Shipps,1990 The tracer s goals are to identify the source of a quotation to find or to produce detailed citation based on a reliable edition of the work to find an authoritative text of the passage being traced and to do all this in the shortest time possible and with the least possible amount of effort *Languages of Labour* John Belchem,Neville Kirk,2021-02-27 This volume offers a multidisciplinary approach to the study of language in relation to the subject of history The British and American contributors put forward the idea that language is a broadly based means of communication with contested and consensual meanings and that such meanings must be revealed and evaluated by precise historical contextualisation of language and proper attention to established rules of historical method The essays contend that the connections between the linguistic and the social must be rethought The book aims to move beyond the unproductive fragmentation and relativism the narrow textual range and the literal and anti realist readings of the postmodern linguistic turn to offer a rigorous approach to the study of language and the subject of history *CLC 2018: Carpathian Logistics Congress* ,
