Reshaping Palestine From Muhammad Ali To The British Mandate 1831 1922:

Reshaping Palestine Martin Sicker, 1999-09-30 Sicker examines the early stages of the process by which Palestine an obscure and relatively miniscule backwater of the Ottoman Empire became a critical factor in the history and convoluted politics of the modern Middle East In doing this he describes relevant aspects of the history of Palestine in the little known and poorly understood period from the Napoleonic intrusion in the Middle East to the end of the Ottoman Empire and the beginnings of British rule Developments in this period are analyzed within the geopolitical context of the rivalries among the great European powers that were decisive factors in the modern history of the entire Middle East During this period the emergence of a Jewish nationalist movement abroad served as a catalyst for the social and economic transformation of Palestine prior to the British entry into the area during World War I It involved the unique attempt to reify the national aspirations of a people who for the most part lived outside the territory toward which those aspirations were directed It also represented the previously unprecedented involvement of representatives of nongovernmental organizations in serious international political negotiations How Palestine was reshaped by the various forces acting upon it during the period discussed is a key to understanding the subsequent history of the area An important guide for students scholars and general readers interested in the Middle East generally and Palestine in particular [Encyclopedia of the Palestinians](#) Philip

Mattar, 2005 Presents the history of modern Palestine and biographies of important Palestinians **The Balfour Declaration** Bernard Regan, 2017-12-05 The true history of the imperial deal that transformed the Middle East and sealed the fate of Palestine On 2 November 1917 the British government represented by Foreign Secretary Arthur Balfour declared it was in favour of the establishment in Palestine of a national home for the Jewish people This short note would become one of the most controversial documents of its time A hundred years later Bernard Regan recounts the composition of the Balfour Declaration as one of the major events in the history of the Middle East Offering new insights into the imperial rivalries between Britain Germany and the Ottomans Regan exposes British policy in the region as part of a larger geopolitical game Yet even then the course of events was not straightforward and Regan charts the debates within the British government the Zionist movement and the Palestinian groups struggling for self determination The after effects of these events are still being felt today Bernard Regan s urgent timely history excavates the origins of the current crisis **The Palestine Yearbook of**

languages shows the transition from an internal history characterised by local realities that were plural and multidimensional and where identities were flexible and hybrid to a simplified history largely imagined and imposed by external actors The author demonstrates how the once heterogeneous identities of Middle Eastern peoples were sealed into a standardised and uniform version that persists to this day He also sheds light on the efforts that peoples in the region in the context of a new process of homogenisation of diversities are exerting in order to get back into history regaining possession of their multifaceted pasts
