**Rebirth, Reform, and Resilience** James M. Kittelson, Pamela J. Transue, 1984      **A History of the University in Europe** Hilde de Ridder-Symoens, Walter Rüegg, 1992 A History of the University in Europe covers the development of the university in Europe East and West from its origins to the present day No other up to date comprehensive history of this type exists its originality lies in focusing on a number of major themes viewed from a European perspective and in its interdisciplinary collaborative and transnational character Volume 1 covering the Middle Ages places the medieval European universities in their social and political context After explaining the number and types of universities from their origins in the twelfth century to around 1500 it examines the inner workings as an institution and paints a general picture of medieval student life Volume 2 attempts to situate the universities in their social and political context throughout the three centuries spanning the period 1500 to 1800 Volume 3 shows that by focusing on the freedom of scientific research teaching and study the medieval university structure was modernized and enabled discoveries to become a professional bureaucratically regulated activity of the university This opened the way for the victorious march of the natural sciences and led to student movements resulting in the university being ultimately cast in the role of a citadel of political struggle in a world wide fight for freedom Publisher      Intellectual Traditions at the Medieval University (2 vol. set) Russell Friedman, 2012-10-12 This book traces the rise and decline of two rival intellectual traditions in later medieval trinitarian theology one of them predominantly Franciscan the other predominantly Dominican Disagreeing about the way to understand the identification in John's Gospel of the second person of the Trinity the Son with the Word the two traditions clashed over the issues of concepts and concept formation the category of relation counterfactual logic and the use of authority Considering more than seventy theologians from the period the book presents an overview of the debate while also including detailed studies of the trinitarian views of such thinkers as Thomas Aquinas Henry of Ghent John Duns Scotus Peter Auriol William Ockham Walter Chatton and Gregory of Rimini      **L'Académie de Lausanne entre Humanisme et Réforme (ca. 1537-1560)** Karine Crousaz, 2011-10-14 Based on a vast body of archival sources this book examines the development and the operations of the Lausanne Academy the first Protestant Academy of Higher Education created in a French speaking territory and an essential milestone in the history of European education      *Humanism and Protestantism in Early Modern English Education* Ian Green, 2016-05-13 This volume is the first attempt to assess the impact of both humanism and Protestantism on the education offered to a wide range of adolescents in the hundreds of grammar schools operating in England between the Reformation and the Enlightenment By placing that education in the context of Lutheran Calvinist and Jesuit education abroad it offers an overview of the uses to which Latin and Greek were put in English schools and identifies the strategies devised by clergy and laity in England for coping with the tensions between classical studies and Protestant doctrine It also offers a reassessment of the role of the godly in English education and demonstrates the many ways in which a classical education came to be

combined with close support for the English Crown and established church One of the major sources used is the school textbooks which were incorporated into the English Stock set up by leading members of the Stationers Company of London and reproduced in hundreds of thousands of copies during the seventeenth and eighteenth centuries Although the core of classical education remained essentially the same for two centuries there was a growing gulf between the methods by which classics were taught in elite institutions such as Winchester and Westminster and in the many town and country grammar schools in which translations or bilingual versions of many classical texts were given to weaker students The success of these new translations probably encouraged editors and publishers to offer those adults who had received little or no classical education new versions of works by Aesop Cicero Ovid Virgil Seneca and Caesar This fascination with ancient Greece and Rome left its mark not only on the lifestyle and literary tastes of the educated elite but also reinforced the strongly moralistic outlook of many of the English laity who equated virtue and good works with pleasing God and meriting salvation

**The Aristotelian Tradition in Early Modern Protestantism** Manfred Svensson, 2024 Aristotle's moral and political thought formed the backbone of education in practical philosophy for centuries during the classical and medieval periods It has often been presumed however that with the advent of the Protestant Reformation this tradition was broken Countering this widespread view Manfred Svensson discusses dozens of commentaries on Aristotle's Ethics and Politics that emerged from Protestant universities and academies throughout the 16th and 17th centuries showing that early modern Protestants never lost their connection to Aristotle He offers a broad contextualisation of these works and in depth discussion of their key ethical and political concepts

**The Philosophers' Game** Ann Elizabeth Moyer, William Fulke, 2001 An exploration of the history of a mathematical board game played in medieval and Renaissance Europe

Humanism and the Culture of Renaissance Europe Charles G. Nauert (Jr.), 1995-09-28 This new textbook provides students with a highly readable synthesis of the major determining features of the European Renaissance one of the most influential cultural revolutions in history Professor Nauert's approach is broader than the traditional focus on Italy and tackles the themes in the wider European context He traces the origins of the humanist movement and connects it to the social and political environments in which it developed In a tour de force of lucid exposition over six wide ranging chapters Nauert charts the key intellectual social educational and philosophical concerns of this humanist revolution using art and biographical sketches of key figures to illuminate the discussion The study also traces subsequent transformations of humanism and its solvent effect on intellectual developments in the late Renaissance

**History of Universities: Volume XV: 1997-1999** Peter Denley, 2000-04-13 Volume XV of History of Universities contains the customary mix of learned articles book reviews conference reports and bibliographical information which makes this publication such an indispensable tool for the historian of higher education Its contributions range widely geographically chronologically and in subject matter The volume is as

always a lively combination of original research and invaluable reference material      *Lutheran Ecclesiastical Culture* Robert Kolb, 2008 This volume's thematic and geographical perspectives on Lutheran ecclesiastical life invite readers to delve into post Reformation efforts to continue the work of the Wittenberg reformers in new circumstances and times applying their insights to concrete challenges in church and society      **"A Pearl of Powerful Learning": The University of Cracow in the Fifteenth Century** Paul Knoll, 2016-08-09 Winner of The Polish Institute of Arts and Sciences of America's 2018 Oskar Halecki Award and Winner of the Early Slavic Studies Association 2016 Book Prize The first fully developed history of the University of Cracow in this period in over a century A Pearl of Powerful Learning The University of Cracow in the Fifteenth Century places the school in the context of late medieval universities traces the process of its foundation analyzes its institutional growth its setting in the Polish royal capital its role in national life and provides a social and geographical profile of students and faculty The book includes extended treatment of the content of intellectual life and accomplishments of the school with reference to the works of its most important scholars in the medieval arts curriculum medicine law and theology The emergence of early Renaissance humanist interests at the university is also discussed Winner of the Early Slavic Studies Association 2016 Book Prize for most outstanding recent scholarly monograph on pre modern Slavdom The work was described by the prize committee as A thoughtful highly informed and nuanced history of the University of Cracow an important institution in a pivotal period of Poland's history Knoll's treatment of such important issues as the role of the University in national life and the controversial and highly technical matter of the impact of Humanism are dealt with tactfully and thoughtfully The book will become the definitive work on this topic and will ensure that the material will rapidly be absorbed into general histories of education and of universities in the Renaissance Winner of The Polish Institute of Arts and Sciences of America's 2018 Oskar Halecki Award This award recognizes a book of particular value and significance dealing with the Polish experience and is named after the distinguished 20th century Polish medieval historian Oskar Halecki who was one of the founders of PIASA Professor Knoll will be recognized for this award during the 77th Annual Meeting of PIASA in Gdansk Poland in June 2019      *Protestant Theology and the Making of the Modern German University* Thomas Albert Howard, 2006-02-23 In shaping the modern academy and in setting the agenda of modern Christian theology few institutions have been as influential as the German universities of the nineteenth century This book examines the rise of the modern German university from the standpoint of the Protestant theological faculty focusing especially on the University of Berlin 1810 Prussia's flagship university in the nineteenth century In contradistinction to historians of modern higher education who often overlook theology and to theologians who are frequently inattentive to the social and institutional contexts of religious thought Thomas Albert Howard argues that modern university development and the trajectory of modern Protestant theology in Germany should be understood as interrelated phenomena      **The Cambridge Companion to Martin Luther** Donald K. McKim, 2003-07-10 Martin Luther 1483 1546 stands as one of the

giant figures in history His activities writings and legacy have had a huge effect on the western world This Cambridge Companion provides an accessible introduction to Martin Luther for students of theology and history and for others interested in the life work and thought of the first great Protestant reformer The book contains eighteen chapters by an international array of major Luther scholars Historians and theologians join here to present a full picture of Luther's contexts the major themes in his writings and the ways in which his ideas spread and have continuing importance today Each chapter serves as a guide to its topic and provides further reading for additional study The Companion will assist those with little or no background in Luther studies while teachers and Luther specialists will find this accessible volume an invaluable aid to their work

**Renaissance Humanism in Support of the Gospel in Luther's Early Correspondence** Timothy P. Dost, 2017-07-05 Drawing on the early correspondence of Martin Luther Timothy Dost presents a reassessment of the degree to which humanism influenced the thinking of this key reformation figure Studying letters written by Luther between 1507 and 1522 he explores the various ways Luther used humanism and humanist techniques in his writings and the effect of these influences on his developing religious beliefs The letters used in this study many of which have never before been translated into English focus on Luther's thoughts attitudes and application of humanism uncovering the extent to which he used humanist devices to develop his understanding of the gospel Although there have been other studies of Luther and humanism few have been grounded in such a close philological examination of Luther's writings Combining a sound knowledge of recent historiography with a detailed familiarity with Luther's correspondence Dost provides a sophisticated contribution to the field of reformation studies

Scholarly Self-Fashioning and Community in the Early Modern University Richard Kirwan, 2016-04-01 A greater fluidity in social relations and hierarchies was experienced across Europe in the early modern period a consequence of the major political and religious upheavals of the sixteenth and seventeenth centuries At the same time the universities of Europe became increasingly orientated towards serving the territorial state guided by a humanistic approach to learning which stressed its social and political utility It was in these contexts that the notion of the scholar as a distinct social category gained a foothold and the status of the scholarly group as a social elite was firmly established University scholars demonstrated a great energy when characterizing themselves socially as learned men This book investigates the significance and implications of academic self-fashioning throughout Europe in the early modern period It describes a general and growing deliberation in the fashioning of individual communal and categorical academic identity in this period It explores the reasons for this growing self-consciousness among scholars and the effects of its expression social and political desired and real
