Recent Studies In Myths And Literature 1970 1990 An Annotated Bibliography:

Recent Studies in Myths and Literature, 1970-1990 Bernard Accardi, 1991-08-14 Despite protestations to the contrary myth criticism in literature is not dead witness the well over 1000 illuminating sources published between 1970 and 1990 selected from thousands more and provided with succinct informative annotations The modern study of the relation between myths and literature began in the late 19th century with publication of James G Frazer's *The Golden Bough* and reached a high water mark with Northrop Frye's archetypal criticism beginning in the late 1950s The end of modernism proclaimed in the late 1960s seemed also to toll the death knell for myth criticism which was denigrated by some new critics of the post modernist era Instead however the authors here have found a wealth of recent materials some proceeding from traditional psychological or anthropological stances and others taking new directions studying relationships between myth and language and myth and history viewing myth as part of the complex fabric of fiction rather than its core and accommodating feminist theory among other approaches The variety of narratives accorded the status of myth has also prompted inquiries on mythopoesis or the literary creation of myth The opening chapter surveys work done on the mythic or archetypal approach in general and on such mythic figures in literature as Orpheus Oedipus Cain and Faust the second chapter covers works on myth in classical literature and the following five chapters correspond to major periods in British and American literature Included are general studies and studies of particular authors notably among them such giants of the past as Shakespeare Milton Melville Joyce and Faulkner but also including such contemporary writers as Toni Morrison and John Updike A well constructed subject index provides access throughout to mythical figures and literary figures as well as major theories and theorists topics and themes and an author index accesses the critical studies *Children's Books on*

Ancient Greek and Roman Mythology Antoine Brazouski, Mary J Klatt, 1993-11-23 The classical heritage continues to impact modern culture in many ways This bibliography lists and describes those books on Greek and Roman mythology from the mid 19th century to the present which are useful for introducing children to the classical world The volume begins with a brief history of children's books on classical mythology in the United States A chapter then discusses the various techniques through which classical myths were adapted for children The annotated bibliography follows with each entry including a critical annotation on how closely the work adheres to the original myth Each entry also includes an indication of the grade level of each book Indexes allow the user to locate sources according to title illustrator time period myth and subject

New World Myth Marie Vautier, 1998-01-06 There is an emphasis on de constructing de centring de stabilizing and especially de mythologizing in the study that illustrates New World myth narrators questioning the past in the present and carrying out their original investigations of myth place and identity Underlining the fact that political realities are encoded in the language and narrative of the works Vautier argues that the reworkings of literary religious and historical myths and political ideologies in these novels are grounded in their shared situation of being in and of the New World **Shakespeare**

and the Classical Tradition Lewis Walker, 2019-05-24 This bibliography will give comprehensive coverage to published commentary in English on Shakespeare and the Classical Tradition during the period from 1961-1985. Doctoral dissertations will also be included. Each entry will provide a clear and detailed summary of an item's contents. For poems and plays based directly on classical sources like *Antony and Cleopatra* and *The Rape of Lucrece*, virtually all significant scholarly work during the period covered will be annotated. For other works such as *Hamlet*, any scholarship that deals with classical connotations will be annotated. Any other bibliographies used in the compiling of this volume will be described with emphasis on their value to a student of Shakespeare and the Classics.

Mythography William G. Doty, 2000-03-21 Presenting major myth theorists from antiquity to the present, this work offers a cross-disciplinary approach to the study of myth. Rewritten and restructured, it reflects the increased interest in myth among both scholars and general readers since the publication of the first edition.

Myth and Method Laurie L. Patton, Wendy Doniger, 1996 In confronting these tensions, they provide an outline of the most troubling questions in the field and offer a variety of responses to them.

In addition to the expected bibliographies, indexes, dictionaries, encyclopaedias, and directories, a number of important textbooks and manuals of general practice are included. The Proverbial Bernard Shaw George B. Bryan, Wolfgang Mieder, 1994-01-20 Bernard Shaw was a prolific author of book reviews, novels, plays, criticism, essays, and correspondence. Throughout his voluminous writings, proverbs occur repeatedly. This book is a comprehensive index to proverbs in Shaw's writings. An introductory chapter discusses the importance of proverbs in Shaw's works and analyzes his use of them. The bulk of the volume is a key word index to the proverbs, along with a list of editions of Shaw's writings that were consulted. Proverbs in the key word index are arranged alphabetically according to the most significant word in the text. Each entry cites quotations from Shaw's works in which the proverb appears. Entries also identify the edition of Shaw's works consulted and provide the page number on which the proverb appears. The entries then cite major proverb and quotation dictionaries which can be consulted for additional information. Appendices overview the frequency with which Shaw used
