*Raising Your Kids Right* Michelle Ann Abate, 2010-07-14 Dr Seuss's classic character the Lorax has delighted children for decades while passing along a powerful message about environmental responsibility The book's young readers and their parents would likely be surprised by the emergence of a new character Truax a kindly logger created by a longtime employee of the wood products industry who not surprisingly has a far different viewpoint to share Yet the Truax character and the book of the same name is just one example of a growing genre of conservative themed narratives for young readers spawned by the continuing strength of the American political right Highlighting the works of William

Bennett Lynne Cheney Bill O Reilly and others Michelle Ann Abate brings together such diverse fields as cultural studies literary criticism political science childhood studies brand marketing and the cult of celebrity Raising Your Kids Right dispels lingering societal attitudes that narratives for young readers are unworthy of serious political study by examining a variety of texts that offer information ideology and even instructions on how to raise kids right not just figuratively but politically

Fundamentals of Nursing 9th Edition prepares you to succeed as a nurse by providing a solid foundation in critical thinking, evidence-based practice, nursing theory, and safe clinical care in all settings. With illustrated step-by-step guidelines, this book makes it easy to learn important skills and procedures. Care plans are presented within a nursing process framework, and case studies show how to apply concepts to nursing practice. From an expert author team led by Patricia Potter and Anne Griffin Perry, this bestselling nursing textbook helps you develop the understanding and clinical reasoning you need to provide excellent patient care. 51 skills demonstrations provide illustrated step-by-step instructions for safe nursing care and include rationales for each step. 29 procedural guidelines provide streamlined step-by-step instructions for performing basic skills. UNIQUE Critical Thinking Models in each clinical chapter show how to apply the nursing process and critical thinking to achieve successful clinical outcomes. Evidence-Based Practice chapter shows how nursing research helps in determining best practices. UNIQUE Caring for the Cancer Survivor chapter prepares nurses to care for cancer patients who may still face physical and emotional issues. Case studies include unique clinical application questions and exercises allowing you to practice using care plans and concept maps. The 5-step nursing process provides a consistent framework for care and is demonstrated in more than 20 care plans. 15 review questions in every chapter test your retention of key concepts with answers available in the book and on the Evolve companion website. Practical study tools on Evolve include video clips of skills, skills checklists, printable key points, a fluid/electrolytes tutorial, a concept map creator, an audio glossary, and more. UNIQUE Clear streamlined writing style makes complex material more approachable. More than 20 concept maps show care planning for clients with multiple nursing diagnoses. Key points and key terms in each chapter summarize important content for more efficient review and study. Unexpected Outcomes and Related Interventions for each skill alert you to potential problems and appropriate nursing actions. Delegation coverage clarifies which tasks can and cannot be delegated. A glossary provides quick access to definitions.
