that revolves around technological ingenuity *The Lever of Riches* with its keen analysis derived from a sweeping survey of creativity throughout history offers telling insights into the question of how Western economies can maintain and developing nations can unlock their creative potential

The Healer's Heart Diane Komp, 2010-03-24 A contemporary look at the spiritual journey of a doctor named Luke that thoughtfully brings the Gospel physician into our 21st century world If you have no cause worth dying for do you have a reason to live While sorting through family papers following his father s massive stroke Dr Luke Tayspill Yale Medical School s top infectious disease specialist stumbles across a manuscript written decades earlier by his beloved grandfather The book bears an ominous title *The Deaths of Lukas Tayspill* not death but deaths A closer inspection reveals that the book is about three characters with the same name The first two Lucas Tayspills were 19th century Quakers who suffered martyrs deaths The third story set in the future ends abruptly with the arrival of a Dr Lucas Tayspill in a plague ridden war torn African land Was his grandfather foretelling Luke s own life story and prophesying his death Luke sets out on a deeply personal journey to Sierra Leone But his pilgrimage to understand death leads to a powerful and unexpected encounter with

the essence of life Will Luke fulfill his grandfather's vision The Black Chicago Renaissance Darlene Clark Hine, John McCluskey, 2012-06-25 The New Negro consciousness with its roots in the generation born in the last and opening decades of the 19th and 20th centuries replenished and nurtured by migration resulted in the Harlem Renaissance in the 1920s then reemerged transformed in the 1930s as the Black Chicago Renaissance The authors in this volume argue that beginning in the 1930s and lasting into the 1950s Black Chicago experienced a cultural renaissance that rivaled the cultural outpouring in Harlem The Black Chicago Renaissance however has not received its full due This book addresses that neglect Like Harlem Chicago had become a major destination for black southern migrants Unlike Harlem it was also an urban industrial center that gave a unique working class and internationalist perspective to the cultural work that took place here The contributors to Black Chicago Renaissance analyze a prolific period of African American creativity in music performance art social science scholarship and visual and literary artistic expression Each author discusses forces that distinguished and link the Black Chicago Renaissance to the Harlem Renaissance as well as placing the development of black culture in a national and international context by probing the histories of multiple sequential and overlapping Philadelphia Cleveland Detroit Los Angeles Memphis black renaissances Among the topics discussed in this volume are Chicago writers Gwendolyn Brooks and Richard Wright The Chicago Defender and Tivoli Theater African American music and visual arts as well as the American Negro Exposition of 1940 **Black Men Speaking** Charles Johnson, John McCluskey, 1997 Representative American black men discuss race racism and values **The City of Refuge [New and Expanded Edition]** Rudolph Fisher, 2008-11-03 One of the premier writers of the Harlem Renaissance Rudolph Fisher wrote short stories depicting the multifaceted black urban experience that are still acclaimed today for their humor grace and objective view of Harlem life Through his words wrote the New York Times Book Review one feels smells and tastes his Harlem its people come alive and one cares about them A definitive collection of Fisher's short stories The City of Refuge offers vibrant tales that deal with the problems faced by newcomers to the city ancestor figures who struggle to instill a sense of integrity in the young problems of violence and vengeance and tensions of caste and class This anthology has now been expanded to include seven previously unpublished stories that take up such themes as marital infidelity and passing for black and also relate the further adventures of Jinx and Bubber the comic duo who appeared in Fisher's two novels This new edition also includes two unpublished speeches and the popular article The Caucasian Storms Harlem describing the craze for black music and dance John McCluskey's introduction has been updated to place the additional works within the context of Fisher's career while situating his oeuvre within the broader context of American writing during the twenties Fisher recognized the dramatic and comic power in African American folklore and music and frequented Harlem's many cabarets speakeasies and nightclubs and at the core of his work is a strong regard for music as context and counterpoint The City of Refuge now better captures the sounds of the city experience by presenting all of Fisher's known stories It offers a portrait of Harlem unmatched in depth and range by Fisher

s contemporaries or successors celebrating as Booklist noted the complexity of black urban life in its encounter with the dangers and delights of the city This expanded edition adds new perspectives to that experience and will enhance Fisher's status for a new generation of readers
