Musser,1996 In recent years the flow of Christian theology has been channeled in diverse streams represented by such trends and movements as black theology liberation theology feminist theology and womanist theology To survey this abundance and diversity of current Christian theology this book examines the theologies of representative theologians Particularly to help students navigate the sea of information the editors have identified various routes for reading and have traced several threads or issues common to many of the essays thus demarcating such recurrent concerns as the ways in which the theologians consider the sources and goals for theology their variant assumptions and conclusions about the nature of God their divergent approaches to understanding the person and purpose of the Christ and their distinct expectations for the destiny of history and faith **Religious Books and Serials in Print, 1980-1981** ,1980

Critical Faith Ronald A. Kuipers, 2021-11-15 Can religious faith be critical and remain recognizable as faith Or is the idea of a critical faith a contradiction in terms In this book an emerging new voice in the philosophy of religion argues in favor of critical faith Playing on a double meaning of the word critical the title of the book suggests that faith is not only a critical crucial component of human life but also a component that can and should develop in a critical intellectually vigilant way Taking John Locke's reflections on the relationship between faith and reason as his point of departure the author weaves his discussion around a wide array of intellectual figures and conversations In addition to addressing important elements in the work of such historical figures as Aquinas and Locke Kuipers also incorporates themes from recent discussions in the philosophy of science feminist epistemology philosophy of language liberal theology and critical theory The book ends with a

discussion of elements in Jurgen Habermas's theory of communicative action and offers a critical assessment of the merit of Habermas's notion of critical rationality as a normative yardstick for the achievement of a critical faith The Christian Century, 1922 The Spectre Of Hegel Louis Althusser, 2014-01-07 Louis Althusser is remembered today as the scourge of humanist Marxism but that was his later incarnation an identity formed by years grappling with the intellectual inheritance of Hegel and Catholicism The Spectre of Hegel collects the writings of the young Althusser before his final epistemological break with the philosopher's work in 1953 Including his famed essay Ideology and Ideological State Apparatuses The Spectre of Hegel gives a unique insight into Althusser's engagement with a philosophy he would later renounce
