Campbell, 2015-01-26 A major contribution to the history of nationality religious identity and governance in late imperial Russia William G Rosenberg coauthor of *Processing the Past* From the time of the Crimean War through the fall of the Tsar the question of what to do about the Russian empire s large Muslim population was a highly contested issue among educated Russians both inside and outside the government As formulated in the nineteenth and early twentieth centuries the Muslim Question comprised a complex set of ideas and concerns that centered on the problems of reimagining and governing the tremendously diverse Russian empire in the face of the challenges presented by the modernizing world Basing her analysis on extensive research in archival and primary sources Elena I Campbell reconstructs the issues debates and personalities that shaped the development of Russian policies toward the empire s Muslims and the impact of the Muslim Question on the modernizing path that Russia would follow Readable original and endlessly interesting Campbell s book deserves the very highest praise *Journal of Islamic Studies* Campbell s book shows how profound official Islamophobia paradoxically led to the preservation of earlier confessional structures grudging non interference with the spiritual and social life of most Muslim communities a restraining hand on the actions if not the rhetoric of Orthodox missionaries and a certain uneasy toleration *Slavonic and East European Review* A major contribution to the understanding of Russia s Muslim Question past and present Recommended Choice

*State against Civil Society* Cameron Ross, 2017-10-02 Over the period December 2011 July 2013 a tidal wave of mass protests swept through the Russian capital and engulfed scores of cities and regions These demonstrations came as a great shock to the Russian political establishment After decades of passive acceptance of the status quo it appeared that civil society was at last awakening The protests came in the wake of the Arab Spring revolts which toppled authoritarian dictators in Tunisia Egypt and Libya However by the end of 2013 the number of mass protests in Russia and their size had declined precipitously President Putin on returning to office in 2012 had quickly regained the upper hand over the protestors This book examines the reasons for the rise and fall of the

mass protests in the Russian Federation Internationally renowned experts in the field of Russian politics from Russia and the UK provide important new insights into the nature of the mass opposition movement the non systemic opposition its strengths and its weaknesses A key novel aspect of the study is its focus on the national and regional dimensions of the protest movement and its class and ethnic dimensions This book was published as a special issue of Europe Asia Studies

*Polish Encounters, Russian Identity* David L. Ransel, Bozena Shallcross, 2005-06-15 At a time when Poland is emphasizing its distance from Russia *Polish Encounters Russian Identity* points to the historical ties and mutual influences of these two great Slavic peoples Whether Poland adopted a hostile or a friendly stance toward Russia the intense responses of Russian thinkers writers and political leaders to Poland and to Polish culture shaped Russians idea of themselves and their place in the world Countering the recent trend to deny the rich interactions between Russia and Poland this collection reminds readers that these longstanding if often difficult contacts constitute an important and enduring element in the consciousness of the peoples of both countries The contributors are Manon de Courten Megan Dixon Halina Goldberg Leonid Efremovich Gorizontov Irina Grudzinska Beth Holmgren Judith Deutsch Kornblatt Matthew Pauly Nina Perlina Robert Przygodski David L Ransel Bozena Shallcross Barbara Skinner and Andrzej Walicki *The Politics of Sub-National Authoritarianism in Russia* Cameron Ross, 2016-02-24 By the end of the 2000s Russia had become an increasingly authoritarian state which was characterised by the following features outrageously unfair and fraudulent elections the existence of weak and impotent political parties a heavily censored often self censored media weak rubber stamping legislatures at the national and sub national levels politically subordinated courts the arbitrary use of the economic powers of the state and widespread corruption However this picture would be incomplete without taking into account the sub national dimension of these subversive institutions and practices across the regions of the Russian Federation After the collapse of the Soviet Union sub national political developments in Russia became highly diversified and the political map of Russia s regions became multi faceted The period of 2000s demonstrated a drive on the part of the Kremlin to re centralise politics and governance to the demise of newly emerging democratic institutions at both the national and sub national levels Yet federalism and regionalism remain key elements of the research agenda in Russian politics and the overall political map of Russia s regions is far from being monotonic Rather it is similar to a complex multi piece puzzle which can only be put together through skilful crafting The 12 chapters in this collection are oriented towards the generation of more theoretically and empirically solid inferences and provide critical evaluations of the multiple deficiencies in Russia s sub national authoritarianism including principal agent problems in the relations between the layers of the power vertical unresolved issues of regime legitimacy that have resulted from manipulative electoral practices and the inefficient performance of regional and local governments The volume brings together a team of international experts on Russian regional politics which includes top scholars from Britain Canada Russia and the USA *Russian Empire* Jane Burbank, Mark von Hagen, A. V. Remnev, 2007-08-08 Perspectives on the

strategies of imperial rule pursued by rulers officials scholars and subjects of the Russian empire This book explores the connections between Russia s expansion over vast territories occupied by people of many ethnicities religions and political experiences and the evolution of imperial administration and vision      **Kars Province under Russian Rule** Candan Badem,2025-06-06 This book analyses the borderland province oblast of Kars under Russian imperial rule from 1878 to 1918 It is a study of imperial expansion inter imperial rivalry colonization legal and administrative pluralism nation building and state building Based on archival work in the state archives of Turkey Ottoman archives Russia Georgia Armenia and Azerbaijan the author develops a more balanced understanding of the multiple dynamics in play This book provides an accurate and reliable account of the history of Russian rule in the Kars province It is an important case study of the technologies of imperialism the way one empire conquers a part of another empire and attempts to integrate that province into its empire Correcting the distorted and often false histories of nationalist historians this book will be of interest to historians of Russia and the Ottoman Empire borderland studies and the history of the South Caucasus      *Spaces and Places in Central and Eastern Europe* Gyula Horváth,2014-08-21 Across Europe there is a rapidly changing context for undertaking regional development In the 20th century development of the former planned economies Bulgaria Czech Republic Hungary Poland Romania and Slovakia was defined by these countries differences rather than their common ideological roots These disparities altered over time and were marked by changing social structures However the ranking of regions has remained the same as core areas have strengthened their positions while the structural obstacles to the modernisation of peripheral areas have remained due to a lack of coherent regional policy This book examines the specific regional development paths of Central and Eastern European countries and evaluates the effects of the determining factors of this process Through analysis of the system of objectives instruments and institutions used in different eras and case studies of Hungary East Germany and Germany development models are established and compared with Western European patterns The book summarises the experiences of Central and Eastern European regional cooperation and examines the basic nature of the cohesion problems of the Carpathian Basin trans national macro region It confirms by comparative historical analyses that the transformation was indeed unique This book will make a welcome addition to the literature for students and academics interested in the broader picture of Central and Eastern European politics future integration within the European Union and the history of regional development processes      Asiatic Russia Tomohiko Uyama,2012-03-12 Although the Russian Empire has traditionally been viewed as a European borderland most of its territory was actually situated in Asia Imperial power was huge but often suffered from a lack of enough information and resources to rule its culturally diverse subjects and asymmetric relations between state and society combined with flexible strategies of local actors sometimes produced unexpected results In Asiatic Russia an international team of scholars explores the interactions between power and people in Central Asia Siberia the Volga Urals and the Caucasus from the 18th to the early 20th centuries drawing on a wealth of

Russian archival materials and Turkic Persian and Tibetan sources The variety of topics discussed in the book includes the Russian idea of a civilizing mission the system of governor generalships imperial geography and demography roles of Muslim and Buddhist networks in imperial rule and foreign policy social change in the Russian Protectorate of Bukhara Muslim reformist and national movements The book is essential reading for students and scholars of Russian Central Eurasian and comparative imperial history as well as imperial and colonial studies and nationalism studies It may also provide some hints for understanding today's world where empire has again become a key word in international and domestic power relations
