Brodsky,H. O'Neal Smitherman,2013-06-29 In contrast to the great diversity of other crime and delinquency research measures those drawn from the CPI and the MMPI have much in common They are taken from standardized instruments administered under controlled conditions with known stimulus properties and validity indicators The CPI and MMPI measures will frequently be instruments of choice in research on personality and psychodynamics of offenders CHAPTER 6 Law Enforcement and Police This chapter encompasses a variety of scales that refer to law enforcement or police agencies Unfortunately in the case of many scales these terms are used simply with the assumption that the respondents understand the concepts and use them in the same way as researchers In other cases however specific policing functions are identified and described As noted in Chapter 3 a standard order of scale presentation is followed First the attitudes scales are presented followed by the behavior ratings per sonality measures milieu ratings prediction measures and finally the very broad category of description After the reviews are completed within each subcategory other scales in that category are listed See Chapter 2 for a description of the criteria that were used in deciding upon whether a scale would be reviewed or simply listed Listed scales are presented by title and bibliographic reference followed by a very brief description FCI Research Report Federal Correctional Institution (Tallahassee, Fla.). activities and crime control strategies in the region explain the political background underlying these developments and assess their long term social impact Experts from Slovenia Hungary Croatia Serbia the Czech Republic Poland Bosnia and Herzegovina discuss the politicization of crime the ongoing paradoxes regarding civil liberties and the future of crime policy in comparative and country specific terms Among the topics featured in the book Crime and crime control in transitional countries politics the media and public perception of crime surveillance from national security to private industry penal policy and political change emerging trends economic and organized crime human trafficking juvenile delinquency new perspectives on corruption in the region With this fascinating insight Crime and Transition in Central and Eastern Europe is a singular reference for researchers and policymakers in criminology and political science and historians with a special interest in European affairs and policy
