Freedom: The End of the Human Condition Jeremy Griffith, 2016-05-24 FREEDOM has its own very informative

website visit www.humancondition.com The fastest growing realization everywhere is that humanity can't go on the way it is going. Indeed the great fear is we're entering endgame where we appear to have lost the race between self destruction and self discovery the race to find the psychologically relieving understanding of our good and evil afflicted human condition. Well astonishing as it is this book by biologist Jeremy Griffith presents the 11th hour breakthrough biological explanation of the human condition necessary for the psychological rehabilitation and transformation of our species. The culmination of 40 years of studying and writing about our species psychosis FREEDOM delivers nothing less than the holy grail of insight we have needed to free ourselves from the human condition. It is in short as Professor Harry Prosen a former president of the Canadian Psychiatric Association asserts in his Introduction The book that saves the world Griffith has been able to venture right to the bottom of the dark depths of what it is to be human and return with the fully accountable true explanation of our seemingly imperfect lives. At long last we have the redeeming and thus transforming understanding of human behaviour. And with that explanation found all the other great outstanding scientific mysteries about our existence are now also able to be truthfully explained of the meaning of our existence of the origin of our unconditionally selfless moral instincts and of why we humans became conscious when other animals haven't. Yes the full story of life on Earth can finally be told and all of these incredible breakthroughs and insights are presented here in this greatest of all books **The Quest For A Just World**

Order Samuel S Kim, 2019-07-11 In response to a growing sense of dissatisfaction with the state of the world and the state of international relations research Professor Kim has taken an alternative approach to the study of contemporary world politics. Specifically he has adopted and expanded the cross cultural interdisciplinary and transnational approach developed by the World Order Models Project WOMP an enterprise committed to the realization of peace economic equality and well being social justice and ecological balance. Systemic in scope and interdisciplinary in methodology The Quest for a Just World Order explains and projects the issues patterns and trends of world politics giving special attention to the attitudinal normative behavioral and institutional problems involved in the politics of system transformation. Professor Kim also attempts to remedy a number of problematic features of traditional approaches including a value neutral orientation fragmentation and overspecialization overemphasis on national actors the superpowers and stability and the Hobbesian image of world politics. Part 1 presents a conceptual framework for developing a normative theory of world order. Each of the four chapters in Part 2 examines a specific global crisis in depth working within the framework laid out in Part 1. In Part 3 a variety of desirable and feasible transition strategies are proposed and Professor Kim assesses the prospects for achieving a just and humane world order system by the end of this century **A Treatise of Human Nature** David Hume, 1888 **International Security, Peace, Development and Environment - Volume II** Ursula Oswald Spring, 2009-08-30 International Security Peace Development and Environment is a component of Encyclopedia of Institutional and Infrastructural Resources in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty one Encyclopedias. The Theme on

International Security Peace Development and Environment deals in seven parts and two volumes with a myriad of issues of great relevance to our world such as human social gender and environmental security the transition in earth history from the holocene to the anthropocene potentially causing disasters and increasing resource scarcity limits to growth use of natural resources sustainable livelihood and productive system through technology rise of conflicts due to scarce and polluted resources and the concentration of humans in limited spaces of big cities the gender violence peace education and peace teaching as mechanisms to strengthen citizenship and to improve the understanding of cultural diversity mechanisms to strengthen the resistance against monopolist interests in the present global world and whistle blowing as a phenomenon to protect social peace and civil resistance The presentation culminates with a discussion on the means of active nonviolence to reinforce democratic behavior and to reduce tensions and violent outcomes in a complex world These two volumes are aimed at the following five major target audiences University and College students Educators Professional practitioners Research personnel and Policy analysts managers and decision makers and NGOs

Living in Transit: Youth, Nomads and Reality Sebastián Alejandro, González Montero, 2023-02-10 Living in Transit being in motion is an actual condition Movement is real Moreover it is essential because it concerns kinetic events We can insistently perceive that everything changes and moves All living beings undergo experiences revealing flows adaptations and becomings Quotidian experiences testify to that Directly or indirectly we face reality's movements all the time Atoms move Planets move Animals move Rivers move Trees move Technology moves Economy moves The State moves And people move The ontological assertion that reality is all about beings in motion has an anthropological side that must be considered We indeed live in times highly defined by movement and change As we have said everything moves It is inevitable to perceive and face movement and change For that reason it is essential to ethically assess our human role in changing living scenarios and dynamic beings
