**Reality-centered Learning** Hyman Ruchlis, Belle Sharefkin, 1975      *Reality-centered Learning* Hyman Ruchlis, Belle Sharefkin, 1975      Xiong Shili's Treatise on Reality and Function Shili Xiong, 2023 Xiong Shili 1885-1968 is widely recognized as a founding figure of the modern New Confucian school of philosophy and seen by many as one of the most important and creative Chinese philosophers of the twentieth century. His ultimate concern throughout his long intellectual career was to show that reality (ti) and function (yong) are non-dual. Reality is the locus that ontologically grounds the phenomenal yet is not different from the phenomenal. His ontology draws syncretically on a diverse range of resources in the Chinese philosophical tradition to construct his own overarching metaphysical vision. *Treatise on Reality and Function* (Ti yong lun) is the mature expression of Xiong's signature metaphysical doctrine and sets out his developed account of his Confucian philosophy of mind and nature. Published in 1958, Xiong considered it to be his most important philosophical achievement, but it has never before appeared in English. This annotated translation by John Makeham presents the text along with the original foreword attributed to Han Yuankai and Xiong's original preface.

A Barnette family favorite verse is Acts 3:16, "And on the basis of faith in His name, it is the name of Jesus which has strengthened this man whom you see and know, and the faith which comes through Him has given him this perfect health in the presence of you all." For ministry information, a list of upcoming events and workshops, or if you would like to order CD's, please contact Dr Barnette by mail at P.O.
