**Hegel and Contemporary Practical Philosophy** James Gledhill,Sebastian Stein,2020-04-08 While Kantian constructivism has become one of the most influential and systematic schools of thought in analytic moral and political philosophy Hegelian approaches to practical normativity hold out the promise of building upon Kantian insights into individual self determination while avoiding their dualistic tendencies James Gledhill and Sebastian Stein unite distinguished scholars of German idealism and contemporary Anglophone practical philosophy with rising stars in the field to explore whether Hegelian idealist philosophy can offer the categories that analytic practical philosophy requires to overcome the contradictions that have so far plagued Kantian constructivism The volume organizes the contributions into three parts The first of these engages debates in metaethics regarding the relationship between realism and constructivism The second part sees contributors draw on debates about the nature of political normativity focusing primarily on the problems of historical contextualism relativism and critical reflection The concluding part considers the application of the Hegelian framework to contemporary debates about specific ethical issues including multiculturalism democracy and human rights Hegel and Contemporary Practical Philosophy contributes to the on going debate about the importance of systematic philosophy in the context of practical philosophy engages with contemporary discussions about the shape of a rational social order and gauges the timeliness of Hegelian philosophy This book is a must read for scholars interested in Hegel and in the contemporary tradition of Kantian constructivism in moral and political philosophy

**Marcuse in the Twenty-First Century** Robert Kirsch,Sarah Surak,2018-12-07 This book engages the critical theory of political philosopher Herbert Marcuse to imagine spaces of resistance and liberation from the repressive forces of late capitalism Marcuse an influential counterculture voice in the 1960s highlighted the smooth democratic unfreedom of postwar capitalism a critique that is well adapted to the current context The compilation begins with a previously unpublished lecture delivered by Marcuse in 1966 addressing the inadequacy of philosophy in its current form arguing how it may be a force for liberation and social change This lecture provides a theoretical mandate for the volume s original contributions from international scholars engaging how topics such as higher education aesthetics and political organization can contribute to the project of building a critical rationality for a qualitatively better world offering an alternative to the bleak landscape of neoliberalism The essays in this volume as whole

engage the current context with an urgency appropriate to the problems facing an encroaching authoritarianism in political society with an interdisciplinary lens that speaks to the complexity of the problems facing modern society The chapters originally published as a special issue in *New Political Science*      **Rough Dialectics** Palmer Talbutt Jr.,2022-07-11 This is an exploration in depth of the social theory of the Russian born thinker Pitirim A Sorokin who played a large role in American thought Sorokin s contributions to theories of culture social change modernity and dialectics are evaluated in this wide ranging study The book emphasizes the place of values in the comparative study of civilizations This volume includes a translation by Lawrence T Nichols of Sorokin s essay in Russian on Tolstoy as philosopher as well as a chapter by Nichols on Tolstoy and Sorokin In this book Palmer Talbutt Jr examines his former teacher Sorokin within intellectual educational and cultural contexts The work will be of especial interest to scholars in social philosophy the philosophy of the social sciences philosophy of culture and comparative cultural studies      *Handbook of Teaching Philosophy to Economists* Giancarlo

Ianulardo, John B. Davis, Ricardo F. Crespo, 2025-09-10 In recent years there have been increasing calls for a revision of the economics curriculum to address the most pressing and challenging issues facing society This erudite Handbook bridges the gap between a flourishing body of scholarship in the philosophy of economics literature and an economics education in need of a deeper rethinking as felt by both students and educators It provides practical pedagogical insights on how to structure courses in the philosophy of economics and how to link them to students economics backgrounds      **Evil Spirits** Gary Banham, Charlie Blake, 2000 Incorporating a diversity of approaches from a variety of disciplines this book provides a major reassessment of the question of nihilism in modernity and interrogates this through the growing interest in angels and demons in contemporary philosophy The collection examines the uncanny return of angelic and demonic principles in current cultural production and thinking and aims to show that the repression of thought about spiritual entities at the onset of modernity is linked to the appearance of a new form of evil that manifests itself through nihilism      **History of Philosophy**

*Contemporary Natural Philosophy and Philosophies - Part 1* Gordana Dodig-Crnkovic, Marcin J. Schroeder, 2019-06-11 Modern information communication technology eradicates barriers of geographic distances making the world globally interdependent but this spatial globalization has not eliminated cultural fragmentation The Two Cultures of C P Snow that of science technology and that of humanities are drifting apart even faster than before and they themselves crumble into increasingly specialized domains Disintegrated knowledge has become subservient to the competition in technological and economic race leading in the direction chosen not by the reason intellect and shared value based judgement but rather by the whims of autocratic leaders or fashion controlled by marketers for the purposes of political or economic dominance If we want to restore the authority of our best available knowledge and democratic values in guiding humanity first we have to reintegrate scattered domains of human knowledge and values and offer an evolving and diverse vision of common reality

unified by sound methodology This collection of articles responds to the call from the journal *Philosophies* to build a new networked world of knowledge with domain specialists from different disciplines interacting and connecting with other knowledge and values producing and knowledge and values consuming communities in an inclusive extended contemporary natural philosophic manner In this process of synthesis scientific and philosophical investigations enrich each other with sciences informing philosophies about the best current knowledge of the world both natural and human made while philosophies scrutinize the ontological epistemological and methodological foundations of sciences providing scientists with questions and conceptual analyses This is all directed at extending and deepening our existing comprehension of the world including ourselves both as humans and as societies and humankind *Roberto Esposito* Peter Langford, 2015-05-15

*Roberto Esposito Law Community and the Political* provides a critical legal introduction to this increasingly influential Italian theorist's work by focusing on Esposito's reconceptualisation of the relationship between law community and the political The analysis concentrates primarily on Esposito's Categories of the Impolitical *Communitas Immunitas* and *Bios* which it is argued are animated by an abiding concern with the position of critique in relation to the tradition of modern and contemporary legal and political philosophy Esposito's fundamental rethinking of these notions breaks with the existing framework of political and legal philosophy through the critique of its underlying presuppositions And in the process Esposito rethinks the very form of critique As the first monograph length study of Esposito in English *Roberto Esposito Law Community and the Political* will be of considerable interest to those working in the areas of contemporary legal and political thought and philosophy **Breath of Proximity: Intersubjectivity, Ethics and Peace** Lenart Škof, 2015-02-06 This book

offers an original contribution towards a new theory of intersubjectivity which places ethics of breath hospitality and non violence in the forefront Emphasizing Indian philosophy and religion Vedas and Upanishads and related cross cultural interpretations it provides new intercultural interpretations of key Western concepts which traditionally were developed and followed in the vein of reconceptualizations or revitalizations of Greek thought as in Nietzsche and Heidegger for example The significance of the book lies in its establishment of a new platform for thinking philosophically about intersubjectivity so as to nudge contemporary philosophy towards a more sensitive approach which is needed in our times Its originality lies in its innovative approach which searches for the origin of ethical gestures represented in respecting the breath breathing through the newly introduced concept of *mesocosm* as a space of a ritual or a new ethical space of intersubjective encounters The book also introduces the possibility of an original ethics based on breath Intended for philosophers feminists and others concerned with intercultural philosophy and comparative religion the book will appeal to readers interested in contemporary ethical and political theories of peaceful conflict resolution and concepts of hospitality *A Breath of Hospitality* will benefit all who seek a more sensitive approach in philosophy including philosophy of religion and often neglected practical and educational layers of our everyday intersubjective relations *Soviet Studies in Philosophy*, 1981 *The Artist-Philosopher*

*in the Age of Addiction* George Smith, 2025-03-17 George Smith argues that modern humanity suffers from a late stage pre fatal addiction to scientific technological thinking Like most pre fatal addictions this one will most likely result in one of three ways misery extinction or human transformation The question remains wherein lies the third way According to Smith mankind s chronic and as yet undiagnosed sickness originates in early Western metaphysics and has long been thoroughly globalized It explains unstoppable extractionism and its relentlessly increasing by product carbon dioxide It also explains today s ever increasing rate of species extinction and the increasingly likely collapse of the biosphere Citing climate change tolerance and denial as symptomatic of pre fatal addiction Smith turns his analysis to Heidegger s question concerning technology and shows that even Heidegger had become hooked on scientific technological thinking Surrendering to his disease Heidegger steps back into meditative thought This in turn opens Heidegger to an East West mode of scientific poetic consciousness the thinking of artist philosophers such as Laozi Hlderlin and Rachel Carson For Heidegger this way of thinking lays the path to mankind s transformative emancipation from an otherwise inescapable catastrophe The book will be of interest to scholars of the arts and culture histories of consciousness and climate studies Minor Works of Nietzsche: Philosophy in the Tragic Age of the Greeks & Others Friedrich Nietzsche, 2024-05-09 A new translation from the original manuscripts of Nietzsche s minor works This edition is bilingual the original text is included in the back as reference material behind the English translation This is volume 5 in The Complete Works of Friedrich Nietzsche from LP This chronological systematic set of Nietzsche s works is the first ever bilingual Hauptwerke or complete major works of Nietzsche published in English the original German These small but fascinating manuscripts are included here Some of these have never been translated until now 1869 Homer and Classical Philology 1872 Philosophy in the Tragic Age of the Greeks 1872 Five Prefaces to Five Unwritten Books 1873 Exhortation to the Germans 1872 On the Future of Our Educational Institutions 1873 On Truth and Lies in an Extra Moral Sense 1874 We Philologists 1875 Science and Wisdom in Struggle 1889 Nietzsche versus Wagner 1888 The Wagner Case 1869 Homer und die klassische Philologie 1872 Die Philosophie im tragischen Zeitalter der Griechen 1872 F nf Vorreden zu f nf ungeschriebenen B chern 1873 Mahnruf an die Deutschen 1872 ber die Zukunft unserer Bildungsanstalten 1873 ber Wahrheit und L ge im au ermoralischen Sinn 1874 Wir Philologen 1875 Wissenschaft und Weisheit im Kampfe 1889 Nietzsche contra Wagner 1888 Der Fall Wagner **The Oxford Handbook of Philosophy of Religion** William Wainwright, 2004-12-16 The Oxford Handbook of Philosophy of Religion contains newly commissioned chapters by 21 prominent experts who cover the field in a comprehensive but accessible manner Each chapter is expository critical and representative of a distinctive viewpoint **The Philosophy of Japanese Wartime Resistance** David Williams, 2014-04-16 The transcripts of the three Kyoto School roundtable discussions of the theme of the standpoint of world history and Japan may now be judged to form the key source text of responsible Pacific War revisionism Published in the pages of Chuo Koron the influential magazine of enlightened elite Japanese opinion during the twelve months after Pearl Harbor these subversive

discussions involved four of the finest minds of the second generation of the Kyoto School of philosophy Tainted by controversy and shrouded in conspiratorial mystery these transcripts were never republished in Japan after the war and they have never been translated into English except in selective and often highly biased form David Williams has now produced the first objective balanced and close interpretative reading of these three discussions in their entirety since 1943 This version of the wartime Kyoto School transcripts is neither a translation nor a paraphrase but a fuller rendering in reader friendly English that is convincingly faithful to the spirit of the original texts The result is a masterpiece of interpretation and inter cultural understanding between the Confucian East and the liberal West Seventy years after Tojo came to power these documents of the Japanese resistance to his wartime government and policies exercise a unique claim on students of Japanese history and thought today because of their unrivalled revelatory potential within the vast literature on the Pacific War The Philosophy of Japanese Wartime Resistance may therefore stand as the most trenchant analysis of the political philosophic and legal foundations of the place of the Pacific War in modern Japanese history yet to appear in any language

*Cicero as Philosopher* Andree Hahmann, Michael Vazquez, 2024-12-02 Few philosophers present themselves with as much complexity as Marcus Tullius Cicero At once a philosopher statesman orator and lawyer Cicero consciously fashioned his own image for posterity and wrote philosophical texts as invitations for his readers to think for themselves His philosophy has continued to unfold over the centuries repeatedly inspiring new and independent philosophical positions Since J G F Powell s pivotal contribution in 1995 we have witnessed countless translations and scholarly treatments of Cicero s philosophy that emphasize his creativity and influence In this tradition the present volume offers fresh and incisive contributions that advance the ongoing renaissance in Cicero scholarship Part One of the volume focuses on Cicero s approaches to writing philosophy and on specific interpretive questions facing readers of his philosophical corpus Part Two traces key moments in Cicero s philosophical afterlife from Augustine through the Scholastic period to the Renaissance culminating in the rich and varied tradition of Ciceronian reception in the European Enlightenment Throughout the volume special attention is given to Cicero s practical philosophy

**Kant, Adorno, and the Forms of History** William S. Allen, 2025-02-06 Kant Adorno and the Forms of History sets the works of Theodor Adorno Immanuel Kant and Peter Weiss in dialogue revealing how an interrogation of the aesthetics of the whole and the conception of history in Western thought reveals new ways of thinking about history and historically To conceive of history as such it is necessary to conceive it as a whole but doing so carries implications about its development and direction Furthermore such an idea makes it difficult to consider its parts without subsuming them to the whole thereby making individuals merely instrumental to achieving the aims of history William S Allen brings the thought of Kant Adorno and Weiss to bear on these tensions tracing how Adorno s reconsideration of history through his readings of Kant s Critique of Judgement are distinct from formulations offered by other thinkers Marx Hegel Lyotard Allen establishes that Kant s Critique of Judgement is not only a sustained analysis of the development of forms

whether aesthetic or organic but also a tacit interrogation of the form of the whole and the possibilities of thinking it Kant Adorno and the Forms of History argues that Adorno has taken up this interrogation more than any other thinker and through his aesthetics has introduced an alternative thought which has been modified and extended in the work of Peter Weiss in his last novel The Aesthetics of Resistance Within this thought lies the possibility of thinking history without the whole without unity or purpose which is a possibility that may offer new insights in the face of imminent environmental economic and political collapse

**German Philosophy in the Twentieth Century** Julian Young, 2018-05-23 The course of German philosophy in the twentieth century is one of the most exciting diverse and controversial periods in the history of human thought It is widely studied and its legacy hotly contested In this outstanding introduction Julian Young explains and assesses the two dominant traditions in modern German philosophy critical theory and phenomenology by examining the following key thinkers and topics Max Weber s setting the agenda for modern German philosophy the rationalization and disenchantment of modernity resulting in loss of freedom and loss of meaning Horkheimer and Adorno rationalization and the culture industry Habermas defence of Enlightenment rationalization the unfinished project of modernity Marcuse a Freud based vision of a repression free utopia Husserl overcoming the crisis of humanity through phenomenology Early Heidegger s existential phenomenology authenticity as loyalty to heritage Gadamer and fusion of horizons Arendt the human condition Later Heidegger the re enchantment of reality German Philosophy in the Twentieth Century Weber to Heidegger is essential reading for students of German philosophy phenomenology and critical theory and will also be of interest to students in related fields such as literature religious studies and political theory
