Research Utilization In The Social Services Innovations In Practice And Administration:

Research Utilization in the Social Services Anthony J. Grasso, Irwin Epstein, 1992 Here is a comprehensive review of the science and art of research utilization available in social work today Written by the field's most experienced and pioneering practitioners on the topic this important book examines the new practice research models that have evolved in social work over the past decade and projects their future developments discusses the role of computerization in all forms of social work practice and presents pedagogical issues related to the teaching of research utilization in undergraduate and graduate programs

Social Work Practice Research for the Twenty-First Century Anne E. Fortune, Philip McCallion, Katharine Briar-Lawson, 2010-09-21 Social work professionals must demonstrate their effectiveness to legislators and governments not to mention clients and incoming practitioners A thorough evaluation of the activities ethics and outcomes of social work practice is critical to maintaining investment and interest in the profession and improving the lives of underserved populations Incorporating the concerns of a new century into a consideration of models for practice research this volume builds on the visionary work of William J Reid 1928 2003 who transformed social work research through empirically based and task centered approaches and more recently synthesized intervention knowledge for framing future study This collection reviews the task centered model and other contemporary Evidence Based Practice models for working with individuals families groups communities and organizations Essays demonstrate the value of these pragmatic approaches in the United States and international settings Contributors summarize state of the art methods in several key fields of service including children and families aging substance abuse and mental health They also evaluate the research movement itself outlining an agenda for today's sociopolitical landscape and the profession This volume inspires practice research to prioritize evidence as a base for the profession

A Guide to Evidence-Based Group Work Mark J. Macgowan, 2008-02-12 This is the first textbook that illustrates step by step how to practice evidence based group work As group workers are increasingly being held accountable to evaluate monitor and improve their practice there are scant resources available that apply specifically to their practice General books on evidence based practice lack the rich material on group work organized for the first time in this one volume Designed specifically as a supplement for undergraduate and graduate group work courses the text is organized around the process and philosophy of evidence based practice formulating appropriate practice questions searching for evidence critically reviewing available evidence applying the evidence with judgment skill and concern for the group members and evaluating the outcomes achieved The evidence based group work framework teaches students how to skillfully apply best practices through practical learning activities case examples research designs step by step guidelines and checklists assessment tips and detailed instructions for formulating questions and evaluating answers It will be equally valuable as a handy reference for professionals eager to hone their practice skills

Practice-Based Research in Social Work Sarah-Jane Dodd, Irwin Epstein, 2012-03-12 This unique textbook explores

practice based research PBR using numerous practice examples to actively encourage and engage students and practitioners to embrace research as a meaningful support for their practice Whilst evidence based practice gives practitioners access to information about universal best practices it does not prioritize practitioner generated knowledge or promote new research based interventions relevant to their own practice circumstances as PBR does This book discusses the evolution of PBR as a distinct social work research approach describes its principles and methods and presents a range of exemplars illustrating the application of PBR within different practice methods in different practice settings The chapters cover Identifying the research question in a PBR model Designing a study and identifying a methodology Sampling Literature reviews Gathering data Ethics Analyzing data and interpreting results Putting research into practice Viewing the practitioner as central to the research process and research as a necessary component of practice this invaluable book emphasizes the seamless integration of practice and research It is about research in social work practice rather than research on social work practice Each chapter includes an overview an introduction and a key concepts summary Practice Based Research in Social Work is a very accessible text suitable for social work students particularly MSW students and practitioners

Science and Social Work Stuart A. Kirk, William James Reid, 2002 Historically there have been two main approaches to the proper role and function of science in social work This work presents a balanced appraisal demonstrating how the fruits of scientific research can aid clinical practice

Evidence for Child Welfare Practice Michael J. Austin, 2013-09-13 This book provides a work in progress that seeks to capture the micro direct service and macro managerial perspectives related to identifying evidence for practice within the practice domain of public child welfare It is divided into two categories namely evidence for direct practice and evidence for management practice In Part I the articles are categorized in the areas of child welfare assessment and child welfare outcomes Expanded versions of the chapters can be accessed at www.bassc.net In Part II the focus is on organizational issues that relate to evidence for management practice This section includes an overview of evidence based practice from an organizational perspective along with evidence related to the experiences of others in implementing evidence based practice This book pushes the discussion of evidence based practice in several new directions regarding 1 the use of structured reviews to complement the systematic reviews of the Cochrane and Campbell Collaboratives 2 the process of viewing the call for evidence based practice as a goal or future vision of practice and evidence for practice provides a more immediate approach to promote evidence informed practice and 3 a recognition that evidence informed practice is part of building agency based knowledge sharing systems that involve the tacit and explicit knowledge needed to improve the outcomes of social services This book was published as a special issue of the Journal Of Evidence Based Social Work

The Use of Research in Social Work Practice Nancy F. Chavkin, 1993-09-30 Chavkin tests the theory that there is a relationship between organizational structure and the use of research recommendations in school social work Part I includes three chapters that explore the complex relationship between applied social science research and practice Part II is the case

example of the use of Costin's recommendation for changes in the goals and methods of school social service delivery Part III presents the implications of the case for practice policy and theory and provides suggestions for future research Chavkin's organizational perspective adds to the information social workers have about why research findings are adopted in some organizations and not in others and how organizational structure factors facilitate or inhibit adoption Recommended for social work scholars and practitioners researchers and agency leaders

Information Systems in Child, Youth, and Family Agencies Jerome Beker,Anthony J Grasso Dsw,Irwin Epstein,Boysville Of Michigan,1993-10-27 Here is a detailed look at the design development and successful implementation of a utilization focused computerized information system in an agency serving children youths and families This important book describes Boysville of Michigan's effort to create a model of information utilization designed specifically for social service settings and details their unique attempt to integrate information technology and social work practice at every organizational level Information Systems in Child Youth and Family Agencies covers Boysville's five year endeavor to design implement and evaluate BOMIS Boysville Management Information System their computerized management information program evaluation and clinical decision making system The book shows how practice based research can contribute to broader practice relevant knowledge for the field in general as well as for the sponsoring agency It contains collaborative contributions by practitioners managers administrators and researchers who were directly involved in the development and utilization of the information system Many of the problems Boysville solved while implementing BOMIS are also likely to face information specialists and social work administrators in other agencies who are trying to integrate information technology with the practice needs of direct service workers This in depth case study helps them discover some of the ins and outs of setting up their own information system Information Systems in Child Youth and Family Agencies is divided into three sections The first describes the underlying theoretical assumptions of the Boysville system and the organizational structures and processes that translate these assumptions into practice This section is written largely by Boysville's research staff The next set of chapters written primarily by Boysville's practice and administrative staff illustrates the programmatic uses of information provided by BOMIS The last section illustrates how BOMIS data can serve internal organizational purposes as well as reflect on broader issues in the field and is written by members of Boysville's National Research Advisory Committee Unique in its collaborative authorship by practitioners and researchers and its dual focus for agency decision making and for knowledge development this book is especially helpful for managers and administrators interested in promoting computer based practice research in their agencies for research consultants and for applied researchers in the human services

International Social Work Stefan Borrmann,Michael Klassen,Christian Spatscheck,2007-04-05 The book focuses on three key issues of international social work on international dimensions of social problems and how social work practice can deal with these challenges on cultural issues social workers have to think of when practicing teaching an developing social work on an international level and finally on aspects of

international approaches in social work education The authors are practicing and teaching social work in several countries and their personal and educational background allowed them to gain a profound experience on international social work This makes the authors not only writing about international perspectives but also from an international perspective The Routledge Handbook of Social Work Practice Research Lynette Joubert, Martin Webber, 2020-04-13 The Routledge Handbook of Social Work Practice Research is the first international handbook to focus on practice research for social work Bringing together leading scholars in the field from Europe the USA and the Asia Pacific region it provides an up to the minute overview of the latest thinking in practice research whilst also providing practical advice on how to undertake practice research in the field It is divided into five sections State of the art Methodologies Pedagogies Applications Expanding the frontiers The range of topics discussed will enhance student development as well as increase the capacity of practitioners to conduct research develop coordinating and leadership roles and liaise with multiple stakeholders who will strengthen the context base for practice research As such this handbook will be essential reading for all social work students practitioners and academics as well as those working in other health and social care settings
