Things to Do With a Mud Pie Jane Wilsher,2024-09-03 21 Things to Do With a Mud Pie is a fun activity book that invites kids to get into nature and get muddy through a range of unique crafts arts and games The Nonexistent Anthony Everett,2013-08-29 Anthony Everett defends the commonsense view that there are no such things as fictional people places and things More precisely he develops and defends a pretense theoretic account on which there are no such things as fictional objects and our talk and thought that purports to be about them takes place within the scope of a pretense Nevertheless we may mistakenly suppose there are fictional objects because we mistake the fact that certain utterances count as true within the pretense and convey veridical information about the real world for the genuine truth of those utterances In the first half of The Nonexistent an account of this form is motivated developed in detail and defended from objections The second half of the book then argues against fictional realism the view that we should accept fictional objects into our ontology First it is argued that the standard arguments offered for fictional realism all fail Then a series of problems are raised for fictional realism The upshot of these is that fictional realism provides an inadequate account of a significant range of talk and thought that purports to concern fictional objects In contrast the pretense theoretic account developed earlier provides a very straightforward and attractive account of these cases and of fictional character discourse in general Overall Everett argues that we gain little but lose much by accepting fictional realism Playing to Learn Carol Seefeldt,2001 Create meaningful experiences and engage children in learning through play Playing to Learn gives you hundreds of activities to make learning fun through games small group activities stories and more These games and activities promote learning every day of the week every week of the year Sure to become a classroom favorite Playing to Learn has everything you need to create wonderful learning experiences for young children 192 pages Carol Seefeldt is Professor Emeritus at the University of Maryland She has written 21 books and over 150 articles for teachers and parents This is her first book with Gryphon House **480 Codorus Street** Sandra L. Kearsse-Stockton,2020-10-04 I was now a nineteen year old widow with three kids Not too many people witness a murder Then return to that same home and be reminded daily about the death of the person who was shot there and later died Not just any person died there but your husband and the father of your children I am so sorry Even though it was years ago some memories never fade I cried day in and day out I
