Historical Dictionary of the People's Republic of China Lawrence R. Sullivan, 2016-08-03 When the Chinese Communist Party CCP assumed power in October 1949 China was one of the poorest nations in the world and so weak it had been conquered in the late 1930s and early 1940s by its neighbor Japan a country one 10th its size More than five decades later the People's Republic of China PRC is an emerging economic political and major military power with the world's fastest growing economy and largest population 1.35 billion in 2015 A member of the United Nations Security Council since the early 1970s and a nuclear power China wields enormous influence in the world community while at home what was once a nation of largely poverty stricken peasants and urban areas with little to no industry has been transformed into an increasingly urbanized society with a growing middle class and an industrial and service sector that leads the world in such industries as steel and textiles while becoming a major player in computers and telecommunications All the while the country has remained under the tight political control of a one party system dominated by the Chinese Communist Party that despite periods of intense political conflict and turmoil governs China with a membership in 2014 of 88 million people the largest single organization on earth This third edition of *Historical Dictionary of the People's Republic of China* contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about China

Xenotropism and the Awakening of Literary Expatriatism through Writing Memoirs Christine Velde, 2016-08-03 Although there have been many discussions about challenges faced by individuals going through East to West migrations there are few literary accounts about those moving from the West to the East Yet these migrations are becoming more frequent now due to advances in technology and the fact that a writer's work can now involve an increasingly global audience One way of expressing these challenges is through writing memoirs *Xenotropism and the Awakening of Literary Expatriatism through Writing Memoirs* exemplifies the craft of memoirs written while living in a foreign country and explains how this is different from writing from home The book is a theoretical analysis of xenotropism based on the work of three prominent writers in China's history Emily Hahn Nien Cheng and Qiu Xiaolong The author explores the relationship between xenotropism turning towards foreign ideals and practices its complexities and challenges and the writing of a memoir and its impact on mental health This discourse will contribute to new knowledge in the field of creative writing and Asian studies by illustrating how xenotropism or turning towards foreign ideals and practices results in both personal and artistic development and builds an understanding and acceptance of different cultures within an individual These processes of

change and understanding in turn facilitate the writing of a memoir which is a cathartic process having a positive effect on one's mental state. Readers interested in creative writing or Asian literary studies will be able to understand the creative process behind writing memoirs from a combination of personal research based literary and theoretical perspectives.
