Resisting Reading Mandates How To Triumph With The Truth:

Resisting Reading Mandates Elaine M. Garan, 2002 Furthermore her book reveals the true findings of the NRP's report on commercial programs and isolated phonics instruction and the strong financial links that are connected to its science As Dick Allington says in the foreword to this book improving teaching and learning in the real world of schools and classrooms is difficult enough without government sponsored misallocation of effort and funding Jacket *Schoolhouse Shams* Peter Downs, 2013 Written by a parent and school board member who first embraced many of the ideas of the modern school reform movement *Schoolhouse Shams* lays bare much of the mythology and misinformation that underpin many of the failed school reform policies of the last decade Many of the top strategies of the highly publicized school reform movement already have been tried out in St Louis with disastrous results Along with demonstrating the failure of school reform prescriptions to improve education the experience of St Louis demonstrates that the ideological premise of the reform movement that a focus on providing opportunities for private profit taking will necessarily improve schools is both wrong and conflicts with the ideals of democracy accountability and justice **Reading's Non-negotiables** Rachael E. Gabriel, 2013 This book can be used as a guide for program design and evaluation as well as a source of ideas and reassurances for those currently engaged in the ongoing pursuit of effective literacy instruction for every reader every day How to End the Reading War and Serve the Literacy Needs of All Students P. L. Thomas, 2022-08-01 The twenty first century Reading War is in fact nothing new but some of the details are unique to our current culture driven by social media This volume seeks to examine the current Reading War in the context of the historical recurrence of public and political debates around student reading abilities and achievement Grounded in a media fascination with the science of reading and fueled by a rise in advocates for students with dyslexia the current Reading War has resulted in some deeply troubling reading policy grade retention and intensive phonics programs This primer for parents policy makers and people who care confronts some of the most compelling but misunderstood aspects of teaching reading in the U S while also offering a way toward ending the Reading War in order to serve all students regardless of their needs The revised expanded 2nd edition adds developments around the science of reading including the expanding impact on state policy and legislation as well as robust additions to the research base around teaching students to read *Changing Literacies for Changing Times* James V. Hoffman, Yetta M. Goodman, 2009-09-11 Offering the wisdom that only experience and expertise in the field can bring this book takes a critical look into the present and the future of literacy as envisioned by leading reading researchers The lead author of each chapter and in some cases more than one of the authors is a distinguished reading researcher elected by their peers into the Reading Hall of Fame In this book these distinguished literacy leaders extend their role as researchers to speak directly to issues of practice and policy All chapters address the theme of literacy and the teaching of literacy as being in a constant state of change The authors are theoretical as they describe literacy literacy acquisition and the teaching of literacy they are

practical as they examine the issues that classroom teachers and reading specialists engage with on a daily basis and they are political as they advocate for informed policy at the local state and national levels A key message in this book is that literacy professionals must take an active role to shape change

Marketing Fear in America's Public Schools Leslie Poynor, Paula Wolfe, 2005-01-15 Marketing Fear in America's Public Schools The Real War on Literacy is an eye opening examination of the real world consequences of the political pressures and influences on teachers today In particular it looks at how the political actions of the conservative right disempower and control teachers school districts parents and children through an atmosphere of fear used as a strategy to ensure that schools follow the conservative political agenda supporting and imposing mandates such as increased accountability high stakes testing and direct intense direct instruction phonics programs The book offers a unique look not at not only what the conservative factions are doing but why The volume includes chapters on resistance to the conservative agenda national and or federal agendas and actions that directly or indirectly contribute to the privatization and corporate control of public education the linkage of federal policy to the disappearance or promotion of particular philosophical and pedagogical approaches and the role of the media in perpetuating the agendas of the corporate and political right Many teachers across the U S are frustrated and angry about the outside legislative constraints placed on their work but at the same time frightened of losing their jobs and or being faced with a lawsuit The book's premise is that one must understand the motives behind the current educational reforms in order to resist them The editors and contributors envision the volume as a voice for an alternative to compliance with unreasonable mandates and thus as a message of hope Marketing Fear in America's Public Schools The Real War on Literacy is important reading for teachers teacher educators education students school administrators and other education professionals researchers concerned with literacy critical theory pedagogy and educational policy and parents and community activists concerned with the politics of schooling and school reform It will serve well as a text in a range of courses across the field of education A Web site for the book can be found at <http://www.erlbaum.com/poynor>

With Literacy and Justice for All Carole Edelsky, 2006-03-21 The third edition of With Literacy and Justice for All Rethinking the Social in Language and Education continues to document Carole Edelsky's long involvement with socially critical holistic approaches to the everyday problems and possibilities facing teachers of language and literacy This book helps education professionals understand the educational societal situations they are dealing with and literacy instruction and second language learning in particular contexts Edelsky does not offer simplistic pedagogical formulas but rather progressively works through differences and tensions in the discourses and practices of sociolinguistics bilingual education whole language and critical pedagogy fields whose practitioners and advocates too often work in isolation from each other and at times at cross purposes In this edition what Edelsky means by rethinking is improving and extending her own views while at the same time demonstrating that such rethinking always occurs in the light of history The volume includes a completely new Introduction and two entirely new

chapters one on reconceptualizing literacy learning as second language learning and another on taking a historical view of responses to standardized testing Throughout in updating the volume Edelsky uses a variety of structural styles to note contrasts in her views across time and to make the distinction clear between the original material and the current additions This edition is a rare example of a scholarly owning up to changes in thinking and a much needed demonstration of the historically grounded nature of knowledge As a whole the third edition emphasizes recursiveness and questioning within a deliberately political framework
