Raging Hunger:

At the Mind's Limits Jean Améry, 2009-03-23 This searing memoir of the author's concentration camp experience is the autobiography of an extraordinarily acute conscience Newsweek Whoever has succumbed to torture can no longer feel at home in the world *At the Mind's Limits* is the story of one man's incredible struggle to understand the reality of horror In five autobiographical essays Améry describes his survival mental moral and physical through the enormity of the Holocaust Above all this masterful record of introspection tells of a young Viennese intellectual's fervent vision of human nature and the betrayal of that vision These are pages that one reads with almost physical pain all the way to its stoic conclusion Primo Levi The testimony of a profoundly serious man In its every turn and crease it bears the marks of the true Irving Howe The New Republic

Lazarillo de Tormes Keith Whitlock, 2000-05-01 *Lazarillo de Tormes* 1554 is here offered facing the brilliant Tudor English translation of David Rowland of Anglesey 1586 Ostensibly a racy autobiography of a young rogue and his succession of masters in reality it is a comical and caustic exposé of sixteenth century Spanish society and especially the Church

Shared Sorrows Toby Sonneman, 2002-10-01 On the morning after Kristallnacht Toby Sonneman's father walked through broken glass to apply for the visa that saved him from the fate of so many during the Third Reich In examining her own family history the author discovered the similarities between the fate of the Jews and the Gypsies in the Holocaust both peoples selected on racial grounds for extermination by the Nazis She traveled with an American Gypsy survivor to Munich where she stayed with the formidable Rosa Mettbach This is the story of Rosa and other members of an extended family who survived the Holocaust *Shared Sorrows* tells the story of a Gypsy family against the backdrop of a Jewish one detailing and examining their shared sufferings under the Nazis My father brought a spool of thread with him from Germany when he came to America in 1939 And another spool of thread one in my imagination unwinds slowly and unpredictably sometimes fraying or tangling It's a thin and delicate thread that leads me to the Gypsies to the family that I meet in Germany the country of so many tangled memories and emotions And as I talk to them and I listen following the threads of their stories backwards in time to the 1930s and 40s and before their memories start to become mine as well

Originally published in 1940 this classic study of two schizophrenic case histories further opened up the seemingly intractable problem of this condition a task preceded by Jung's own *Psychology of Dementia Praecox* It was Baynes's grasp of the meaning of the symbol coupled with his wide scholarship that enable him to explore the case histories in such remarkable and fruitful depth thus linking pathological psychology through graphic expression and the dream of the myths of mankind and the universal man This was truly a scientific task In case 1 the series of dreams fantasies and active imagination fully illustrated by the patient's spontaneous paintings suggested to him a kind of mythological imagery Baynes then demonstrates the emergence and development of a hero myth together with its therapeutic effect upon the patient as an inner personal experience of death and rebirth Baynes also applied the methods of synthesis to the understanding of modern art and its reflection of the spirit of the times a realization of the basic split in the socio religious structure of European Culture In case 2 the subject was an artist and out of his own split he seemed to have created a symbolic bridge that would be a therapeutic bridge for himself and a possible model for curing the evil of the times in which we then were living A-Da.
