*Researching the Art of Teaching* Peter Woods, 1996 This follow up to *Inside Schools* reviews the position of ethnography in educational research in the light of current issues Starting from an analysis of teaching as science and as art Woods relates his own work to qualitative research trends

**Researching the Art of Teaching** Peter Woods, 2013-09-27 This book is a follow up to *Inside Schools* It reviews the position of ethnography in educational research in the light of current issues and of the author's own research over the past ten years Starting from an analysis of teaching as science and as art Peter Woods goes on to review the general interactionist framework in which his own work is situated and how this relates to postmodernist trends in qualitative research The approach is illustrated through reference to the author's own personal history and research career and his recent research on creative teaching critical events and his teachers reactions to school inspections How to represent such research is a central feature and includes a consideration of the tools used in that task and how they relate to the ethnographer's self whatever forms of representation are selected however the audience's own concerns will guide them in their interpretation of the work Prominent themes include the person of the ethnographer in research the art of teaching and new ways of representing it while not forgetting the science of teaching and of research research for educational use and the uses of educational research collaborative work between researchers and teachers The issues covered include such matters as research purposes research design research careers access data collection data analysis truth criteria the relationship between theory and research methods writing up and dissemination

*Handbook of Complementary Methods in Education Research* Judith L. Green, Judith Green, Gregory Camilli, Patricia B. Elmore, Patricia Elmore, 2012-01-04 Published for the American Educational Research Association by Routledge The *Handbook of Complementary Methods in Education Research* is a successor volume to AERA's earlier and highly acclaimed editions of *Complementary Methods for Research in Education* More than any book to date including its predecessors this new volume brings together the wide range of research methods used to study education and makes the logic of inquiry for each method clear and accessible Each method is described in detail including its history its research design the questions that it addresses ways of using the method and ways of analyzing and reporting outcomes Key features of this indispensable book include the following Foundations Section Part I is unique among research books Its three chapters examine common philosophical epistemological and ethical issues facing researchers from all traditions and frames ways of understanding the similarities and differences among traditions Together they provide a tripartite lens through which to view and compare all research methods Comprehensive Coverage Part II the heart of the book presents 35 chapters on research design and analysis Each chapter includes a brief historical overview of the research tradition examines the questions that it addresses and presents an example of how the approach can be used Programs of Research Part III examines how research programs connected to eight specific lines of inquiry have evolved over time These chapters examine phenomena such as classroom

interaction language research issues of race culture and difference policy analysis program evaluation student learning and teacher education Complementary Methods As the title suggests a central mission of this book is to explore the compatibility of different research methods Which methods can be productively brought together and for what purposes How and on what scale can they be made compatible and what phenomena are they best suited to explore Flexibility The chapters in Parts II and III are largely independent Therefore selected portions of the book can be used in courses devoted to specific research methods and perspectives or to particular areas of education Likewise established researchers interested in acquiring new techniques or greater expertise in a given methodology will find this an indispensable reference volume This handbook is appropriate for any of the following audiences faculty teaching and graduate students studying education research education researchers and other scholars seeking an accessible overview of state of the art knowledge about specific methods policy analysts and other professionals needing to better understand research methods and academic and research libraries serving these audiences
