Proceedings of the UPY-ICCCM International Conference on Education and Social Science (UPINCESS 2024) Ari Kusuma Wardana, 2024-12-29. This is an open access book. In recent decades, the world has witnessed various global crises that include climate change, pandemics, social inequality, economic instability, and conflict. These crises not only pose great challenges to governments and the private sector but also to the global community as a whole. This situation calls for a comprehensive and multidisciplinary approach to find sustainable solutions. Education plays a central role in equipping young people with the knowledge, skills, and values needed to address these global challenges. Through inclusive and quality education, individuals can be developed into innovative and responsible leaders ready to contribute to their society and environment. Education also plays an important role in raising awareness about global issues and promoting international co-operation. On the other hand, social sciences offer critical insights into the social, economic, and political dynamics underlying the global crisis. Research in the social sciences can uncover the root causes of inequality, conflict, and environmental degradation and identify effective interventions to address these problems. Social science also helps in understanding how public policies can be designed and implemented to support sustainable development and community well-being. With this background, The UPY ICCCM International Conference on Education and Social Science (UPINCESS 2024) was held to bring together academics, researchers, practitioners, and policy makers from various countries to discuss, share knowledge, and collaborate in finding solutions to the global crises we face today. Thus, this conference is expected to make a real contribution in building a more just, prosperous, and sustainable world through education and social science.

and communal relations **The Road to Multiculturalism in South Korea** Timothy Lim, 2020-12-13 This book aims to capture the complicated development of Korea from monoethnic to multicultural society challenging the narrative of ethnonational continuity in Korea through a discursive institutional approach At a time when immigration is changing the face of South Korea and an increasingly diverse society becomes empirical fact this doesn't necessarily mean that multiculturalism has been embraced as a normative policy based response to that fact The approach here diverges from existing academic analyses which tend to conclude that core institutions defining Korea's immigration and nationality regimes and which crucially also reflect a basic and hitherto unyielding commitment to racial and ethnic homogeneity will remain largely unaffected by increasing diversity Here this title underscores the critical importance of discursive agency as a necessary corrective to still dominant power and interest-based arguments In addition discursive agents are found to play a central role in communicating promoting and helping to instill the ideas that create a basis for change on the road to remaking Korean society The Road to Multiculturalism in South Korea will be of interest to students and scholars of Asian studies immigration and migration studies race and ethnic studies as well as comparative politics broadly
